REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of ABL Asset Management Company Limited, the management company of ABL Islamic Dedicated Stock Fund (ABL-IDSF), is pleased to present the Audited Financial Statements of ABL Islamic Dedicated Stock Fund for the year ended 30th June, 2026.

ECONOMIC REVIEW

FY26 marked a continuation of Pakistan's macroeconomic stabilization efforts, building on the foundations laid in FY25 with sustained policy reforms, completion of key IMF program milestones, and resilience amid evolving global challenges. The year featured moderate economic expansion, re-emerging inflationary pressures later in the period, and a near-balanced external account, against a backdrop of record remittances, geopolitical tensions (notably the US-Iran conflict impacting oil prices and shipping routes), and ongoing structural adjustments.

Pakistan's real GDP grew by 3.7% in FY26, up from the 3.18% growth recorded in FY25, indicating a strengthening but still modest recovery. Sector-wise performance showed improvements with some moderation: the agriculture sector rebounded to around 2.89% growth in FY26 (from 1.53% in FY25), supported by better performance in wheat, sugarcane, rice, and livestock despite climatic challenges and floods in some areas. The industrial sector posted solid growth of 3.51%, driven by manufacturing and construction recovery amid improved energy availability and policy support (compared to 5.56% in FY25). The services sector expanded more robustly at 4.09% (versus 3.14% in FY25), bolstered by wholesale & retail trade, finance, and public administration.

Inflationary pressures, which had eased significantly in FY25, began to re-emerge moderately over the course of FY26 due to base effects, rising global commodity prices, and domestic factors. The Consumer Price Index (CPI) averaged 7.04% during FY26 (with the year-end June reading recorded at 11.07% YoY), higher than the 4.49% average in FY25 but still well below earlier peaks. This was influenced by improved food supplies initially, but later pressures from energy costs amid geopolitical volatility. The policy rate saw easing early in the fiscal year to a low of 10.5%, supporting growth, though the central bank raised it by 100 basis points to 11.5% in April 2026 in response to inflation trends and external developments.

The external account performance remained relatively resilient but shifted to a marginal deficit, with the current account posting a small cumulative deficit of USD 139 million in FY26 compared to a surplus of USD 1.838 billion in FY25. This was largely due to a widening trade deficit and rising imports, partially offset by robust remittance inflows, which hit a record USD 41.585 billion in FY26, up from USD 38.3 billion in FY25. The PKR remained broadly stable, supported by reserve accumulation and reduced volatility. Foreign exchange reserves followed an upward trajectory, with total liquid reserves rising to USD 22.04 billion by June 24, 2026 (SBP reserves at USD 16.53 billion), bolstered by multilateral and bilateral inflows, improved market sentiment, and the ongoing IMF Extended Fund Facility (EFF) support.

On the fiscal side, the Federal Board of Revenue (FBR) reported provisional net collections of Rs 13.004 trillion in FY26, reflecting continued progress in tax administration reforms, formalization, and enforcement while exceeding the revised target of Rs 12.983 trillion. The government presented the FY27 Federal Budget, focusing on revenue mobilization, expenditure control, growth-oriented measures (such as adjustments to super tax), and further alignment with IMF benchmarks to support the extended program.

Despite intermittent global volatility - particularly from the Iran-Israel/US tensions, disruptions in the Strait of Hormuz, renewed tariff uncertainties, and fluctuating commodity prices (with oil seeing upward spikes) - these factors tested external resilience. Higher energy import costs contributed to inflationary and current account

pressures, but strong remittances and reserve buffers helped mitigate impacts. Combined with political continuity, governance improvements, and reform momentum, these trends sustained a stable macroeconomic environment, supporting market sentiment in equity and fixed-income segments while fostering a cautiously optimistic business climate.

In summary, FY26 represented steady progress in Pakistan's macroeconomic trajectory, with accelerated GDP growth, record remittances, strengthened reserves, and sustained reforms, even as modest re-emerging inflation and a near-balanced current account reflected new challenges from geopolitical headwinds. The platform established over these years positions the economy for more robust medium-term growth, subject to continued reform implementation, fiscal discipline, and favorable external conditions.

MUTUAL FUND INDUSTRY REVIEW

In fiscal year 2026, the open-end mutual fund industry recorded robust growth, with assets under management (AUM) increasing by 14.61% year-on-year, from PKR 3,833 billion to PKR 4,393 billion. Significant inflows were observed in Shariah Compliant Fixed Rate Funds which grew by PKR 146 billion (152.7%) year-on-year, reaching a balance of PKR 241 billion. Equity market funds, encompassing both Conventional and Islamic categories, also experienced substantial growth of PKR 228 billion (38.08%) year-on-year. However, Money Market Funds and Fixed Rate Funds saw declines of PKR 71 billion (-6.4%) and PKR 42 billion (-24.1%) year-on-year, respectively which reflects capital reallocating away from short-term money market instruments as cash yields compressed following interest rate cuts.

STOCK MARKET REVIEW (ISLAMIC)

During FY2026, the KMI-30 Index performed strongly, increasing from 184,887 points in June 2025 to 257,327 points by June 2026, delivering a return of 39.2%. The market remained largely positive during the year, supported by improving economic conditions, stronger investor confidence, and better liquidity. The index gained significant momentum in the first half of FY2026, reaching 248,539 points by December 2025 and an intra-year high of 261,050 points in January 2026. The rally was supported by improving macroeconomic stability, higher foreign exchange reserves, strong remittance inflows, and expectations of economic recovery. However, the market faced volatility during the year due to geopolitical tensions, uncertainty in global markets, and concerns over rising oil prices, which led to profit-taking and pushed the index down to 216,076 points in March 2026.

The market recovered strongly in the final quarter as investor confidence improved, supported by stable economic indicators and strong domestic participation, closing the year at 257,327 points. Trading activity remained healthy during FY2026, with average monthly traded value standing at around USD 104 million during the year, rising from USD 69 million in June 2025 to a peak of USD 191 million in April 2026, reflecting improved liquidity and stronger investor participation. Trading volumes also remained robust, with the average monthly traded volume reaching approximately 238 million shares, compared with 184 million shares in June 2025 and 257 million shares by June 2026. Foreign investors remained net sellers during FY2026, recording cumulative equity outflows of approximately USD 852 million, mainly driven by Foreign Corporates with net selling of USD 904 million, while Overseas Pakistanis provided some support with net buying of USD 56 million.

However, domestic investors provided strong support to the market by absorbing foreign selling pressure. Among local participants, Companies emerged as the largest net buyers with inflows of USD 588 million, followed by Mutual Funds (USD 407 million) and Individuals (USD 330 million), while Insurance Companies (USD 243 million) and Banks/DFIs (USD 177 million) remained net sellers. The market was further supported by improving economic fundamentals, including GDP growth of 3.7%, 6.4% growth in Large-Scale Manufacturing, record workers' remittances of over USD 40 billion, improved foreign exchange reserves of around USD 16-17 billion, and a primary fiscal surplus of approximately 3.5% of GDP. Inflation remained under control for most of the year, while the SBP policy rate ended FY2026 at 11.5% after gradual monetary easing. Overall, FY2026 was a strong year for the KMI-30 Index, with the index delivering significant returns despite short-term volatility caused by geopolitical risks and global uncertainty.

SECTOR-WISE OVERVIEW

OIL & GAS EXPLORATION COMPANIES

Contributing 6,182.32 points (11.06%) to the index, the exploration & production (E&P) sector performed strongly amid global commodities upcycle. Rising international oil prices, better domestic gas recovery ratios, and partial progress on the circular debt resolution front enhanced investor sentiment. The sector's earnings were further supported by stable exchange rates and higher production volumes across key fields. Pakistan's E&P sector is entering a transformative phase driven by major policy incentives, renewed foreign interest, and high-yield discoveries. With the government awarding 24 offshore blocks after nearly two decades and bringing in international partners like Turkey's TPAO and Kuwait's KUFPEC, the region is positioned for a significant influx of foreign direct investment. Operationally, high-impact developments-most notably the inauguration of the Baragzai X-01 well alongside new additions like Shewa and Spinwam-1-are providing much-needed volumetric support to cushion the annual natural decline of legacy fields. At the same time, ongoing regulatory reforms and gas tariff rationalization aim to ease the long-standing circular debt bottleneck and improve cash flow visibility for major operators. Looking ahead, while security challenges and structural debt continue to pose headwinds, the strategic pivot toward offshore exploration, combined with forced reinvestment into aggressive drilling programs, underpins a strong operational outlook for domestic E&P players over the medium term.

OIL MARKETING COMPANIES

The OMC sector contributed -183.14 points (-0.33%) to the index in FY26. Pakistan's OMC sector in FY26 was defined by a strong first half followed by a sharp price-driven demand squeeze in the final quarter, leaving full-year sales broadly flat at 16.19 million tons. Motor Spirit demonstrated notable resilience (+1% YoY) owing to inelastic urban mobility, while High-Speed Diesel declined slightly (-1% YoY) under the weight of record pump prices and cross-border smuggling. Meanwhile, Furnace Oil sales collapsed by 26% YoY as the power grid completed its structural pivot toward hydel and alternative baseload generation. Market share dynamics re-aligned noticeably: state-owned PSO's share contracted to 42.4%, whereas private operators like WAFI Energy (+10% volume growth) and GO gained ground. Supported by a full PDL collection of PKR 1.51 trillion, FY26 closed as a period of top-line operational stabilization, though underlying retail demand remains highly sensitive to international price shocks.

FERTILIZER SECTOR

The Fertilizer Sector contributed 9,716.12 points (20.59%) to FY26 index gains. FY26 demonstrated the structural resilience of Pakistan's fertilizer manufacturers, where strong urea pricing power and dedicated feedstock gas allocations offset severe global DAP cost pressures. FFC's post-merger scale and expanded market share positioned it as the primary beneficiary of the sector's volume recovery, while EFERT's margin focus helped digest elevated channel inventories. Looking ahead, the formalization of discounted gas tariffs from the Ghazij/Shawal fields alongside joint investments in Mari Pressure Enhancement Facility infrastructure underpins high operating rates and cash-flow visibility for listed producers. Although farm-level profitability remains under pressure from high phosphatic input costs and imbalanced nutrient usage, the sector's overall, financial outlook remains highly robust, supported by strong local demand and minimal import dependence for urea.

