2.7 Risk Disclosure

Investment process requires disciplined risk management. The Management Company will incorporate adequate safeguards for controlling risks in the portfolio construction process of ABL-GSF. The risk control process involves reducing risks through study of interest rate direction, credit risk analysis and optimal portfolio diversification. ABL Asset Management believes that these steps will help achieve the desired level of consistency in returns.

ABL Asset Management investment team aims to select instruments based on proper credit evaluation of their respective Issuers and the instrument itself. Therefore it shall be guided by the ratings of Rating Agencies such as Pakistan Credit Rating Agency or JCR-VIS Credit Rating Company Limited or any other rating agencies that may be registered with SECP from time to time or any other reputed international credit rating agencies.

Investors must realize that all investments in mutual funds and securities are subject to market risks. Our target return / dividend range cannot be guaranteed and it should be clearly understood that the portfolio of ABL Government Securities Fund is subject to market price fluctuations and other risks inherent in all such investments. The risks emanate from various factors that include, but are not limited to:

a) Credit Risk

- i) **Default risk** is the risk that the issuer of the security will not be able to pay the obligation, either on time or at all.
- ii) **Credit spread risk** is the risk that there will be an increase in the difference between the return/mark-up rate of an issuer's bond and the return/mark-up rate of a bond that is considered to have little associated risk (such as a government guaranteed bond or treasury bill). The difference between this return/mark-up rate is called a "credit spread". Credit spreads are based on macroeconomic events in the domestic or global financial markets. An increase in credit spread will decrease the value of fixed income securities including money market instruments.
- iii) **Downgrade risk** is the risk that a credit rating agency, such as PACRA or JCR-VIS or any other reputed international credit rating agency will reduce the credit rating of an issuer's securities. Downgrades in credit rating will decrease the value of those fixed income securities including money market instruments.

This risk is mitigated through the Investment Policy parameter whereby ABL-GSF would mainly be investing in securities issued by government or government managed entities. Furthermore, deposits are kept in only those banks/ DFIs, which carry a minimum credit rating of AA- from a credit rating agency duly approved by the Commission.

b) Market Risk

The prices of and the income generated by the securities held by the Fund may decline in response to certain events, including those directly involving the companies whose securities are owned by the Fund, general economic and market conditions, regional or global economic instability, or currency and interest rate fluctuations. The return on the Fund over the principal is linked to the performance of the Fund. There is no guarantee that the securities prices will move during the tenure of the Fund and consequently a return will be paid out in addition to the Initial Investment Value

c) Derivative Risk

Derivatives may be used to limit or hedge potential losses associated with investments. This process is called “hedging”. The hedging strategy may not be effective and there is no guarantee that a market will exist when a Fund wants to buy or sell the derivative contract. There is also no guarantee that an acceptable counterpart will be willing to enter into the derivative contract. The counter-party to the derivative contract may not be able to meet its obligations or the Exchanges on which the derivative contracts are traded may set daily trading limits, preventing a Fund from closing out a particular contract. If an Exchange halts trading in any particular derivative contract, a Fund may not be able to close out its position in that contract. The price of a derivative may not accurately reflect the value of the underlying security or index.

d) Portfolio Performance Risk

Performance risk is the uncertainty relating to the performance of the Fund with respect to its ability to earn relatively higher income stream and investment upside. The NAV of the Fund might go down.

e) Liquidity Risk

The Fund bears minimal liquidity risk because it will be primarily invested in Government Securities, which are very liquid in nature. Liquidity Risk is the exposure to lose as a result of the inability to meet cash flow obligations in a timely and cost-effective manner. It may impact due to the following:

- (i) Trading Liquidity Risk:** Risk arises when a position is unwound or offset at an uneconomic market price due to widening of bid ask spread or because of disruptions in the marketplace.
- (ii) Funding Liquidity Risk:** Risk arises due to insufficient availability of cash to meet client’s redemptions. Liquidity squeeze in market creates such risk.

