8.5 Risk Disclosure

Investors must realize that all investments in mutual funds and securities are subject to market risks. Our target return / dividend range cannot be guaranteed and it should be clearly understood that the portfolio of ABL Islamic Pension Fund is subject to market price fluctuations and other risks inherent in all such investments. The risks emanate from various factors that include, but are not limited to:

- 8.5.1 **Equity Risk:** Share prices are generally volatile and may go up or down because of their dependence on market sentiments, speculative activity, supply and demand for the shares and liquidity in the market. Mutual funds that purchase shares become part owners in the companies. The companies' performance, domestic and/or industry outlook with respect to technological and consumer behavior dynamics, market activity and the larger economic scenario influence the price of these shares. Moreover, lack of trading in the investee companies' securities may result in liquidity crisis. When the economy is expanding, the outlook for many companies is positive and the value of these shares may rise, and vice versa. Share prices are also affected by the quality of the management of investee companies.

For smaller companies, start-ups, resource companies and companies in emerging sectors, the risk and potential rewards are usually greater.

- 8.5.2 **Credit Risk:** Credit risk is comprised of default risk, credit spread risk and downgrade risk. Each can have a negative impact on the value of fixed income instruments.

- a) **Default risk** is the risk that the issuer will not be able to meet the obligation, either on time or at all.
- b) **Credit spread risk** is the risk that there will be an increase in the difference between the expected rate of return of an issuer's security and the rate of return of a risk free security. Credit spreads are based on macroeconomic scenario in the domestic and/or global perspective.

- c) **Downgrade risk** is the risk that a credit rating agency, such as PACRA or JCR-VIS or any other reputed international credit rating agency, may reduce the credit rating of an issuer's securities.
- 8.5.3 **Currency Risk:** The Fund may be affected favorably or unfavorably by changes in currencies and exchange control regulations. Therefore, the income earned by ABL-IPF may also be affected by fluctuations in foreign exchange rates.
- 8.5.4 **Pricing Risk:** The market values of the investments of the Fund may rise or fall due to market factors.
- 8.5.5 **Government Regulation Risk:** Government policies or regulations are more prevalent in some sectors than in others. Funds that invest in these sectors may be affected due to change in these regulations or policies, which directly or indirectly affect the earnings and/or the cash flows and/or any governmental or court orders restraining payment of capital, principal or income.
- 8.5.6 **Voluminous Purchase/Redemption of Fund Units Risk:** Any significant transaction made by any investor could significantly impact the Fund's cash flow. If a third party buys large amounts of Units of the Fund, the Fund could temporarily have a high cash balance. Conversely, if a third party redeems large amounts of Units of the Fund, the Fund may be required to finance the redemption by selling securities at an inopportune time. Such unexpected sales or redemptions may have a negative impact on the performance of the Fund.
- 8.5.7 **Other Risks Involved:**
- a. Mismanagement of the investee company, third party liability whether through class action or otherwise or occurrence of other events such as strikes, fraud etc., in the company in which the investment is made.
 - b. Break down of law and order, war, terrorist activity, natural disasters etc.
 - c. Senior rights of some stake holders over other stake holders in the event of winding up.
- 8.5.8 Under exceptional (extraordinary) circumstances, the Management Company may suspend redemptions, invoke a queue system or announce winding-up of the Fund. In such events, the investor will probably have to wait for payment beyond the normal period and the redemption amount so determined may be lower than the price at the time the redemption request was lodged. Investors are advised to read the relevant clauses of the Fund's Trust Deed for more detailed information regarding this clause.
- 8.5.9 **Risk specific to foreign investments:** The Fund may invest outside Pakistan & such investments may be exposed to additional risks including political, economic & exchange rate risks that may reduce the value of the investments. However, evidence shows that diversifying internationally tends to reduce the overall volatility of the portfolio and thus may reduce risks for investors.
- 8.5.10 Investment in the Fund is suitable for investors who have the ability to take the risks associated with financial and capital market investments. Capital invested in the financial and capital markets could, in extreme circumstances, lose its entire value. However, diversification of the investment into a number of highly liquid equities, income securities

and repurchase transactions tends to reduce the risk substantially. The historical performance of the Funds, the financial and capital market or that of any one security or transaction included in the Fund's portfolio does not indicate the future performance.

- 8.5.11 There may be times when a portion of the investment portfolio of the Scheme is not compliant either with the investment policy or the minimum investment criteria of the assigned 'Category'. This non-compliance may be due to various reasons including, adverse market conditions, liquidity constraints or investment – specific issues. Investors are advised to study the latest Fund Manager Report specially portfolio composition and Financial Statements of the Scheme to determine what percentage of the assets of the Scheme, if any, is not in compliance with the minimum investment criteria of the assigned Category. The latest monthly Fund Manager Report as per the format prescribed by Mutual Funds Association of Pakistan (MUFAP) is available on the website of the Assets Management Company (AMC) and can be obtained by calling / writing to the AMC.