CEMENT SECTOR

The cement sector contributed 3,979.39 points (7.12%) and staged a strong recovery in FY26, driven by the revival in domestic construction activity. Total dispatches increased 7.5% YoY to 50.52 million tons, supported by a 12% YoY rebound in domestic sales to 41.51 million tons, while exports declined 2.2% YoY to 9.01 million tons amid regional trade disruptions. North-based producers benefited from stronger local demand despite a sharp decline in exports, whereas southern producers remained supported by seaborne exports. Industry capacity utilization improved to 60% from 55.1% in FY25, aided by lower interest rates, higher development spending and government-backed housing initiatives, including the Wazir-e-Azam Apna Ghar Program (Ghar Ho To Apna) and Punjab's

Apna Chat, Apna Ghar scheme. Domestic cement demand is expected to grow by 7-8% YoY, supported by macroeconomic stability, lower financing costs and continued momentum in affordable housing schemes. However, with installed industry capacity of approximately 86.6 million tons, persistent overcapacity and intense price competition, particularly in the North, are likely to constrain margin expansion.

TECHNOLOGY & COMMUNICATION

The Technology & Communication sector delivered a strong performance in FY26 contributing 2,364.12 points (4.23%), underpinned by robust earnings growth from export-oriented companies. Pakistan's IT and IT-enabled services exports reached a record \$4.6 billion, up 21% YoY, while June 2026 exports rose to \$416 million, increasing 23% YoY. Growth was driven by sustained global demand for software development, business process outsourcing and cloud services, while stronger export volumes and client acquisition offset the impact of a stable exchange rate on foreign currency translation gains. The sector is expected to maintain its growth trajectory, supported by expanding global outsourcing demand, government initiatives promoting IT exports and digitalization, and increasing penetration into international markets. However, rising employee costs, evolving tax policies, dependence on key export markets and limited exchange-rate gains due to PKR stability remain key risks to earnings growth.

AUTOMOBILE ASSEMBLERS

The automobile sector delivered a strong performance in FY26, contributing 1,619.99 points (2.9%), underpinned by a broad-based volume recovery across all major segments. Industry-wide sales reached a record 2.22 million units, up 30% YoY, while industry cars (PC/SUV/LCV) rose 39% YoY to 206,102 units, led by LCV+SUV volumes which grew 42% to 50,814 units on sustained SUV demand. Growth was driven by the continuation of monetary easing, with the policy rate settling at 11.5% reviving auto financing and consumer confidence, alongside exchange rate stability, improving purchasing power on moderating inflation, and an expanding model lineup from new entrants. Commercial vehicles improved materially with trucks and buses up 61% YoY to 8,424 units on stronger industrial activity, while two- and three-wheelers - the largest volume base - grew 30% to 1.97 million units. Farm tractors were the lone laggard, down 2% YoY to 28,658 units on softer farm-sector offtake. Among listed players, SAZEW (+77%) and GAL (+92%) led growth on Haval/Tank-500 and JAC LCV demand, followed by HCAR (+53%), while INDU grew a more modest 34% as Corolla/Yaris faced pricing competition. The sector is expected to sustain its growth trajectory, supported by interest rate stability, rising competition driving new model launches, and expanding hybrid and EV offerings. However, the FY27 Budget's Special Excise Duty of 86-92% on 2,000cc+ vehicles, sharply lower customs duties on smaller imported vehicles under IMF-mandated tariff rationalization, the unresolved GST treatment of hybrids following AIDEP expiry, and margin compression from intensifying competition remain key risks to earnings growth.

STOCK MARKET OUTLOOK

During FY26, equity markets demonstrated broad resilience despite prevailing global economic uncertainty, geopolitical tensions, volatile commodity prices, and evolving monetary policy conditions. Looking ahead, we anticipate positive market momentum to persist, underpinned by projected earnings growth, stable macroeconomic fundamentals, and improving market liquidity, although market performance is expected to remain sensitive to geopolitical developments. GDP growth for FY27 is projected to improve, led primarily by expansion in the services and industrial sectors, with any potential reduction in the policy rate expected to provide further impetus to industrial sector growth. PKR is expected to remain broadly stable against the US Dollar, with no major depreciation anticipated, supported by timely external inflows and continued focus on prudent management of the external account. Average inflation for FY27 is projected to remain modestly above the State Bank of Pakistan's medium term target range, however, as global oil prices continue to ease, inflation is expected to moderate from current levels, creating room for potential monetary easing going forward. The KSE-100 Index is currently trading at an attractive 7.3x forward price-to-earnings (P/E) ratio, offering competitive dividend yield, and we expect improving fundamentals to drive a re-rating toward a 9.0x forward P/E, reinforcing a positive medium-term outlook for the equity market.

FUND PERFORMANCE

For the Year ended FY26, ABL-IDSF delivered a return of 26.84% against the benchmark return of 39.18%, reflecting an underperformance of 12.34%. During the year under review, ABL Islamic Dedicated Stock Fund's AUM decreased by 19.81% and stood at PKR 105.62mn on 30th June'26 as compared to PKR 131.71mn on 30th June'26.

Total dispatches increased 7.5% YoY to 50.52 million tons, supported by a 12% YoY rebound in domestic sales to 41.51 million tons, while exports declined 2.2% YoY to 9.01 million tons amid regional trade disruptions. North-based producers benefited from stronger local demand despite a sharp decline in exports, whereas southern producers remained supported by seaborne exports. Industry capacity utilization improved to 60% from 55.1% in FY25, aided by lower interest rates, higher development spending and government-backed housing initiatives, including the Wazir-e-Azam Apna Ghar Program (Ghar Ho To Apna) and Punjab's Apna Chat, Apna Ghar scheme. Domestic cement demand is expected to grow by 7-8% YoY, supported by macroeconomic stability, lower financing costs and continued momentum in affordable housing schemes. However, with installed industry capacity of approximately 86.6 million tons, persistent overcapacity and intense price competition, particularly in the North, are likely to constrain margin expansion.

Technology & Communication:

The Technology & Communication sector delivered a strong performance in FY26 contributing 2,364.12 points (4.23%), underpinned by robust earnings growth from export-oriented companies. Pakistan's IT and IT-enabled services exports reached a record \$4.6 billion, up 21% YoY, while June 2026 exports rose to \$416 million, increasing 23% YoY. Growth was driven by sustained global demand for software development, business process outsourcing and cloud services, while stronger export volumes and client acquisition offset the impact of a stable exchange rate on foreign currency translation gains. The sector is expected to maintain its growth trajectory, supported by expanding global outsourcing demand, government initiatives promoting IT exports and digitalization, and increasing penetration into international markets. However, rising employee costs, evolving tax policies, dependence on key export markets and limited exchange-rate gains due to PKR stability remain key risks to earnings growth.

Automobile Assemblers:

The automobile sector delivered a strong performance in FY26, contributing 1,619.99 points (2.9%), underpinned by a broad-based volume recovery across all major segments. Industry-wide sales reached a record 2.22 million units, up 30% YoY, while industry cars (PC/SUV/LCV) rose 39% YoY to 206,102 units, led by LCV+SUV volumes which grew 42% to 50,814 units on sustained SUV demand. Growth was driven by the continuation of monetary easing, with the policy rate settling at 11.5% reviving auto financing and consumer confidence, alongside exchange rate stability, improving purchasing power on moderating inflation, and an expanding model lineup from new entrants. Commercial vehicles improved materially with trucks and buses up 61% YoY to 8,424 units on stronger industrial activity, while two- and three-wheelers - the largest volume base - grew 30% to 1.97 million units. Farm tractors were the lone laggard, down 2% YoY to 28,658 units on softer farm-sector offtake. Among listed players, SAZEW (+77%) and GAL (+92%) led growth on Haval/Tank-500 and JAC LCV demand, followed by HCAR (+53%), while INDU grew a more modest 34% as Corolla/Yaris faced pricing competition. The sector is expected to sustain its growth trajectory, supported by interest rate stability, rising competition driving new model launches, and expanding hybrid and EV offerings. However, the FY27 Budget's Special Excise Duty of 86-92% on 2,000cc+ vehicles, sharply lower customs duties on smaller imported vehicles under IMF-mandated tariff rationalization, the unresolved GST treatment of hybrids following AIDEP expiry, and margin compression from intensifying competition remain key risks to earnings growth.

Stock Market Outlook:

During FY26, equity markets demonstrated broad resilience despite prevailing global economic uncertainty, geopolitical tensions, volatile commodity prices, and evolving monetary policy conditions. Looking ahead, we anticipate positive market momentum to persist, underpinned by projected earnings growth, stable macroeconomic fundamentals, and improving market liquidity, although market performance is expected to remain sensitive to geopolitical developments. GDP growth for FY27 is projected to improve, led primarily by expansion in the services and industrial sectors, with any potential reduction in the policy rate expected to provide further impetus to industrial sector growth. PKR is expected to remain broadly stable against the US Dollar, with no major depreciation anticipated, supported by timely external inflows and continued focus on prudent management of the external account. Average inflation for FY27 is projected to remain modestly above the State Bank of Pakistan's medium term target range, however, as global oil prices continue to ease, inflation is expected to moderate from current levels, creating room for potential monetary easing going forward. The KSE-100 Index is currently trading at an attractive 7.3x forward price-to-earnings (P/E) ratio, offering competitive dividend yield, and we expect improving fundamentals to drive a re-rating toward a 9.0x forward P/E, reinforcing a positive medium-term outlook for the equity market.

Fund Performance:

For the Year ended FY26, ABL-IDSF delivered a return of 26.84% against the benchmark return of 39.18%, reflecting an underperformance of 12.34%. During the year under review, ABL Islamic Dedicated Stock Fund's AUM decreased by 19.81% and stood at PKR 105.62mn on 30th June'26 as compared to PKR 131.71mn on 30th June'25.

INDEPENDENT ASSURANCE REPORT ON COMPLIANCE WITH THE SHARIAH GOVERNANCE REGULATIONS, 2023

To The Board of Directors of ABL Asset Management Company Limited

1. Introduction

We have undertaken a reasonable assurance engagement that the Securities and Exchange Commission of Pakistan (the SECP) has required in terms of its Shariah Governance Regulations, 2023 (the Regulations) – External Shariah Audit of **ABL Islamic Dedicated Stock Fund (the Fund)** for assessing compliance of the Fund's financial arrangements, contracts, and transactions having Shariah implications with the Shariah principles for the year ended June 30, 2026. This engagement was conducted by a multidisciplinary team including assurance practitioners and independent Shariah scholar.