f) Voluminous Redemption of Fund Units Risk

Any significant transaction made by any investor could significantly impact the Fund’s cash flow. If a Unit Holder redeems large amounts of Units of Fund before maturity date or until the date specified in this Offering Document, the Fund may be required to meet the redemption by selling securities at an inopportune time. This unexpected sale may have a negative impact on the performance of the investment segment of the Fund.

g) Counter Party Risk

The risk with reverse repo / money market transactions is that the other party may default under the agreement or go bankrupt. In a reverse repurchase transaction, the fund may be left holding the security and may not be able to sell it at the same price it paid for it, plus return / markup, if the market value of the security has dropped. In the case if repurchase transaction; the fund could

incur the loss if the value of the security sold has increased more than the value of the cash or collateral held.

This risk is mitigated to the great extent as we assign line limits after thorough analysis of Counterparty financials and sponsor strength before making any investments.

h) Concentration Risk

Any significant transaction made by any investor could significantly impact a Fund's cash flow. If the third party buys large amounts of Units of a Fund, the Fund could temporarily have a high cash balance. Conversely, if the third party redeems large amounts of Units of a Fund, the Fund may be required to fund the redemption by selling securities at an inopportune time. This unexpected sale may have a negative impact on the performance of the investment.

i) Events Risk

There may be adjustments to the performance of the Fund due to events such as market disruptions, mergers, nationalization, insolvency and changes in taxation laws.

j) Early termination risk

If the Fund for any reasons is terminated, the NAV of the Fund will be subject to fluctuations in the value of the Fund's assets. The Net Asset Value, in this case, may be lower or higher than the Initial Investment Value. The Management Company will refund investors their investment in the Fund based on the NAV per unit without any redemption fee but less bank and administrative charges (if any).

k) Interest Rate Risk

A rise in interest rates during the investment period may result in reduced prices of the held securities, thus reducing the overall return in terms of opportunity cost. Fixed income securities including money market instruments generally pay a fixed rate of coupon/mark-up. The value of the fund, due to its holdings in these securities including money market instruments, will rise and fall as market interest rates change. For example, when interest rates fall, the value of an existing bond will rise because the coupon rate on that bond is greater than prevailing return/mark-up rates and vice versa.

l) Government Regulation Risk

Government policies or regulations are more prevalent in some sectors than in others. Funds that invest in these sectors may be affected due to change in these regulations or policies, which directly or indirectly affect the earnings and/or the cash flows and/or any governmental or court orders restraining payment of capital, principal or income.

m) Sovereign Risk

Payment of debt securities may be effected by the economic and political events in the country of the relevant issuer. The occurrence of a sovereign risk event could result in the loss of all or a portion of the principal invested, as a result of any economic or political circumstance.

n) Other Risks Involved

Mismanagement of the investee company, third party liability whether through class action or otherwise or occurrence of other events such as strikes, fraud etc., in the company in which the investment is made or a breakdown of law and order, war, terrorist activity, natural disasters etc, senior rights of creditors over the shareholders in the case of winding up, break-down of communication systems of the issuers, stock exchanges or general disruptions of satellite system.

2.7.1 Prices of Units of the Fund and income from them may go up or down.

2.7.2 Under exceptional (extraordinary) circumstances, the Management Company may declare suspension of issuance and redemptions, invoke a queue system or announce winding-up.

In such events, the investor will probably have to wait for payment beyond the normal period and the redemption amount so determined may be lower than the price at the time the redemption request was lodged. Investors are advised to read the relevant clauses of the Fund's Trust Deed for more detailed information regarding this clause.

2.8 Disclaimer

The Units of ABL-GSF are not bank deposits and are neither issued by, insured by, obligation of, nor otherwise supported by the SECP, any Government Agency, Trustee, the Management Company (except to the extent specifically stated in this document and the Trust Deed) or any of the shareholders of the Management Company or any other bank or financial institution.

