

Information Security Management System Policy

OBJECTIVE

The objective of managing information security is to ensure that ABL Asset Management Company's (also referred to as "ABL AMCL" or "organization" in this policy) core and supporting business operations continue to operate with minimal disruptions and without compromising the integrity of data. ABL AMCL shall ensure that all information that are stored, disbursed or produced by ABL AMCL have absolute integrity.

The formulation and adoption of Information Security Management System Policy shall guarantee that all relevant information are managed and stored with appropriate confidentiality procedures.