2. Applicable Criteria

The criteria for the assurance engagement, against which the underlying subject matter (financial arrangements, contracts, and transactions having Shariah implications for the year ended June 30, 2026) is assessed, comprise of the Shariah principles and rules, as defined in the Regulations and reproduced as under:

- a) legal and regulatory framework administered by the SECP;
- b) Shariah standards issued by the Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI), as notified by the SECP;
- c) Islamic Financial Accounting Standards, developed by the Institute of Chartered Accountants of Pakistan (ICAP), as notified by the SECP;
- d) guidance and recommendations of the Shariah Advisory Committee, as notified by the SECP; and
- e) approvals, rulings or pronouncements of Shariah Advisor of the Fund, in line with (a) to (d) above.

Our engagement was carried out as required under Regulation 29 of Chapter VII of the Regulations.

The above criteria were evaluated for their implications on the financial statements of the Fund for the year ended June 30, 2026, which are annexed.

3. Management's Responsibility for Shariah Compliance

Management is responsible to ensure that the financial arrangements, contracts, and transactions, having Shariah implications, entered into by the Fund with its unit holders, other financial institutions and stakeholders and related policies and procedures are, in substance and legal form, in compliance with the requirements of Shariah rules and principles. The management is also responsible for design, implementation and maintenance of appropriate internal control procedures with respect to such compliance and maintenance of relevant accounting records.

4. Our Independence and Quality Control

We have complied with the independence and other ethical requirements of the Code of Ethics for Chartered Accountants issued by the Institute of Chartered Accountants of Pakistan (the Code), which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

ISO 27001 Certified Since 2017

The firm applies International Standard on Quality Management (ISQM-1) "Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements" and accordingly maintains a comprehensive system of quality management including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

5. Our Responsibility and Summary of the Work Performed

Our responsibility in connection with this engagement is to express an opinion on compliance of the Fund's financial arrangements, contracts, and transactions having Shariah implications, with Shariah principles in all material respects for the year ended June 30, 2026, based on the evidence we have obtained. We conducted our reasonable assurance engagement in accordance with International Standard on Assurance Engagements 3000 (Revised), 'Assurance Engagements Other than Audits or Reviews of Historical Financial Information', issued by the International Auditing and Assurance Standards Board. That standard requires that we plan and perform this engagement to obtain reasonable assurance about whether the compliance of the Funds financial arrangements, contracts, and transactions having Shariah implications with Shariah principles is free from material misstatement.

The procedures selected by us for the engagement depended on our judgement, including the assessment of the risks of material non-compliance with the Shariah principles. In making those risk assessments, we considered and tested the internal control relevant to the Fund's compliance with the Shariah principles in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. We have designed and performed necessary verification procedures on various financial arrangements, contracts and transactions having Shariah implications and related policies and procedures based on judgmental and systematic samples with regard to the compliance of Shariah principles (criteria specified in para 2 above).

We believe that the evidence we have obtained through performing our procedures were sufficient and appropriate to provide a basis for our opinion.

6. Conclusion

Based on our reasonable assurance engagement, we report that, in our opinion, the Fund's financial arrangements, contracts, and transactions for the year ended June 30, 2026, are in compliance with the Shariah principles (criteria specified in the paragraph 2 above), in all material respects.

The engagement partner on the assurance resulting in this independent assurance report is Muhammad Sufyan

INDEPENDENT AUDITOR'S REPORT

To the Unit holders of ABL Islamic Dedicated Stock Fund

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of ABL Islamic Dedicated Stock Fund (the Fund / Collective Investment Scheme), which comprise the statement of assets and liabilities as at June 30, 2026, and the income statement, the statement of comprehensive income, statement of movement in unit holders' fund and cash flow statement for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at June 30, 2026, and of its financial performance and its cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the key audit matter:

S. No.	Key Audit Matter	How the matter was addressed in our audit
1	Net Asset Value (NAV) (Refer notes 5 and 6 to the financial statements)	
	The bank balances and investments constitute the most significant components of the net asset value. The bank balances of the Fund aggregated to Rs. 2.853 million and investments of the Fund amounted to Rs. 106.797 million as at June 30, 2026. The existence of bank balances and the existence and the proper valuation of investments for the determination of NAV of the Fund as at June 30, 2026 were considered high risk areas and therefore we considered this as a key audit matter.	Our audit procedures amongst others, included the following: - Obtained independent confirmations for verifying the existence of the investment portfolio and bank balances as at June 30, 2026 and traced the confirmed balances to the books and records of the Fund. Where such confirmations were not available, alternative audit procedures were performed; - Re-performed the valuation to assess that investments are carried as per the valuation methodology specified in the accounting policies; and - Obtained bank reconciliation statements and tested reconciling items on a sample basis.

Information Other than the Financial Statements and Auditor's Report Thereon

The Management Company (ABL Asset Management Company Limited) is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management Company and Board of Directors of Management Company for the Financial Statements

The Management Company (ABL Asset Management Company Limited) is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Board of Directors of the Management Company is responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management Company.

- Conclude on the appropriateness of Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors of the Management Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Board of Directors of the Management Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with Board of Directors of the Management Company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) the financial statements have been properly prepared in accordance with the relevant provisions of the Non-Banking Finance Companies and Notified Entities Regulations, 2008;
- b) proper books and records have been kept by the Collective Investment Scheme or the financial statements prepared are in agreement with the books and records of Collective Investment Scheme; and
- c) we were able to obtain all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of the audit.

The engagement partner on the audit resulting in this independent auditor's report is **Noman Abbas Sheikh**.

ABL ISLAMIC DEDICATED STOCK FUND

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2026

1 LEGAL STATUS AND NATURE OF BUSINESS

- 1.1** ABL Islamic Dedicated Stock Fund (the Fund) is an open ended mutual fund constituted under a Trust Deed entered into on November 17, 2016 between ABL Asset Management Company Limited (ABL AMCL) as the Management Company and Digital Custodian Company Limited (formerly MCB Financial Services Limited) as the Trustee. The Offering Document of the Fund was revised through the first and second supplements dated June 25, 2021 and July 1, 2025 respectively with the approval of the Securities and Exchange Commission of Pakistan (SECP). The SECP authorised constitution of the Trust Deed vide letter no. AMCW/ABLAMC/305/2016 dated November 10, 2016 in accordance with the requirements of the Non-Banking Finance Companies and Notified Entities Regulation, 2008.

During the year ended June 30, 2021, the Trust Act, 1882 was repealed due to the promulgation of Provincial Trust Act namely "The Punjab Trusts Act, 2020" (the Punjab Trust Act) as empowered under the Eighteenth Amendment to the Constitution of Pakistan. Consequently, the Fund was required to be registered under the Punjab Trust Act. Accordingly, on June 22, 2023, the Fund has been registered as a Trust under the Punjab Trust Act and has been issued a Trust Registration Certificate.

- 1.2** The Management Company of the Fund has been licensed to act as an Asset Management Company under the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules) through a certificate of registration issued by the SECP. The registered office of the Management Company is situated at Plot No. 14, Main Boulevard, DHA Phase 6, Lahore. The Management Company is a member of the Mutual Funds Association of Pakistan (MUFAP).
- 1.3** The Fund has been categorised as a Shariah compliant equity scheme by the Board of Directors of the Management Company pursuant to the provisions contained in Circular 7 of 2009. The units of the Fund were initially offered for public subscription at a par value of Rs 10 per unit. Thereafter, the units are being offered for public subscription on continuous basis and are transferable and redeemable by surrendering them to the Fund. The Fund is also listed on Pakistan Stock Exchange Limited.
- 1.4** The objective of ABL Islamic Dedicated Stock Fund is to provide capital appreciation to investors of 'Fund of Funds' schemes by investing in Shariah compliant equity securities.
- 1.5** Pakistan Credit Rating Agency Limited (PACRA) has maintained an asset manager rating of 'AM1' with 'stable outlook' dated October 24, 2025 (2025: AM1 with 'stable outlook' dated October 25, 2024). The rating reflects the Management Company's experienced management team, structured investment process and sound quality of systems and processes. The Fund has not been assigned any rating.
- 1.6** The title to the assets of the Fund is held in the name of Digital Custodian Company Limited as the Trustee of the Fund.

2 BASIS OF PRESENTATION

The transactions undertaken by the Fund in accordance with the processes prescribed under the Shariah guidelines issued by the Shariah Advisor and are accounted for on substance rather than the form prescribed by the aforementioned guidelines. This practice is being followed to comply with the requirements of the approved accounting and reporting standards as applicable in Pakistan.

3 BASIS OF PREPARATION

3.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- IFRS Accounting Standards issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Provisions of, directives and notifications issued under the Companies Act, 2017 along with part VIIIA of the repealed Companies Ordinance, 1984; and
- Non-Banking Finance Companies (Establishment and Regulations) Rules, 2003 (the NBFC Rules), Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations).

Where provisions of, directives and notifications issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance, 1984, the NBFC Rules, the NBFC Regulations and requirements of the Trust Deed differ from the IFRS Accounting Standards, the provisions of, directives and notifications issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance, 1984, the NBFC Rules, the NBFC Regulations have been followed.

3.2 Standards, interpretations and amendments to published accounting and reporting standards that are effective in the current year

There are certain amendments to the published accounting and reporting standards that are mandatory for the Fund's annual accounting period beginning on July 1, 2025. However, these are not considered to be relevant or did not have any material effect on the Fund's financial statements and have, therefore not been disclosed in these financial statements.

3.3 Standards, interpretations and amendments to published accounting and reporting standards that are not yet effective

There are certain new standards and amendments to the published accounting and reporting standards that will be applicable to the Fund for its annual periods beginning on or after July 1, 2026. However, these are not considered to be relevant or will not have any material effect on the Fund's financial statements except for:

- The new standard - IFRS 18 Presentation and Disclosure in Financial Statements (IFRS 18) (published in April 2024) with an applicability date of January 1, 2027 by the IASB. IFRS 18 when adopted and applicable shall impact the presentation of the 'Income Statement' with certain additional disclosures in the financial statements; and
- Amendments to IFRS 9 'Financial Instruments' which clarify the date of recognition and derecognition of a financial asset or financial liability including the settlement of liabilities through banking instruments and channels including electronic transfers with effective date of January 1, 2026. The amendments when applied may impact the timing of recognition and derecognition of financial liabilities.

The management is in the process of assessing the impact of the new standards and amendments on the financial statements of the Fund.

3.4 Critical accounting estimates and judgments

The preparation of financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires the management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses. The estimates, judgments and associated assumptions are based on historical experience and various other factors including expectations of future events that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about the carrying values of assets and liabilities. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

The estimates and judgments that have a significant effect on the financial statements of the Fund relate to classification and valuation of financial assets (notes 4.2 and 6).