The portfolio of ABL-GSF is subject to market risks and risks inherent in all such investments. ABL-GSF target return/dividend range cannot be guaranteed. ABL-GSF's Unit price after Initial Offer Period is not guaranteed. It is based on the NAV that may go up or down depending upon the factors and forces affecting the capital markets and interest rates.

The Scheme may also invest outside Pakistan and such investments outside Pakistan may be exposed to certain additional risk including political, economic and exchange rate risks that may reduce the value of the investments. However, studies show that diversifying internationally would tend to reduce the overall volatility of a portfolio and thus may reduce risks for investors.

Investors are requested to read the Risk Disclosure and Disclaimer statement contained in Part 10 of this Offering Document.

The investors of any class should have in all other respects the same rights and shall enjoy same level of asset management services.]

4.2 Types of Units

4.2.1 An investor shall, at the time of opening an account, select the type(s) of Units(s) in which the investor wishes to invest, i.e. Growth and/or Income Units.

4.2.2 The minimum amount of investment to open and maintain an account is Rs.5,000/- for Growth Units and Rs.500,000/- for Income Units. The Management Company reserves the right to alter the minimum amounts stated hereinabove provided, that in case of an upward change in the minimum amount required for maintaining the account or adding funds, the Management Company shall give fourteen(14) days notice to Unit Holders. If the investment is any investor’s account below the minimum level as a result of revised limits, changes in valuation redemption, transfer or transmission, the Management Company may instruct the Registrar/Transfer Agent, under intimation to that investor, to close the account by redeeming the Units at the close of any accounting period at the price applicable to redemptions on such date. For Income Units, in case the amount falls below Rs.500,000/-, funds may be transferred to Growth Units.

After the initial investment, Unit Holders of ABL-GSF may add a minimum of Rs.1,000/- per transaction at their convenience. Units of ABL-GSF (including fractions thereof) shall be issued against the amount received from the Unit Holder(s) in accordance with the procedure laid down in this Offering Document. The Management Company may alter the minimum amount required for opening, maintaining or adding to the account. Provided that in case of an upward change in the minimum amount required for maintaining the account or adding funds, the Management Company shall give seven days notice to Unit Holders.

- i. **Growth Units:** The Unit value grows in line with the growth in the NAV, and the Unit Holders, shall have the option to receive distribution income in the form of cash or bonus units. The Unit Holder shall choose one of the following two options:
 - a) Growth Units with option of receiving a Cash Dividend at the time of distribution.
 - b) Growth Units with the option of receiving Bonus Units at the time of distribution.
- ii. **Income Units:** Income Unit Holders will be distributed Dividends in the form of Bonus Units only.

- a) **Flexible Income Plan** - Unit Holders, at the time of purchase or beginning of an interval will authorize the Management Company to decide the quantum of part redemption of their unit holdings at the end of every Regular Interval (i.e. monthly, quarterly, semi-annually or annually) based on the performance (NAV growth) of the scheme during the Regular Interval.
- If the Value of Investment increases (due to growth in NAV) during an interval, the Management Company will calculate the number of units to be redeemed in such a manner that the total redemption value of such units is equal to the increase in the value of investment during that interval.
 - If the Value of Investment falls (due to fall in NAV) during an interval, the Management Company will not redeem any units at the end of that interval.
- b) ~~**Fixed Income Plan**—Unit Holders, at the time of purchase or beginning of an interval will specify a fixed cash amount at Regular Intervals (i.e. monthly, quarterly, semi-annually or annually) and authorize the Management Company to redeem (at the prevailing NAV) such number of units from their holding that in rupee terms is equivalent to the specified fixed amount required at the end of every Regular Interval.~~ **(Fixed Income Plan is discontinued as per SECP Direction of 15 of 2025 dated July 03, 2025)**

As a result of operation of this Clause, the capital invested may deplete in case sufficient returns are not earned to cover the amount required by the Unit Holder.

