## REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of ABL Asset Management Company Limited, the management company of ABL Islamic Income Fund (ABL-IIF), is pleased to present the Financial Statements (audited) of ABL Islamic Income Fund for the year ended on June 30, 2025.

### ECONOMIC PERFORMANCE REVIEW

Fiscal Year 2025 marked a decisive turn in Pakistan's macroeconomic trajectory, underpinned by policy stability, successful completion of an IMF Standby Arrangement, and a sustained focus on structural reforms. The year was characterized by declining inflation, a shift toward monetary easing, and notable improvements in external account stability - all against the backdrop of improving political sentiment and contained global commodity prices.

Pakistan's real GDP grew by 2.68% in FY25 (provisional), slightly higher than the 2.51% growth recorded in FY24, signaling a modest but broad-based economic recovery. Sector-wise performance showed mixed trends: the agriculture sector, after a remarkable 6.4% growth in FY24, moderated to 0.56% in FY25 due to base effects and seasonal challenges. The industrial sector rebounded strongly, recording a 4.77% growth in FY25 compared to a contraction of 1.37% in the previous year, reflecting improved energy availability and policy support. The services sector also gained momentum, expanding by 2.91% in FY25 versus 2.19% in FY24, supported by financial services, trade, and public administration.

Inflationary pressures, while elevated at the start of the year, eased sharply over time and remained on downward trajectory this year. The Consumer Price Index (CPI) averaged 4.61% in FY25 as compared to 23.9% in FY24, supported by a high base effect, improved food supplies, and declining global energy prices. The policy rate, which stood at 20.5% at the start of the fiscal year, was gradually brought down in phases to 19.5% by July, 17.5% by October, and 13.0% by December. With continued disinflation and improved external stability, the central bank further reduced the rate to 12.0% by March and finally to 11.0% by May 2025, maintaining it at that level through the fiscal year-end. This cumulative 950bps easing reflected growing confidence in macroeconomic stabilization and marked a decisive shift from the previous tight policy stance.

The external account performance was notably strong, with the current account posting a cumulative surplus of USD 2.1 billion in FY25 compared to a deficit of USD 2.07 billion in the same period last year. This improvement was significantly supported by robust remittance inflows, which rose to USD 38.3 billion in FY25, up from USD 30.25 billion in FY24. The PKR remained largely stable in both interbank and open markets, reflecting improved reserve buffers and reduced speculative pressures. Foreign exchange reserves followed an upward trajectory throughout FY25. Total reserves rose from USD 13.99 billion in June 2024 to USD 19.27 billion by June 2025, while SBP's own reserves improved from USD 9.39 billion to USD 14.51 billion. This improvement was underpinned by multilateral inflows - including the final IMF SBA tranche approved on April 29, 2025 - along with bilateral support and better market sentiment. The reserve buildup further reinforced confidence and external sector resilience.

On the fiscal side, the Federal Board of Revenue (FBR) reported provisional collections of PKR 11.72 trillion, reflecting continued momentum in tax administration reforms and economic formalization. The government also presented the FY26 Federal Budget in June 2025, which emphasized revenue expansion, expenditure discipline, and alignment with IMF benchmarks - laying the groundwork for the next Extended Fund Facility (EFF) program.

Despite intermittent global volatility - particularly stemming from the Iran-Israel conflict and renewed tariff uncertainty under U.S. political developments - global commodity and oil prices remained volatile but generally followed a downward trajectory. This external softness played a supportive role in containing Pakistan's inflation and narrowing the current account deficit. Combined with political continuity and improved governance, these t

rends contributed to a more stable macroeconomic environment, helping strengthen market sentiment across equity and fixed income markets while also supporting a more favorable business climate.

In summary, FY25 was a turning point, characterized by macroeconomic stabilization, a return to current account surpluses, softening inflation, and the beginning of monetary easing. The foundation laid this year provides a supportive platform for medium-term growth, contingent on sustained reform implementation and continued global financial support.

## **MONEY MARKET REVIEW ISLAMIC**

FY2025 marked a turning point for Pakistan's monetary environment, driven by sharp disinflation, monetary easing, and improved macroeconomic indicators. The Consumer Price Index (CPI) averaged 4.61% YoY, down significantly from 23.9% in FY2024, primarily due to favorable base effects, declining global commodity prices, and improved domestic food and energy supply dynamics. The main contributors to inflation during the early part of the year were food, transport, and housing segments; however, pressures eased sharply over the second half.