3.5 Accounting convention

These financial statements have been prepared under the historical cost convention except for investments classified as 'at fair value through profit or loss' which are measured at their respective fair values. The details in respect of valuation techniques under IFRS 13 'Fair Value Measurement' used for the fair valuation of financial assets have been disclosed in Note 20.

3.6 Functional and presentation currency

Items included in these financial statements are measured using the currency of the primary economic environment in which the Fund operates. These financial statements are presented in Pakistani Rupees, which is the Fund's functional and presentation currency.

4 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been applied consistently to all the years presented, unless otherwise stated.

4.1 Cash and cash equivalents

Cash and cash equivalents are carried in the Statement of Assets and Liabilities at amortised cost.

These comprise balances with banks in savings and current accounts and other short-term highly liquid investments with original maturities of three months or less.

4.2 Financial Assets

4.2.1 Initial recognition and measurement

Financial assets are recognised at the time the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair value plus transaction costs except for financial assets carried 'at fair value through profit or loss'. Financial assets carried 'at fair value through profit or loss' are initially recognised at fair value and transaction costs are recognised in the Income Statement'.

4.2.2 Classification and subsequent measurement

4.2.2.1 Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective and are instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

All equity investments are required to be measured in the 'Statement of Assets and Liabilities' at fair value, with gains and losses recognised in the Income Statement, except where an irrevocable election has been made at the time of initial recognition to measure the investment at Fair Value through Other Comprehensive Income (FVOCI). The management considers its investment in equity securities to be managed as a group of assets and hence has classified them as Fair Value through Profit or Loss (FVPL). Accordingly, the irrevocable option has not been considered.

The dividend income for equity securities classified under FVPL is recognised in the 'Income Statement'.

4.2.3 Impairment

The Fund assesses on a forward-looking basis the expected credit losses (ECL) associated with its financial assets carried at amortised cost and FVOCI. The Fund recognises loss allowances for such losses at each reporting date. The measurement of ECL reflects:

- an unbiased and probability weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Fund considers that a financial asset is in default when the counterparty fails to make contractual payments within 90 days of when they fall due. Further, financial assets are written off by the Fund, in whole or part, when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery.

4.2.4 Regular way contracts

All regular way purchases and sales of financial assets are recognised on the trade date i.e., the date on which the Fund commits to purchase or sell the asset.

up to February 8, 2026, regular way purchases / sales of assets required delivery of securities within two days from the transaction date (T+2) as per the Pakistan Stock Exchange Limited Regulations. Effective from February 9, 2026, in accordance with the revised regulations of the Pakistan Stock Exchange (PSX) and National Clearing Company of Pakistan Limited (NCCPL), the settlement cycle has transitioned to a Trade plus one day (T+1) basis, requiring delivery of securities within one day from the transaction date.

4.2.5 Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred, the Fund has transferred substantially all the risks and rewards of ownership or the Fund neither transfers nor retains substantially all the risks and rewards of ownership and the Fund has not retained control. Any gain or loss on derecognition of financial assets is taken to the 'Income Statement'.

4.3 Financial liabilities

4.3.1 Classification and subsequent measurement

Financial liabilities are recognised at the time when the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair value and subsequently stated at amortised cost.

4.3.2 Derecognition

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Any gain or loss on derecognition of financial liabilities is taken to the 'Income Statement'.

4.4 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the 'Statement of Assets and Liabilities' when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Income and expenses are presented on a net basis only when permitted by the accounting and reporting standards as applicable in Pakistan.

4.5 Provisions

Provisions are recognised when the Fund has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

4.6 Net asset value per unit

The Net Asset Value (NAV) per unit, as disclosed in the 'Statement of Assets and Liabilities', is calculated by dividing the net assets of the Fund by the number of units in circulation at the year end.

4.7 Issuance and redemption of units

Units issued are recorded at the offer price, determined by the Management Company for the applications received by the Management Company / distributors during business hours on that day when the application is received. The offer price represents the Net Asset Value (NAV) per unit as at the close of the business day, plus the allowable sales load, provision of any duties, charges and provision for transaction costs, if applicable. The sales load is payable to the Management Company / distributors.

Units redeemed are recorded at the redemption price prevalent on the date on which the Management Company / distributors receive redemption applications during business hours on that date. The redemption price represents the NAV as on the close of the business day, less any duties, taxes, charges on redemption and any provision for transaction costs, if applicable.

4.8 Distribution to unit holders

Distributions to the unit holders are recognised upon declaration and approval by the Board of Directors of the Management Company. Based on the Mutual Funds Association of Pakistan's (MUFAP) guidelines duly consented by the SECP, distribution for the year also includes a portion of income already paid on units redeemed during the year.

Distributions declared subsequent to the year end reporting date are considered as non-adjusting events and are recognised in the financial statements for the year in which such distributions are declared and approved by the Board of Directors of the Management Company.

4.9 Element of income / (losses) and capital gains / (losses) included in prices of units issued less those in units redeemed

The element of income / (loss) represents the difference between the net asset value (NAV) per unit on the issuance or redemption date, as the case may be, of units and the NAV per unit at the beginning of the relevant accounting year. Further, the element of income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund. However, to maintain the same ex-dividend NAV of all units outstanding on the accounting date, net element of income contributed on issue of units lying in unit holders' fund is refunded on units in the same proportion as the dividend bears to accounting income available for distribution on redemption of units.

4.10 Revenue Recognition

- Realised gains / (losses) arising on sale of investments are included in the Income Statement and are recognised on the date when the transaction takes place;
- Unrealised appreciation / (diminution) arising on re-measurement of investments classified as financial assets 'at fair value through profit or loss' are included in the Income Statement in the period in which they arise;
- Dividend income is recognised when the Fund's right to receive the same is established, i.e. on the date of commencement of book closure of the investee company / institution declaring the dividend; and
- Profit on saving accounts with banks is recognised on an time proportion basis using the effective yield method.

4.11 Expenses

All expenses chargeable to the Fund including remuneration of the Management Company, Trustee and annual fee of the SECP are recognised in the 'Income Statement' on an accrual basis.

4.11.1 Treatment of Shariah non-compliant income

Income earned by the Fund may contain shariah non-compliant income. The Fund is required to "purify" the income it receives by excluding the element of impermissible income as charity. Such purification is carried out in accordance with the guidelines approved by the Shariah Advisor of the Fund. The charity has been recorded as an expense in the financial statements of the Fund.

4.12 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of its accounting income for the year, as reduced by capital gains, whether realised or unrealised, is distributed amongst unit holders. Furthermore, for the purpose of determining distribution of at least 90 percent of the accounting income, the income distributed through bonus units shall not be taken into account.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

- 6.1.2 During the year, The Searle Company Limited (SEARL) announced and issued a bonus issue of 15%, applicable to the number of shares held as at October 10, 2025. Accordingly the Fund, which held 14,000 ordinary shares on the entitlement date, received 2,100 additional ordinary shares without any consideration.

The bonus shares were recognized on the date of entitlement. The total cost of the Fund's investment remained unchanged, and the average cost per share was adjusted to reflect the increase in the number of shares. The bonus issue did not have any impact on the net assets of the Fund, nor did it give rise to any income or gain recognized in the Fund's Income Statement. Instead it resulted in an increase in the number of shares held and a corresponding decrease in the average cost per share.

- 8.1** As per clause 47(B) of part IV of the Second Schedule to the Income Tax Ordinance, 2001, payments made to collective investment schemes (CISs) are exempt from withholding tax under section 150 and 151. However, during prior years, withholding tax on profit on dividend and profit earned on bank deposits of the Fund was deducted by various withholding agents based on the interpretation issued by FBR vide letter C. no. 1(43) DG (WHT)/2008-VOL.II-66417-R dated May 12, 2015 which requires every withholding agent to withhold income tax at applicable rates in case a valid exemption certificate under section 159(1) issued by the concerned Commissioner of Inland Revenue (CIR) is not produced before him by the withholders. The tax withheld on dividend and profit on bank deposits amounts to Rs. 4.061 million (2025: Rs. 4.061 million).

For this purpose, the Mutual Funds Association of Pakistan (MUFAP) on behalf of various mutual funds (including the Funds being managed by the Management Company), filed a petition in the Honourable Sindh High Court (SHC) challenging the above mentioned interpretation of the Federal Board of Revenue (FBR) which was decided by the SHC in favour of FBR. A petition was subsequently filed in the Supreme Court of Pakistan (SCP) by the Funds together with other CISs (managed by the Management Company and other Asset Management Companies) whereby the SCP granted the petitioners leave to appeal from the initial judgment of the SHC. Pending resolution of the matter, the amount of withholding tax deducted on dividend and profit on bank deposits has been shown as advance tax as at June 30, 2026.

The management has recorded a provision of Rs. 4.061 million (2025: Rs. 1.200 million) against the advance tax refund under section 150 and 151 of the Income Tax Ordinance, 2001, due to the uncertainty in the timing of the payment of advance tax by the taxation authorities.

- 12.1 According to the instruction of Shariah Advisor, any income earned by the Fund from investments whereby a portion of the investment of the investee company has been made in Shariah non-compliant avenues, such porportion of the Fund's income from those investments should be given away for charitable purposes directly by the Fund.

Therefore, non-shariah compliant income amounting to Rs. 0.343 million (2025: Rs. 0.579 million) was charged as an expense in the books of the Fund. This will be distributed as charity after the approval of the Shariah Advisor.

13 CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments outstanding as at the June 30, 2026 and June 30, 2025.

14 TAXATION

The income of the Fund is exempt from income tax under clause (99) of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management has distributed the required minimum percentage of income earned by the Fund for the year ended June 30, 2026 to the unit holders in the manner as explained above, no provision for taxation has been made in these financial statements during the year.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

19 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund's objective in managing risk is the creation and protection of unit holders' value. Risk is inherent in the Fund's activities, but it is managed through monitoring and controlling activities which are primarily set up to be performed based on limits established by the Management Company, the constitutive documents of the Fund and the regulations and directives of the SECP. These limits reflect the business strategy and market environment of the Fund as well as the level of the risk that the Fund is willing to accept. The Board of Directors of the Management Company supervises the overall risk management approach within the Fund. The Fund is exposed to market risk, liquidity risk and credit risk arising from the financial instruments it holds.

19.1 Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices.

The Management Company manages the market risk through diversification of the investment portfolio and by following the internal guidelines established by the Investment Committee.

Market risk comprises of three types of risk: yield / profit rate risk, currency risk and price risk.

(i) Yield / Profit rate risk

Yield / Profit rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market profit rates. As of June 30, 2026, the Fund is exposed to such risk on its balances held with banks. The Investment Committee of the Fund reviews the portfolio of the Fund on a regular basis to ensure that the risk is managed within the acceptable limits.