As mentioned in clause 10.2 of this Offering Document, price of units and their subsequent income may go up or down as market conditions so warrant. If income generated from the growth in unit prices outweighs the fixed cash amount, as specified by an investor then the capital of the investor shall not deplete. On the contrary, if income generated from the growth in unit prices becomes lower than the fixed cash amount being paid to an investor then this will lead to a reduction in the actual invested amount. If such a scenario emanates and growth factors dampen with respect to the fixed cash amount then the investor is susceptible to capital depletion. If such conditions persist, then the following steps may be exercised:

- i. The investor may opt to convert their plan from fixed income to flexible income or opt for growth units by completing and submitting the special instructions form as enclosed in Annexure “D”.
- ii. In case the amount falls below Rs.500,000/-, the Management Company may transfer the Income units into Growth Units.

As per clause 9.4 of this Offering Document, the Management Company will inform the fixed income unit holder regarding his/her account activity through regular account statements. Units so redeemed (at the prevailing NAV) from the investor’s holding, that in rupee terms is equivalent to the specified fixed amount, shall be highlighted in the account statement. Investors shall have to regularly monitor their account statements in order to protect their investment from depleting, in the instance that the specified fixed income amount outweighs growth in units.

Such measures will reduce the likelihood of a fixed income plan investor from depletion in capital.

The Management Company shall, calculate the redemption value to be paid to the Income Unit Holder(s) based on the Redemption Price of that day.

- 4.2.3 The Management Shall on the 25th of the last month of every Regular Interval, calculate the redemption value to be paid to the Income Unit Holder(s) based on the Redemption Price of that day.

The amount so redeemed shall be transferred/paid to the designated bank account/Cheque/pay order/Demand Draft within six (6) working days of the redemption.

- 4.2.4 The Unit Holder may withdraw funds from the option at any stage by filling out and submitting the prescribed form to the Distributor. If the value of the account goes below the prescribed amount as a result of loss in valuation or as a result of application of Clauses 4.2.2 (ii) above, the minimum value requirement shall not apply to that extent. In such an event, the Unit Holder is free to discontinue the option or convert the remaining Units into Growth Units.
- 4.2.5 The Registrar/Transfer Agent shall send an account statement to the Unit Holder each time there is an activity in the account. Such statements or report shall be sent by electronic means or ordinary mail to the Unit Holder's address recorded in the register.
- 4.2.6 In case the Management Company announces a suspension of further issue of Units of ABL-GSF, it may allow existing Unit Holders to continue acquiring Units out of any dividend declared on Units held under this option.
- 4.2.7 Certificates representing Income Units shall not be issued. However, the Transfer Agent shall send directly to each Unit Holder an account statement each time there is a transaction in the account.
- 4.2.8 All Units and fractions thereof (up to four or more decimal places) represent an undivided share in the Scheme and rank pari passu as to their rights in net assets, earnings and receipt of dividends and distributions. Each Unit Holder has a beneficial interest in ABL-GSF proportionate to the Units held by such Unit Holder. However, while maintaining the integrity of each Unit's pari passu rights, the Management Company may, for the convenience of investors, issue Units with different features from time to time.
- 4.2.9 Unit Holders may obtain certificates representing the Growth Units they hold by paying a nominal fee of Rs.50/- per certificate. This fee may be revised from time to time by the Management Company. Requests for redemption, transfer or transmission of Units shall be processed only on the production of the certificate(s) if issued earlier. In the event of loss or defacing of certificates, the verification process shall be carried out to the satisfaction of the Management Company / Trustee /Registrar/Transfer Agent and the associated costs, if any, will be borne by the Unit Holder.
- 4.2.10 The Registrar/Transfer Agent may register a pledge / lien on any Units in favor of any third party with the specific authority of the Management Company. However, the pledge / lien shall be valid only if evidenced by a statement or letter issued by the Transfer Agent indicating the Units marked in favor of the Pledgee.