The State Bank of Pakistan (SBP) maintained a tight monetary stance for most of the fiscal year, holding the policy rate at 22% until late 2024. As inflation decelerated and real interest rates turned positive, the SBP initiated its easing cycle and the policy rate, which stood at 20.5% at the start of the fiscal year, was gradually brought down in phases to 19.5% by July, 17.5% by September, and 13.0% by December, 12.0% by January and finally to 11.0% by May 2025 bringing the policy rate down to 11.00% by year-end. As of June 2025, SBP's foreign exchange reserves stood at USD 14.51 billion, providing adequate buffers to support further easing without jeopardizing external account stability.

During the FY25, considerable market participation was observed in the variable rate Ijarah Sukuk as the total participation stood at PKR 3,902bn against a target of PKR 771bn. The Ministry, however ended up borrowing a total of PKR 1,275bn in the variable rate Ijarah Sukuk. In fixed rate Ijara sukuks, participation stood at PKR 1,266bn against the target of PKR 760bn in 1Y, 3Y & 5Y tenors. Ministry ended up borrowing PKR 296bn in 3Y, 5Y & 10Y tenors.

## **MUTUAL FUND INDUSTRY REVIEW**

In fiscal year 2025, the open-end mutual fund industry recorded robust growth, with assets under management (AUM) increasing by 44.02% year-on-year, from PKR 2,677 billion to PKR 3,859 billion. Significant inflows were observed in money market funds, both Conventional and Islamic, which grew by PKR 578 billion (43.67%) year-on-year, reaching a balance of PKR 1,904 billion. Equity market funds, encompassing both Conventional and Islamic categories, also experienced substantial growth of PKR 408 billion (98.98%) year-on-year. This expansion was driven by improving macroeconomic conditions, positive investor sentiment, and a favourable capital markets outlook. However, Capital Protected Funds and Shariah Compliant Fund of Funds saw declines of PKR 6,365 million (10.28%) and PKR 716 million (19.28%) year-on-year, respectively.?

## **MACROECONOMIC BACKDROP**

The FY25 period has been marked by a remarkable decline in inflation, with the Consumer Price Index (CPI) dropping to a historic low of 0.28% YoY in April 2025, before rising modestly to 3.24% YoY by June 2025, compared to 12.57% in June 2024. This moderation, driven by improved supply dynamics, stable core categories, and favorable base effects, reflects enhanced macroeconomic stability. Core inflation, while slightly elevated, eased annually to 6.9% (urban) and 8.6% (rural) by June 2025, signaling manageable inflationary pressures.

The external account has shown resilience, with the current account posting a cumulative surplus of USD 2.1 billion in FY25, a significant improvement from a USD 2.0 billion deficit in the prior year. Worker remittances surged to USD 38.3 billion (+26.4% YoY) by June 2025, bolstered by stable exchange rates and enhanced formal channels. Exports grew by 8.1% YoY to USD 30.9 billion, despite global demand constraints, while SBP's foreign

exchange reserves rose to USD 14.51 billion by June 2025, supported by IMF disbursements, climate financing, and multilateral inflows, including a USD 2 billion deposit extension from the UAE and the USD 40 billion Pakistan Partnership Framework from the World Bank.

The SBP's data-driven monetary policy stance, coupled with fiscal consolidation measures outlined in the Federal Budget FY26 (announced June 10, 2025), emphasizes tax base expansion and state-owned enterprise reforms. However, challenges such as revenue mobilization, circular debt, and external debt servicing persist, compounded by global geopolitical tensions and trade disruptions, necessitating vigilant risk management.

### **Islamic Money Market and Fixed Income Outlook**

The Islamic money market has mirrored the conventional segment's trends, with strong demand for Shariah-compliant instruments. Variable rate GoP Ijarah Sukuk saw significant participation, with PKR 257.8 billion in bids against a PKR 50 billion target in June 2025, though only PKR 159.9 billion was accepted. Fixed rate Ijarah Sukuk also attracted robust interest, with PKR 94.5 billion in bids against a PKR 75 billion target, with PKR 43.7 billion raised. These trends reflect growing investor confidence in Shariah-compliant instruments amid declining yields and a stable macroeconomic environment.