Sensitivity analysis for variable rate instruments

Presently, the Fund holds balances with banks which expose the Fund to cash flow profit rate risk. In case of a 100 basis points increase / decrease in applicable rates on the last repricing date with all other variables held constant, the net profit for the year would have been higher / (lower) and net assets of the Fund would have been higher / lower by Rs. 0.024 million (2025: Rs. 0.022 million).

The composition of the Fund's investment portfolio and profit rates are expected to change over time. Accordingly, the sensitivity analysis prepared as of June 30, 2026 is not necessarily indicative of the impact on the Fund's net assets of future movements in profit rates.

Profit rate sensitivity position for on-balance sheet financial instruments is based on the remaining period at the end of the reporting period to the contractual maturity dates.

The Fund's profit rate sensitivity relating to the financial assets and financial liabilities as at June 30, 2026 can be determined as follows:

Effective yield / profit rate (%)	2026				Total
	Exposed to yield / profit rate risk			Not exposed to yield / profit rate risk	
	Up to three months	More than three months and up to one year	More than one year

(ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in foreign exchange rates. The Fund does not have any financial instruments in foreign currencies and hence is not exposed to such risk.

(iii) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from profit rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Fund is exposed to equity price risk on investments held by the Fund classified as 'at fair value through profit or loss'. To manage its price risk arising from investments in equity securities, the Fund diversifies its portfolio within the eligible stocks prescribed in the Trust Deed. The NBFC Regulations also limit investment as individual equity securities to no more than 15% of net assets and the issued capital of the investee company and limit sector exposure to 35% of the net assets or the index weight, whichever is higher.

In the case of a 1% increase / decrease in the KMI all share index on June 30, 2026, with all other variables held constant, the total comprehensive income of the Fund for the year would increase / decrease by Rs. 1.068 million (2025: Rs. 1.552 million) and the net assets of the Fund would increase / decrease by the same amount as a result of gains / losses on equity securities classified as financial assets at fair value through profit or loss.

The analysis is based on the assumption that the equity index had increased / decreased by 1% with all other variables held constant and all the Fund's equity instruments moved according to the historical correlation with the index. This represents management's best estimate of a reasonable possible shift in the KMI all share index, having regard to the historical volatility of the index. The composition of the Fund's investment portfolio and the correlation thereof to the KMI all share index, is expected to change over time. Accordingly, the sensitivity analysis prepared as of June 30, 2026 is not necessarily indicative of the effect on the Fund's net assets of future movements in the level of the KMI all share index.

19.2 Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligation in full as they fall due or can only do so on terms that are materially disadvantageous to the Fund.

The Fund is exposed to daily settlement of equity securities and daily redemptions at the option of unit holders. The Fund's approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions. The Fund's policy is, therefore, to invest the majority of its assets in investments that are traded in an active market and can be readily disposed of and are considered readily realisable.

As per the NBFC Regulations, the Fund can borrow in the short-term to ensure settlement subject to the the maximum limit which is fifteen percent of the net assets up to 90 days and would be secured by the assets of the Fund. However, no borrowing was required to be obtained by the Fund during the current year.

In order to manage the Fund's overall liquidity, the Fund may also withhold daily redemption requests in excess of ten percent of the units in issue and such requests would be treated as redemption requests qualifying for being processed on the next business day. Such a procedure would continue until the outstanding redemption requests come down to a level below ten percent of the units then in issue. The Fund did not withhold any redemption requests during the year ended June 30, 2026.

The table below summaries the maturity profile of the Fund's financial liabilities. The analysis into relevant maturity groupings is based on the remaining period at the end of the reporting period to the contractual maturity dates. However, the liabilities that are payable on demand have been included in the maturity grouping of one month:

19.3 Credit risk

19.3.1 Credit risk is the risk that a counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge its obligation as it falls due. Credit risk arises from balances with banks, dividend and profit receivable, and advances, deposits and other receivables.

The table below analyses the Fund's maximum exposure to credit risk:

	2026		2025	
	Balance as per statement of assets and liabilities	Maximum exposure to credit risk	Balance as per statement of assets and liabilities	Maximum exposure to credit risk
	(Rupees in '000)			
Balances with banks	2,853	2,853	2,748	2,748
Investments	106,797	-	155,169	-
Dividend and profit receivable	-	-	30	30
Advances, deposits and other receivables	3,359	3,359	3,362	3,362
	<u>113,009</u>	<u>6,212</u>	<u>161,309</u>	<u>6,140</u>

The maximum exposure to credit risk before any credit enhancement as at June 30, 2026 is the carrying amount of the financial assets. Investments in equity securities, however, are not exposed to credit risk and have been excluded from the above analysis.

There is a possibility of default by participants or failure of the financial market / stock exchanges, the depositories, the settlements or clearing systems, etc. Settlement risk on equity securities is considered minimal because of inherent controls established in the settlement process. The Fund's policy is to enter into financial contracts in accordance with internal risk management policies and instruments guidelines approved by the Investment Committee.

19.3.2 Credit quality of financial assets

The Fund's significant credit risk (excluding credit risk relating to settlement of equity securities) arises mainly on account of its balances with banks and profit accrued thereon. The credit rating profile of balances with banks is as follows:

Banks	Rating Agency	Ratings (Long Term)	2026	2025
			% of financial assets	% of financial assets
Allied Bank Limited	PACRA	AAA	0.29%	0.37%
Bank Islami Pakistan Limited	PACRA	AA-	2.20%	1.23%
Bank Al Habib Limited	PACRA	AAA	0.02%	0.01%
MCB Islamic Bank Limited *	PACRA	A+	0.00%	0.05%
Zarai Taraqiat Bank Limited *	VIS	AAA	0.00%	0.08%
Dubia Islamic Bank Pakistan Limited	VIS	AA	0.01%	0.01%
			<u>2.52%</u>	<u>1.75%</u>

* Nil percentages due to rounding off.

19.3.3 Concentration of credit risk

Concentration of credit risk exists when changes in economic and industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. As transactions are entered with creditworthy parties thereby any significant concentration of credit risk is mitigated.

All financial assets of the Fund as at June 30, 2026 and June 30, 2025 are unsecured and are not impaired.

Settlement risk

The Fund's activities may give rise to risk at the time of settlement of transactions. Settlement risk is the risk of loss due to the failure of counterparty to honour its obligations to deliver cash, securities or other assets as contractually agreed. Credit risk relating to unsettled transactions in securities is considered to be minimal as the Fund uses brokers with high creditworthiness and the transactions are settled or paid for only upon delivery using the central clearing system.

20 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

20.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Fair value measurements using quoted price (unadjusted) in an active market for identical assets or liabilities;

Level 2: Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at June 30, 2026 and June 30, 2025, the Fund held the following financial instruments measured at fair value:

2026				
	Level 1	Level 2	Level 3	Total
	(Rupees in '000)			
Financial assets 'at fair value through profit or loss'				
- Listed equity securities	106,797	-	-	106,797
	<u>106,797</u>	<u>-</u>	<u>-</u>	<u>106,797</u>
2025				
	Level 1	Level 2	Level 3	Total
	(Rupees in '000)			
Financial assets 'at fair value through profit or loss'				
- Listed equity securities	155,169	-	-	155,169
	<u>155,169</u>	<u>-</u>	<u>-</u>	<u>155,169</u>

Valuation technique used in determination of fair values is as follows:

Item	Valuation approach and input used
Listed equity securities	The fair value of investment in listed equity securities is determined on the basis of closing quoted market prices available at the Pakistan Stock Exchange.

20.2 There were no transfers between levels during the year.

21 UNIT HOLDERS' FUND RISK MANAGEMENT

The unit holders' fund is represented by redeemable units. These units are entitled to dividends and to the payment of a proportionate share based on the Fund's Net Asset Value per unit on the redemption date. The relevant movements are shown on the 'Statement of Movement in Unit Holders' Fund'.

The Fund has no restriction on the subscription and redemption of units. As required under the NBFC Regulations, every open end scheme shall maintain fund size (i.e. net assets of the Fund) of Rs. 100 million at all times during the life of the scheme. The Fund has historically maintained and complied with the requirement of minimum fund size at all times.

The Fund's objectives when managing unit holders' funds are to safeguard its ability to continue as a going concern so that it can continue to provide returns to the unit holders and to maintain a strong base of assets to meet unexpected losses or opportunities.

In accordance with the risk management policies as stated in note 19, the Fund endeavours to invest the subscriptions received in appropriate investment avenues while maintaining sufficient liquidity to meet redemptions, such liquidity being augmented by disposal of investments or short-term borrowings, where necessary.

اسٹاک مارکیٹ کا منظر نامہ

مالی سال 26 کے دوران، ایکویٹی مارکیٹس نے عالمی معاشی غیر یقینی صورتحال، جغرافیائی سیاسی کشیدگیوں، غیر مستحکم اجناس کی قیمتوں اور بدلتے ہوئے مالیاتی پالیسی حالات کے باوجود وسیع پیمانے پر کامیابی حاصل کی۔ آگے دیکھتے ہوئے، ہم توقع کرتے ہیں کہ مارکیٹ کی مثبت رفتار برقرار رہے گی، جس کی بنیاد متوقع آمدنی میں اضافہ، مستحکم میکرو اکنامک بنیادی اصول، اور بہتر ہوتی ہوئی مارکیٹ لیکویڈیٹی ہے، اگرچہ مارکیٹ کی کارکردگی جغرافیائی سیاسی پیش رفت کے لیے حساس رہنے کی توقع ہے۔ مالی سال 27 کے لیے جی ڈی پی کی نمو بہتر ہونے کی توقع ہے، جس کی قیادت بنیادی طور پر خدمات اور صنعتی شعبوں میں توسیع کی وجہ سے ہوگی، جبکہ پالیسی شرح میں ممکنہ کمی صنعتی شعبے کی ترقی کو مزید تحریک فراہم کرے گی۔ PKR امریکی ڈالر کے مقابلے میں عمومی طور پر مستحکم رہنے کی توقع ہے، بغیر کسی بڑی قدر میں کمی کی توقع کے، جس کی حمایت بروقت بیرونی آمد اور بیرونی اکاؤنٹ کے محتاط انتظام پر مسلسل توجہ کی بدولت ہوگی۔ مالی سال 27 کے لیے اوسط افراط زر اسٹیٹ بینک آف پاکستان کے درمیانہ مدتی ہدف سے معمولی حد تک اوپر رہنے کی توقع ہے، تاہم جیسے جیسے عالمی تیل کی قیمتیں کم ہوتی جا رہی ہیں، افراط زر موجودہ سطح سے کم ہونے کی توقع ہے، جس سے مستقبل میں ممکنہ مالیاتی نرمی کی گنجائش پیدا ہوگی۔ KSE-100 انڈیکس اس وقت 7.3x پر کشش فارورڈ پرائس ٹو اننگز (P/E) تناسب پر ٹریڈ کر رہا ہے، جو مسابقتی ڈیویڈنڈ سیلڈ فراہم کر رہا ہے، اور ہم توقع کرتے ہیں کہ بہتر ہوتے ہوئے بنیادی معیار کی ریٹنگ 9.0x فارورڈ P/E کی طرف لے جائے گی، جو ایکویٹی مارکیٹ کے لیے مثبت درمیانی مدت کے منظر نامے کو مضبوط کرے گی۔

فنڈ کی کارکردگی

مالی سال 2026 کے اختتام پر، اے بی ایل اسلامک ڈیڈیکٹڈ اسٹاک فنڈ نے 26.84% کی ریٹرن دی، جبکہ بینچ مارک ریٹرن 39.18% تھا، جو 12.34% کی کم کارکردگی کی عکاسی کرتا ہے۔ جائزہ سال کے دوران، ABL اسلامک ڈیڈیکٹڈ اسٹاک فنڈ کا AUM 19.81% کم ہوا اور 30 جون 2026 کو 105.62 ملین روپے پر رہا، جبکہ 30 جون 2026 کو 131.71 ملین روپیہ تھا۔

بورڈ آف ڈائریکٹرز کا بیان

1. مالیاتی بیانات کافی حد تک معاملات کی حالت، آپریشن کے نتائج، سال کے لیے جامع آمدنی، کیش فلو اور یونٹ ہولڈرز کے فنڈ میں نقل و حرکت کو پیش کرتے ہیں۔
2. فنڈ کے اکاؤنٹس کی مناسب کتابیں برقرار رکھی گئیں۔
3. مالیاتی گوشواروں کی تیاری میں مناسب اکاؤنٹنگ پالیسیوں کا مسلسل اطلاق کیا گیا ہے اور اکاؤنٹنگ کے تخمینے معقول اور دانشمندانہ فیصلوں پر مبنی ہیں۔

گئیں، جو سال بہ سال 21% زیادہ ہیں، جبکہ جون 2026 کی برآمدات 416 ملین ڈالر تک پہنچ گئیں، جو سال بہ سال 23% بڑھ گئیں۔ ترقی سافٹ ویئر ڈیولپمنٹ، بزنس پروسیسز آؤٹ سورسنگ اور کلاؤڈ سروسز کی عالمی طلب کی وجہ سے ہوئی، جبکہ مضبوط برآمدات اور کلائنٹس کے حصول نے مستحکم شرح تبادلہ کے اثرات کو غیر ملکی کرنسی کے ترجمے کے فوائد پر کم کر دیا۔ یہ شعبہ اپنی ترقی کی رفتار کو برقرار رکھنے کی توقع ہے، جس کی حمایت عالمی آؤٹ سورسنگ طلب میں توسیع، آئی ٹی برآمدات اور ڈیجیٹلائزیشن کو فروغ دینے والی حکومتی اقدامات، اور بین الاقوامی مارکیٹوں میں بڑھتی ہوئی رسائی سے کی جاتی ہے۔ تاہم، ملازمین کی بڑھتی ہوئی لاگت، بدلتی ہوئی ٹیکس پالیسیاں، اہم برآمدی منڈیوں پر انحصار اور پی کے آر استحکام کی وجہ سے محدود شرح تبادلہ منافع آمدنی میں اضافے کے اہم خطرات ہیں۔

آٹوموبائل اسمبلرز

آٹوموبائل سیکٹر نے مالی سال 26 میں مضبوط کارکردگی دکھائی، جس میں 1,619.99 پوائنٹس (2.9%) کا اضافہ ہوا، جس کی بنیاد تمام بڑے شعبوں میں وسیع پیمانے پر حجم کی بحالی ہے۔ صنعت بھر کی فروخت ریکارڈ 2.22 ملین یونٹس تک پہنچ گئی، جو سال بہ سال 30% زیادہ ہے، جبکہ انڈسٹری کارز (PC/SUV/LCV) سال بہ سال 39% بڑھ کر 206,102 یونٹس تک پہنچ گئے، جس کی قیادت LCV+SUV کے حجم نے کی جو 42% بڑھ کر 50,814 یونٹس تک پہنچ گئی، مسلسل SUV طلب کے باعث۔ ترقی مالیاتی نرمی کے تسلسل سے متاثر ہوئی، پالیسی شرح 11.5% پر مستحکم ہوئی، جس سے آٹوفنانسنگ اور صارفین کا اعتماد بحال ہوا، ایکسچینج ریٹ میں استحکام، مہنگائی کو معتدل کرنے پر خریداری کی طاقت میں بہتری، اور نئے داخل ہونے والے ماڈل لائن اپ میں اضافہ ہوا۔ کمرشل گاڑیوں میں نمایاں بہتری آئی، ٹرک اور بسیں سال بہ سال 61% بڑھ کر 8,424 یونٹس تک پہنچ گئیں، جبکہ دو اور تین پہیوں والی گاڑیاں — جو سب سے بڑی حجم کی بنیاد ہیں — 30% بڑھ کر 1.97 ملین یونٹس تک پہنچ گئیں۔ فارم ٹریکٹرز واحد پیچھے رہ گئے، جو سال بہ سال 2% کم ہو کر 28,658 یونٹس رہ گئے کیونکہ زرعی شعبے میں کم آؤٹ ٹیک ہوا۔ فہرست شدہ کھلاڑیوں میں، (+77%) SAZEW اور (+92%) GAL نے ہیول/ٹینک-500 اور JAC LCV کی طلب میں ترقی کی قیادت کی، اس کے بعد (+53%) HCAR تھا، جبکہ INDU نے 34% معمولی اضافہ کیا کیونکہ کرولا/یاریس کو قیمتوں کے مقابلے کا سامنا تھا۔ یہ شعبہ اپنی ترقی کی رفتار کو برقرار رکھنے کی توقع ہے، جس کی حمایت سود کی شرح میں استحکام، نئے ماڈلز کی لانچنگ کے بڑھتے ہوئے مقابلے، اور ہائبرڈ اور EV کی پیشکشوں میں توسیع کی بدولت ہے۔ تاہم، مالی سال 27 کے بجٹ میں 2,000cc+ گاڑیوں پر 86-92% سیٹیش ایکسائز ڈیوٹی، آئی ایم ایف کی جانب سے مقرر کردہ ٹیرف کی معقولیت کے تحت چھوٹے درآمد شدہ گاڑیوں پر نمایاں کم کسٹمز ڈیوٹی، AIDEP کے ختم ہونے کے بعد ہائبرڈ پر جی ایس ٹی کا حل طلب علاج، اور بڑھتی ہوئی مسابقت سے مارجن کمپریشن آمدنی میں اضافے کے اہم خطرات ہیں۔

اضافہ) اور GO میں بہتری آئی۔ 1.51 ٹریلین روپے کی مکمل PDL کلکیشن کی مدد سے، FY26 ٹاپ لائن آپریشنل استحکام کے دور کے طور پر بند ہوا، اگرچہ بنیادی ریٹیل طلب بین الاقوامی قیمتوں کے جھٹکوں کے لیے بہت حساس ہے۔

کھاد کا شعبہ

فریڈلانڈ سیکٹر نے FY26 انڈیکس میں اضافے میں 9,716.12 پوائنٹس (20.59%) کا اضافہ کیا۔ FY26 نے پاکستان کے کھاد ساز کمپنیوں کی ساختی مضبوطی کو ظاہر کیا، جہاں مضبوط یوریا پائرسنگ پاور اور مخصوص فیلڈ اسٹاک گیس الاٹمنٹس نے شدید عالمی DAP لاگت کے دباؤ کو پورا کیا۔ FFC کے انضمام کے بعد کے پیمانے اور بڑھتے ہوئے مارکیٹ شیئر نے اسے سیکٹر کی حجم کی بحالی کا بنیادی فائدہ اٹھانے والا بنادیا، جبکہ EFERT کی مارجن پر توجہ نے چینل انوینٹری کو ہضم کرنے میں مدد دی۔ آگے دیکھتے ہوئے، غازی ج/شوال فیلڈز سے رعایتی گیس ٹیرف کی رسمی شکل اور ماری پریشرا نہا نسمنٹ فیسلٹی انفراسٹرکچر میں مشترکہ سرمایہ کاری نے درج شدہ پروڈیوسرز کے لیے بلند آپریٹنگ ریٹس اور نقد بہاؤ کی مریت کو مضبوط بنایا۔ اگرچہ زرعی سطح پر منافع بخش کارکردگی زیادہ فاسفیٹک ان پٹ لاگت اور غذائی اجزاء کے غیر متوازن استعمال کے دباؤ میں ہے، لیکن مجموعی طور پر اس شعبے کا مالی منظر نامہ بہت مضبوط ہے، جسے مضبوط مقامی طلب اور یوریا پر کم درآمدی انحصار کی حمایت حاصل ہے۔

سیمنٹ سیکٹر

سیمنٹ سیکٹر نے مالی سال 2026 میں 3,979.39 پوائنٹس (7.12%) کا اضافہ کیا اور مضبوط بحالی دیکھی، جس کی وجہ گھریلو تعمیراتی سرگرمیوں میں بحالی تھی۔ کل ڈسپینچرز 7.5% بڑھ کر 50.52 ملین ٹن ہو گئے، جس کی حمایت ملکی فروخت میں 12% سالانہ بحالی سے ہوئی جو 41.51 ملین ٹن ہو گئی، جبکہ برآمدات 2.2% کم ہو کر 9.01 ملین ٹن ہو گئیں، جو علاقائی تجارتی رکاوٹوں کی وجہ سے ہوئی۔ شمال میں مقیم پروڈیوسرز نے برآمدات میں شدید کمی کے باوجود مضبوط مقامی طلب سے فائدہ اٹھایا، جبکہ جنوبی پروڈیوسرز سمندری برآمدات سے حمایت یافتہ رہے۔ صنعت کی صلاحیت کا استعمال مالی سال 2025 میں 55.1% سے بڑھ کر 60% ہو گیا، جس میں کم شرح سود، زیادہ ترقیاتی اخراجات اور حکومت کی حمایت یافتہ ہاؤسنگ اقدامات جیسے وزیراعظم اپنا گھر پروگرام (گھر ہو تو اپنے) اور پنجاب کی اپنا چٹ، اپنا گھر اسکیم شامل ہیں۔ ملکی سیمنٹ کی طلب سال بہ سال 7-8% بڑھنے کی توقع ہے، جس کی حمایت معاشی استحکام، کم مالیاتی لاگت اور سستی ہاؤسنگ اسکیموں کی مسلسل رفتار سے ہو سکتی ہے۔ تاہم، تقریباً 86.6 ملین ٹن نصب شدہ صنعت کی صلاحیت کے ساتھ، مسلسل اضافی صلاحیت اور شدید قیمتوں کی مسابقت، خاص طور پر شمال میں، مارجن میں توسیع کو محدود کر سکتی ہے۔