### **Investment Strategy**

- **Islamic Income Segment:** We are shifting from longer-term fixed rate Sukuk to floating rate Sukuk. Active trading in GoP Ijarah Sukuk at optimal yields will further augment returns.
- **Islamic Money Market Segment:** An aggressive approach will be maintained, with higher allocations in GoP Ijarah Sukuk to enhance returns. However, for Islamic Cash Funds, we adopt a conservative stance, minimizing exposure to GoP Ijarah Sukuk to prioritize liquidity and stability.
- **Risk Mitigation:** We will closely monitor market dynamics and adjust allocations to balance yield optimization with Shariah-compliant liquidity requirements, ensuring alignment with investor mandates.

### **Risks and Considerations**

Despite the positive outlook, several risks warrant attention:

- **External Pressures:** Geopolitical tensions, including US-China trade disputes and regional frictions with India, alongside external debt servicing, could strain foreign reserves.
- **Domestic Challenges:** Weak revenue mobilization, circular debt, and industrial output constraints remain structural hurdles. The Federal Budget FY26's success in implementing fiscal reforms will be critical.
- **Policy Uncertainty:** While further policy rate cuts to 10% are possible, the SBP's cautious stance suggests limited room for aggressive easing without robust macroeconomic support.

The FY25 money market outlook for both conventional and Islamic segments is characterized by cautious optimism, driven by declining inflation, a resilient external account, and monetary policy easing. Our strategy emphasizes flexibility, with a focus on shorter-tenor instruments and selective Sukuk allocations to optimize yields while maintaining liquidity. By actively managing duration, negotiating favorable deposit deals, and monitoring macroeconomic and geopolitical developments, we aim to deliver stable returns while mitigating risks in an evolving economic landscape. As we move into FY26, disciplined fiscal and monetary policies, alongside sustained external support, will be pivotal in sustaining Pakistan's economic stabilization and unlocking further investment opportunities.

## FUND PERFORMANCE

For the year ended FY25, ABL Islamic Income Fund posted a return of 15.06% compared to the benchmark return of 10.37%, outperforming the benchmark by 469 bps. During the year net assets stood at PKR 1,874.16 million as of June 30, 2025, compared to PKR 978.10 million as of June 30, 2024. At the end of June'25, the fund had 18.74% exposure in Sukuks, 33.00% exposure in government guaranteed instruments, and 40.73% of its assets placed in Cash.

## MACROECONOMIC BACKDROP

The FY25 period has been marked by a remarkable decline in inflation, with the Consumer Price Index (CPI) dropping to a historic low of 0.28% YoY in April 2025, before rising modestly to 3.24% YoY by June 2025, compared to 12.57% in June 2024. This moderation, driven by improved supply dynamics, stable core categories, and favorable base effects, reflects enhanced macroeconomic stability. Core inflation, while slightly elevated, eased annually to 6.9% (urban) and 8.6% (rural) by June 2025, signaling manageable inflationary pressures.

The external account has shown resilience, with the current account posting a cumulative surplus of USD 2.1 billion in FY25, a significant improvement from a USD 2.0 billion deficit in the prior year. Worker remittances surged to USD 38.3 billion (+26.4% YoY) by June 2025, bolstered by stable exchange rates and enhanced formal channels. However, challenges such as revenue mobilization, circular debt, and external debt servicing persist, compounded by global geopolitical tensions and trade disruptions, necessitating vigilant risk management.

## ISLAMIC MONEY MARKET AND FIXED INCOME OUTLOOK

The Islamic money market has mirrored the conventional segment's trends, with strong demand for Shariah-compliant instruments. Variable rate GoP Ijarah Sukuk saw significant participation, with PKR 257.8 billion in bids against a PKR 50 billion target in June 2025, though only PKR 159.9 billion was accepted. Fixed rate Ijarah Sukuk also attracted robust interest, with PKR 94.5 billion in bids against a PKR 75 billion target, with PKR 43.7 billion raised. These trends reflect growing investor confidence in Shariah-compliant instruments amid declining yields and a stable macroeconomic environment.