ٹیکنالوجی اور مواصلات

ٹیکنالوجی اور مواصلات کے شعبے نے مالی سال 26 میں مضبوط کارکردگی دکھائی اور 2,364.12 پوائنٹس (4.23%) کا اضافہ کیا، جس کی بنیاد برآمدات پر مبنی کمپنیوں کی مضبوط آمدنی میں اضافہ ہے۔ پاکستان کی آئی ٹی اور آئی ٹی سے لیس خدمات کی برآمدات ریکارڈ 4.6 ارب ڈالر تک پہنچ

GDP کا تقریباً 3.5% بنیادی مالی سرپلس شامل ہے۔ مہنگائی سال کے بیشتر حصے میں قابو میں رہی، جبکہ SBP پالیسی ریٹ مالی سال 2026 میں 11.5% پر ختم ہوئی، جو تدریجی مالیاتی نرمی کے بعد ہوئی۔ مجموعی طور پر، مالی سال KMI-302026 انڈیکس کے لیے مضبوط سال رہا، جس میں جغرافیائی سیاسی خطرات اور عالمی غیر یقینی صورتحال کی وجہ سے قلیل مدتی اتار چڑھاؤ کے باوجود انڈیکس نے نمایاں منافع فراہم کیا۔

سیکٹر کا جائزہ

تیل اور گیس کی تلاش کی کمپنیاں

انڈیکس میں 6,182.32 پوائنٹس (11.06%) کا اضافہ کرتے ہوئے، ایکسپلوریشن اینڈ پروڈکشن (E&P) سیکٹر نے عالمی کموڈٹیز اپ سائیکل کے دوران مضبوط کارکردگی دکھائی۔ بین الاقوامی تیل کی قیمتوں میں اضافہ، بہتر ملکی گیس ریکوری تناسب، اور سرکلر ڈیٹ ریزولوشن کے محاذ پر جزوی پیش رفت نے سرمایہ کاروں کے جذبات کو بہتر بنایا۔ اس شعبے کی آمدنی کو مستحکم ایکسچینج ریٹس اور اہم شعبوں میں زیادہ پیداوار کی مقدار نے مزید تقویت دی۔ پاکستان کا E&P شعبہ ایک تبدیلی کے مرحلے میں داخل ہو رہا ہے جو بڑے پالیسی مراعات، نئی غیر ملکی دلچسپی، اور اعلیٰ منافع کی دریافتوں کی وجہ سے ہے۔ حکومت نے تقریباً دو دہائیوں کے بعد 24 آف شور بلاکس دیے ہیں اور ترکی کی TPAO اور کویت کی KUFPEC جیسے بین الاقوامی شراکت داروں کو شامل کیا ہے، جس سے خطہ غیر ملکی براہ راست سرمایہ کاری کی بڑی آمد کے لیے تیار ہے۔ عملی طور پر، اعلیٰ اثرات والی ترقیات — خاص طور پر باراگرائی X-01 کنویں کا افتتاح اور شیوا اور اسپن وام-1 جیسے نئے اضافے — پرانی فیلڈز کی سالانہ قدرتی کمی کو کم کرنے کے لیے بہت ضروری حجم کی معاونت فراہم کر رہے ہیں۔ اسی وقت، جاری ضابطہ جاتی اصلاحات اور گیس ٹیرف کی معقولیت کا مقصد طویل عرصے سے جاری سرکلر قرض کی رکاوٹ کو کم کرنا اور بڑے آپریٹرز کے لیے نقد بہاؤ کی مرئیت کو بہتر بنانا ہے۔ آگے دیکھتے ہوئے، اگرچہ سیکیورٹی چیلنجز اور ساختی قرضے اب بھی مشکلات کا باعث بن رہے ہیں، لیکن آف شور ایکسپلوریشن کی طرف اسٹریٹجک رجحان، جارحانہ ڈرائنگ پروگراموں میں جبری دوبارہ سرمایہ کاری کے ساتھ، درمیانی مدت میں ملکی E&P کھلاڑیوں کے لیے مضبوط آپریشنل منظر نامے کی بنیاد ہے۔

تیل کی مارکیٹنگ کمپنیاں

OMC سیکٹر نے مالی سال 26 میں انڈیکس میں 183.14 پوائنٹس (-0.33%) کا حصہ ڈالا۔ مالی سال 26 میں پاکستان کا OMC سیکٹر مضبوط پہلے نصف میں اور آخری سہ ماہی میں قیمتوں کی وجہ سے شدید طلب میں کمی سے متعین ہوا، جس سے پورے سال کی فروخت مجموعی طور پر 16.19 ملین ٹن پر مستحکم رہی۔ موٹر اسپرٹ نے غیر لچکدار شہری نقل و حرکت کی وجہ سے قابل ذکر مضبوطی (+1% سال سال) دکھائی، جبکہ ہائی اسپید ڈیزل ریکارڈ پمپ قیمتوں اور سرحد پار اسمگلنگ کے بوجھ تلے معمولی (-1% سال بہ سال) کم ہوا۔ دریں اثنا، فرنس آئل کی فروخت سال بہ سال 26% گر گئی کیونکہ پاور گرڈ نے ہائیڈل اور متبادل بیس لوڈ جنریشن کی طرف اپنا ساختی رخ مکمل کیا۔ مارکیٹ شیئر کی حرکیات نمایاں طور پر دوبارہ ترتیب دی: ریاستی ملکیت والے PSO کا حصہ 42.4% تک سکڑ گیا، جبکہ نجی آپریٹرز جیسے WAFI Energy (+10%) حجم میں

اور اسلامی دونوں زمروں پر مشتمل ہیں، نے بھی سال بہ سال 228 ارب روپے (38.08%) کی نمایاں ترقی دیکھی۔ تاہم، منی مارکیٹ فنڈز اور فکسڈ ریٹ فنڈز میں سال بہ سال 71 ارب روپے (-6.4%) اور 42 ارب روپے (-24.1%) کی کمی دیکھی گئی، جو سود کی شرح میں کمی کے بعد قلیل مدتی منی مارکیٹ آلات سے سرمایہ کی منتقلی کی عکاسی کرتی ہے۔

اسلامی اسٹاک مارکیٹ جائزہ

مالی سال 2026 کے دوران، KMI-30 انڈیکس نے مضبوط کارکردگی دکھائی، جون 2025 میں 184,887 پوائنٹس سے بڑھ کر جون 2026 تک 257,327 پوائنٹس تک پہنچ گئی، جس سے 39.2% کی واپسی ہوئی۔ سال بھر مارکیٹ زیادہ تر مثبت رہی، جس کی مدد بہتر معاشی حالات، مضبوط سرمایہ کاروں کا اعتماد، اور بہتر لیکویڈیٹی تھی۔ FY2026 کے پہلے نصف میں انڈیکس نے نمایاں رفتار حاصل کی، دسمبر 2025 تک 248,539 پوائنٹس تک پہنچ گیا اور جنوری 2026 میں سال کے اندر 261,050 پوائنٹس کی بلند ترین سطح پر پہنچ گیا۔ اس ریلی کو بہتر معاشی استحکام، غیر ملکی زر مبادلہ کے ذخائر میں اضافہ، مضبوط ترسیلات زر کی آمد اور معاشی بحالی کی توقعات نے سہارا دیا۔ تاہم، سال کے دوران جیو پالیٹیکل کشیدگی، عالمی منڈیوں میں غیر یقینی صورتحال، اور تیل کی قیمتوں میں اضافے کے خدشات کی وجہ سے مارکیٹ میں اتار چڑھاؤ کا سامنا کرنا پڑا، جس سے منافع حاصل ہوا اور مارچ 2026 میں انڈیکس 216,076 پوائنٹس تک گر گیا۔

مارکیٹ نے آخری سہ ماہی میں مضبوطی سے بحالی کی کیونکہ سرمایہ کاروں کا اعتماد بہتر ہوا، مستحکم اقتصادی اشاریوں اور مضبوط ملکی شرکت کی مدد سے، اور سال کا اختتام 257,327 پوائنٹس پر ہوا۔ مالی سال 2026 کے دوران تجارتی سرگرمی صحت مندر رہی، جس میں سالانہ اوسط ماہانہ ٹریڈ ویلیو تقریباً 104 ملین امریکی ڈالر رہی، جو جون 2025 میں 69 ملین امریکی ڈالر سے بڑھ کر اپریل 2026 میں 191 ملین امریکی ڈالر کی بلند ترین سطح پر پہنچ گئی، جو بہتر لیکویڈیٹی اور سرمایہ کاروں کی شرکت میں مضبوط اضافہ ظاہر کرتا ہے۔ تجارتی حجم بھی مضبوط رہا، اوسط ماہانہ تجارتی حجم تقریباً 238 ملین شیئرز تک پہنچ گیا، جبکہ جون 2025 میں 184 ملین شیئرز اور جون 2026 تک 257 ملین شیئرز تھے۔ غیر ملکی سرمایہ کار مالی سال 2026 کے دوران خالص فروخت کنندگان کے طور پر تقریباً 852 ملین امریکی ڈالر کی مجموعی ایکویٹی آؤٹ فلوریکارڈ کرتے رہے، جو زیادہ تر غیر ملکی کمپنیوں کی 904 ملین امریکی ڈالر کی خالص فروخت کی وجہ سے تھا، جبکہ بیرون ملک پاکستانیوں نے 56 ملین امریکی ڈالر کی خالص خریداری کے ساتھ کچھ معاونت فراہم کی۔

تاہم، ملکی سرمایہ کاروں نے غیر ملکی فروخت کے دباؤ کو جذب کر کے مارکیٹ کو مضبوط حمایت فراہم کی۔ مقامی شرکاء میں، کمپنیاں 588 ملین امریکی ڈالر کی آمد کے ساتھ سب سے بڑی خالص خریدار کے طور پر ابھریں، اس کے بعد میوچل فنڈز (USD 407 ملین) اور انفرادی (USD 330 ملین) تھے، جبکہ انشورنس کمپنیاں (USD 243 ملین) اور بینک/DFIs (USD 177 ملین) خالص فروخت کنندگان رہیں۔ مارکیٹ کو اقتصادی بنیادی عوامل میں بہتری سے مزید مدد ملی، جن میں GDP کی نمو 3.7%، بڑے پیمانے پر مینوفیکچرنگ میں 6.4% اضافہ، 40 ارب امریکی ڈالر سے زائد مزدوروں کی ریکارڈ ترسیلات، تقریباً 16-17 USD بلین کے بہتر غیر ملکی زر مبادلہ ذخائر، اور

بیرونی اکاؤنٹ کی کارکردگی نسبتاً مضبوط رہی لیکن یہ معمولی خسارے کی طرف منتقل ہو گئی، جہاں کرنٹ اکاؤنٹ نے مالی سال 26 میں 139 ملین امریکی ڈالر کا چھوٹا مجموعی خسارہ ظاہر کیا، جبکہ مالی سال 25 میں 1.838 ارب امریکی ڈالر کا سرپلس تھا۔ یہ زیادہ تر بڑھتے ہوئے تجارتی خسارے اور درآمدات میں اضافے کی وجہ سے ہوا، جسے مضبوط ترسیلات زر کی آمد نے جزوی طور پر متوازن کیا، جو مالی سال 26 میں ریکارڈ 41.585 ارب امریکی ڈالر تک پہنچ گئی، جو مالی سال 2025 میں 38.3 ارب امریکی ڈالر تھی۔ پی کے آر مجموعی طور پر مستحکم رہا، جس کی مدد ذخائر کے جمع ہونے اور کم اتار چڑھاؤ سے ہوئی۔ غیر ملکی زرمبادلہ کے ذخائر میں اضافہ ہوا، کل مائع ذخائر 24 جون 2026 تک 22.04 ارب امریکی ڈالر تک پہنچ گئے (ایس بی پی ذخائر 16.53 ارب امریکی ڈالر ہیں)، جس کی مدد کثیر الجہتی اور دو طرفہ آمدوں، بہتر مارکیٹ کے جذبات، اور جاری آئی ایم ایف ایکسٹینڈڈ فنڈ سہولت (EFF) کی حمایت سے ہوئی۔

مالی پہلو پر، فیڈرل بورڈ آف ریونیو (FBR) نے مالی سال 26 میں 13.004 ٹریلین روپے کی عارضی خالص وصولی رپورٹ کی، جو ٹیکس انتظامیہ کی اصلاحات، رسمی تشکیل، اور نفاذ میں مسلسل پیش رفت کی عکاسی کرتی ہے جبکہ 12.983 ٹریلین روپے کے نظر ثانی شدہ ہدف سے تجاوز کر گئی۔ حکومت نے FY27 کا وفاقی بجٹ پیش کیا، جس میں آمدنی کی تحریک، اخراجات پر کنٹرول، ترقی پر مبنی اقدامات (جیسے سپر ٹیکس میں ایڈجسٹمنٹ)، اور IMF کے بیچ مارکس کے ساتھ مزید ہم آہنگی پر توجہ دی گئی تاکہ توسیع شدہ پروگرام کی حمایت کی جاسکے۔

عالمی سطح پر وقفے وقفے سے اتار چڑھاؤ کے باوجود—خاص طور پر ایران-اسرائیل/امریکہ کشیدگی، ہرمز کی تنگی میں خللات، ٹیریف کی غیر یقینی صورتحال، اور اجناس کی قیمتوں میں اتار چڑھاؤ (تیل میں اضافے کے ساتھ)—ان عوامل نے بیرونی مزاحمت کو آزمایا۔ توانائی کی درآمدات کی بڑھتی ہوئی لاگت نے افراط زر اور کرنٹ اکاؤنٹ کے دباؤ میں اضافہ کیا، لیکن مضبوط ترسیلات زر اور ریزرو بفرز نے اثرات کو کم کرنے میں مدد دی۔ سیاسی تسلسل، حکمرانی میں بہتری، اور اصلاحات کی رفتار کے ساتھ مل کر، ان رجحانات نے مستحکم میکرو اکنامک ماحول کو برقرار رکھا، جو ایکویٹی اور فلکسڈ انکم شعبوں میں مارکیٹ کے جذبات کی حمایت کرتے ہوئے محتاط اور پر امید کاروباری ماحول کو فروغ دیا۔

خلاصہ یہ کہ، مالی سال 26 نے پاکستان کی معاشی ترقی میں مستحکم پیش رفت کی نمائندگی کی، جس میں جی ڈی پی کی تیز ترقی، ریکارڈ ترسیلات زر میں اضافہ، مضبوط ذخائر اور مسلسل اصلاحات شامل ہیں، جبکہ معمولی دوبارہ ابھرنے والی افراط زر اور تقریباً متوازن کرنٹ اکاؤنٹ نے جغرافیائی سیاسی مشکلات کے نئے چیلنجز کی عکاسی کی۔ ان سالوں میں قائم کردہ پلیٹ فارم معیشت کو زیادہ مضبوط درمیانی مدتی ترقی کے لیے تیار کرتا ہے، بشرطیکہ اصلاحات کا مسلسل نفاذ، مالی نظم و ضبط اور سازگار بیرونی حالات موجود ہوں۔

میو چل فنڈ انڈسٹری کا جائزہ

مالی سال 2026 میں، اوپن اینڈ میو چل فنڈ انڈسٹری نے مضبوط ترقی ریکارڈ کی، جس میں اثاثے زیر انتظام (AUM) سال بہ سال 14.61% بڑھے، جو 3,833 ارب روپے سے بڑھ کر 4,393 ارب روپے ہو گئے۔ شریعت کے مطابق فلکسڈ ریٹ فنڈز میں نمایاں آمد دیکھی گئی، جو سال بہ سال 146 ارب (152.7%) روپے (152.7%) کا اضافہ ہو کر 241 ارب روپے کے توازن تک پہنچ گئی۔ ایکویٹی مارکیٹ فنڈز، جو روایتی

مینجمنٹ کمپنی کے ڈائریکٹرز کی رپورٹ

اے بی ایل اسلامک ڈیڈیکٹڈ اسٹاک فنڈ (اے بی ایل - آئی ڈی ایس ایف) کی انتظامیہ کمپنی، اے بی ایل ایسٹ مینجمنٹ کمپنی لمیٹڈ کے بورڈ آف ڈائریکٹرز 30 جون، 2026 کو ختم ہونے والے سال کے لئے اے بی ایل اسلامک ڈیڈیکٹڈ اسٹاک فنڈ کے آڈٹ شدہ فنانشل اسٹیٹمنٹ پیش کرنے پر خوشی محسوس کرتے ہیں۔

اقتصادی کارکردگی کا جائزہ

مالی سال 26 پاکستان کی معاشی استحکام کی کوششوں کا تسلسل تھا، جو مالی سال 25 میں رکھی گئی بنیادوں پر مبنی تھا، جس میں مسلسل پالیسی اصلاحات، اہم آئی ایم ایف پروگرام کے سنگ میلوں کی تکمیل، اور بدلتے ہوئے عالمی چیلنجز کے درمیان مضبوطی شامل تھی۔ سال میں معتدل معاشی توسیع، بعد میں مہنگائی کے دباؤ دوبارہ سامنے آئے، اور بیرونی حساب تقریباً متوازن رہا، جبکہ ریکارڈ ترسیلات زر کی ترسیلات، جغرافیائی سیاسی کشیدگی (خاص طور پر امریکہ - ایران تنازعہ نے تیل کی قیمتوں اور شپنگ راستوں کو متاثر کیا)، اور جاری ساختی تبدیلیوں کے پس منظر میں شامل تھے۔

پاکستان کی حقیقی جی ڈی پی مالی سال 26 میں 3.7% بڑھی، جو مالی سال 2025 میں ریکارڈ کی گئی 3.18% نمو سے زیادہ ہے، جو مضبوط مگر اب بھی معتدل بحالی کی نشاندہی کرتی ہے۔ شعبہ جاتی کارکردگی میں کچھ اعتدال کے ساتھ بہتری دیکھی گئی: زرعی شعبے نے مالی سال 26 میں تقریباً 2.89% ترقی کی (جو مالی سال 2025 میں 1.53% تھی)، جس کی حمایت گندم، گنا، چاول، اور مویشیوں میں بہتر کارکردگی سے ہوئی باوجود اس کے کہ بعض علاقوں میں موسمی چیلنجز اور سیلاب آئے۔ صنعتی شعبے نے 3.51% کی مضبوط ترقی حاصل کی، جس کی بدولت مینوفیکچرنگ اور تعمیرات کی بحالی میں توانائی کی دستیابی اور پالیسی سپورٹ میں بہتری آئی (جبکہ مالی سال 25 میں یہ 5.56% تھی)۔ خدمات کا شعبہ زیادہ مضبوط طور پر 4.09% پر پھيلا (جبکہ مالی سال 25 میں 3.14% تھا)، جس میں تھوک اور ریٹیل تجارت، مالیات اور عوامی انتظامیہ نے مدد کی۔

مہنگائی کے دباؤ، جو مالی سال 25 میں نمایاں طور پر کم ہوئے تھے، مالی سال 26 کے دوران معتدل طور پر دوبارہ ظاہر ہونے لگے، جس کی وجہ بنیادی اثرات، عالمی اجناس کی قیمتوں میں اضافہ، اور ملکی عوامل ہیں۔ صارف قیمت انڈیکس (CPI) مالی سال 26 کے دوران اوسطاً 7.04% رہا (جس میں سال کے آخر میں جون کی ریڈنگ 11.07% سالانہ ریکارڈ کی گئی)، جو مالی سال 25 کے 4.49% اوسط سے زیادہ تھی لیکن پھر بھی پہلے کی بلند ترین سطحوں سے کافی کم تھی۔ یہ ابتدا میں بہتر خوراک کی فراہمی سے متاثر ہوا، لیکن بعد میں جغرافیائی سیاسی اتار چڑھاؤ کے دوران توانائی کے اخراجات کے دباؤ کی وجہ سے۔ مالی سال کے شروع میں پالیسی شرح سود میں کمی آئی اور 10.5% کی کم ترین سطح پر پہنچ گئی، جو ترقی کی حمایت کرتی ہے، اگرچہ مرکزی بینک نے اپریل 2026 میں افراط زر کے رجحانات اور بیرونی پیش رفت کے جواب میں اسے 100 بیسیس پوائنٹس بڑھا کر 11.5% کر دیا۔