## INVESTMENT STRATEGY

- Islamic Income Segment: We are shifting from longer-term fixed rate Sukuk to floating rate Sukuk. Active trading in GoP Ijarah Sukuk at optimal yields will further augment returns.
- Islamic Money Market Segment: An aggressive approach will be maintained, with higher allocations in GoP Ijarah Sukuk to enhance returns. However, for Islamic Cash Funds, we adopt a conservative stance, minimizing exposure to GoP Ijarah Sukuk to prioritize liquidity and stability.
- Risk Mitigation: We will closely monitor market dynamics and adjust allocations to balance yield optimization with Shariah-compliant liquidity requirements, ensuring alignment with investor mandates.

## RISKS AND CONSIDERATIONS

Despite the positive outlook, several risks warrant attention:

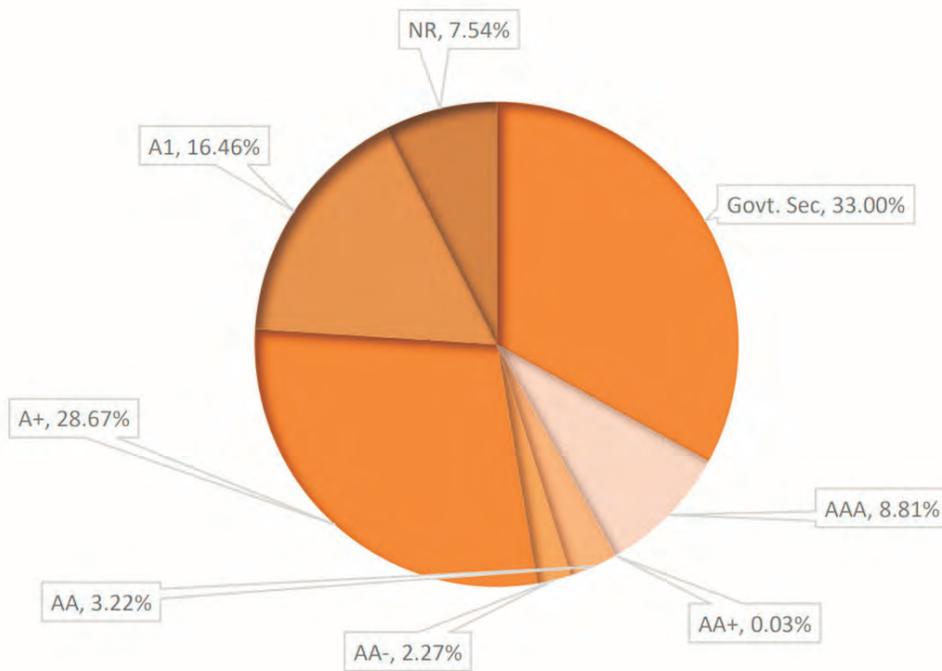

- External Pressures: Geopolitical tensions, including US-China trade disputes and regional frictions with India, alongside external debt servicing, could strain foreign reserves.
- Domestic Challenges: Weak revenue mobilization, circular debt, and industrial output constraints remain structural hurdles. The Federal Budget FY26's success in implementing fiscal reforms will be critical.
- Policy Uncertainty: While further policy rate cuts to 10% are possible, the SBP's cautious stance suggests limited room for aggressive easing without robust macroeconomic support.

The FY25 money market outlook for both conventional and Islamic segments is characterized by cautious optimism, driven by declining inflation, a resilient external account, and monetary policy easing. Our strategy emphasizes flexibility, with a focus on shorter-tenor instruments and selective Sukuk allocations to optimize yields while

maintaining liquidity. By actively managing duration, negotiating favorable deposit deals, and monitoring macroeconomic and geopolitical developments, we aim to deliver stable returns while mitigating risks in an evolving economic landscape. As we move into FY26, disciplined fiscal and monetary policies, alongside sustained external support, will be pivotal in sustaining Pakistan's economic stabilization and unlocking further investment opportunities.

## **INDEPENDENT ASSURANCE REPORT ON COMPLIANCE WITH THE SHARIAH GOVERNANCE REGULATIONS, 2023**

**To The Board of Directors of ABL Asset Management Company Limited**

### **1. Introduction**

We have undertaken a reasonable assurance engagement that the Securities and Exchange Commission of Pakistan (the SECP) has required in terms of its Shariah Governance Regulations, 2023 (the Regulations) – External Shariah Audit of **ABL Islamic Income Fund (the Fund)** for assessing compliance of the Fund's financial arrangements, contracts, and transactions having Shariah implications with the Shariah principles for the year ended June 30, 2025. This engagement was conducted by a multidisciplinary team including assurance practitioners and independent Shariah scholar.

### **2. Applicable Criteria**

The criteria for the assurance engagement, against which the underlying subject matter (financial arrangements, contracts, and transactions having Shariah implications for the year ended June 30, 2025) is assessed, comprise of the Shariah principles and rules, as defined in the Regulations and reproduced as under:

- a) legal and regulatory framework administered by the SECP;
- b) Shariah standards issued by the Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI), as notified by the SECP;
- c) Islamic Financial Accounting Standards, developed by the Institute of Chartered Accountants of Pakistan (ICAP), as notified by the SECP;
- d) guidance and recommendations of the Shariah advisory committee, as notified by the SECP; and
- e) approvals, rulings or pronouncements of Shariah Supervisory board or the Shariah Advisor of the Islamic financial institution, in line with (a) to (d) above.

Our engagement was carried out as required under Regulation 29 of Chapter VII of the Regulations.

The above criteria were evaluated for their implications on the financial statements of the Fund for the year ended June 30, 2025, which are annexed.

### **3. Management's Responsibility for Shariah Compliance**

Management is responsible to ensure that the financial arrangements, contracts, and transactions, having Shariah implications, entered into by the Fund with its unit holders, other financial institutions and stakeholders and related policies and procedures are, in substance and legal form, in compliance with the requirements of Shariah rules and principles. The management is also responsible for design, implementation and maintenance of appropriate internal control procedures with respect to such compliance and maintenance of relevant accounting records.

### **4. Our Independence and Quality Control**

We have complied with the independence and other ethical requirements of the Code of Ethics for Chartered Accountants issued by the Institute of Chartered Accountants of Pakistan (the Code), which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

The firm applies International Standard on Quality Management (ISQM-1) "Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements" and accordingly maintains a comprehensive system of quality management including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

#### 5. Our Responsibility and Summary of the Work Performed

Our responsibility in connection with this engagement is to express an opinion on compliance of the Fund's financial arrangements, contracts, and transactions having Shariah implications, with Shariah principles in all material respects for the year ended June 30, 2025, based on the evidence we have obtained. We conducted our reasonable assurance engagement in accordance with International Standard on Assurance Engagements 3000 (Revised), 'Assurance Engagements Other than Audits or Reviews of Historical Financial Information', issued by the International Auditing and Assurance Standards Board. That standard requires that we plan and perform this engagement to obtain reasonable assurance about whether the compliance of the Funds financial arrangements, contracts, and transactions having Shariah implications with Shariah principles is free from material misstatement.

The procedures selected by us for the engagement depended on our judgement, including the assessment of the risks of material non-compliance with the Shariah principles. In making those risk assessments, we considered and tested the internal control relevant to the Fund's compliance with the Shariah principles in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. We have designed and performed necessary verification procedures on various financial arrangements, contracts and transactions having Shariah implications and related policies and procedures based on judgmental and systematic samples with regard to the compliance of Shariah principles (criteria specified in para 2 above).

We believe that the evidence we have obtained through performing our procedures were sufficient and appropriate to provide a basis for our opinion.

#### 6. Conclusion

Based on our reasonable assurance engagement, we report that, in our opinion, the Fund's financial arrangements, contracts, and transactions for the year ended June 30, 2025, are in compliance with the Shariah principles (criteria specified in the paragraph 2 above), in all material respects.

The engagement partner on the assurance resulting in this independent assurance report is Muhammad Sufyan.

**INDEPENDENT AUDITOR'S REPORT**

**To the Unit holders of ABL Islamic Income Fund**

**Report on the Audit of the Financial Statements**

**Opinion**

We have audited the financial statements of ABL Islamic Income Fund (the Fund / Collective Investment Scheme), which comprise the statement of assets and liabilities as at June 30, 2025, and the income statement, the statement of comprehensive income, statement of movement in unit holders' fund and cash flow statement for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at June 30, 2025, and of its financial performance and its cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

**Basis for Opinion**

We conducted our audit in accordance with the International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the key audit matter:

S. No.	Key Audit Matter	How the matter was addressed in our audit
1	<p><b>Net Asset Value (NAV)</b> (Refer notes 4 and 5 to the financial statements)</p> <p>Balances with banks and investments constitute the most significant component of the net assets value. Balances with banks aggregated to Rs. 762.516 million and investments of the Fund amounted to Rs. 1,037,268 million as at June 30, 2025.</p> <p>The existence of balances with banks and the existence and proper valuation of investments for the determination of NAV of the Fund as at June 30, 2025 was considered a high risk area and therefore we considered this as a key audit matter.</p>	<p>Our audit procedures amongst others included the following:</p> <ul style="list-style-type: none"> <li>Obtained independent confirmations for verifying the existence of the investment portfolio and balances with banks as at June 30, 2025 and traced it with the books and records of the Fund. Where such confirmations were not available, alternate audit procedures were performed;</li> <li>Re-performed valuation to assess that investments are carried as per the valuation methodology specified in the accounting policies; and</li> <li>Obtained bank reconciliation statements and tested reconciling items on a sample basis.</li> </ul>

### Other Information

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and Board of Directors of the Management Company for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting and reporting standards as applicable in Pakistan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Board of directors of the Management Company is responsible for overseeing the Fund's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Affco

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with board of directors of the Management Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide board of directors of the Management Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with board of directors of the Management Company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

Based on our audit, we further report that in our opinion:

- a) the financial statements have been properly prepared in accordance with the relevant provisions of the Non-Banking Finance Companies and Notified Entities Regulations, 2008;
- b) proper books and records have been kept by the Collective Investment Scheme and the financial statements prepared are in agreement with the books and records of the Collective Investment Scheme; and
- c) we were able to obtain all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of the audit.

The engagement partner on the audit resulting in this independent auditor's report is **Noman Abbas Sheikh**.

# ABL ISLAMIC INCOME FUND

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

### FOR THE YEAR ENDED JUNE 30, 2025

---

#### 1 LEGAL STATUS AND NATURE OF BUSINESS

- 1.1 ABL Islamic Income Fund (the Fund) is an open ended mutual fund constituted under a Trust Deed entered into on June 23, 2010 between ABL Asset Management Company Limited (ABL AMCL) as the Management Company and Central Depository Company of Pakistan Limited (CDC) as the Trustee. The Trust Deed has been revised through the First Supplemental Trust Deed dated July 29, 2011 with the approval of the Securities and Exchange Commission of Pakistan (SECP). Furthermore, the offering document of the Fund has been revised through the First, Second, Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth, Eleventh, Twelfth, Thirteenth, Fourteenth and Fifteenth supplements dated September 27, 2011, December 20, 2011, February 13, 2012, July 13, 2013, July 9, 2015, September 26, 2016, October 6, 2016, October 2, 2020, March 22, 2021, June 24, 2021, September 28, 2021, January 17, 2022, November 9, 2023, November 9, 2024 and January 28, 2025 respectively with the approval of the SECP. The SECP authorised constitution of the Trust Deed vide letter no. NBFC-II/DD/ABLAMC/492 dated June 11, 2010 in accordance with the requirement of the Non-Banking Finance Companies and Notified Entities Regulations, 2008.

During the year ended June 30, 2021, the Trust Act, 1882 had been repealed due to the promulgation of Provincial Trust Act namely "The Punjab Trusts Act, 2020" (the Punjab Trust Act) as empowered under the Eighteenth Amendment of the Constitution of Pakistan. Accordingly, on June 20, 2023 the Fund has been registered as a Trust under the Punjab Trust Act and has been issued a Trust Registration Certificate.

- 1.2 The Management Company of the Fund has been licensed to act as an Asset Management Company under the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules) through a certificate of registration issued by the SECP. The registered office of the Management Company is situated at Plot No. 14, Main Boulevard, DHA Phase 6, Lahore. The Management Company is a member of the Mutual Funds Association of Pakistan (MUFAP).
- 1.3 The Fund has been categorised as an open ended Islamic income scheme by the Board of Directors of the Management Company pursuant to the provisions contained in Circular 7 of 2009 and is listed on the Pakistan Stock Exchange Limited. The units of the Fund were initially offered for public subscription at a par value of Rs 10 per unit. Thereafter, the units are being offered for public subscription on a continuous basis and are transferable and redeemable by surrendering them to the Fund.
- 1.4 The objective of the Fund is to provide investors with an opportunity to earn higher income over medium to long term by investing in money market and debt instruments permissible under the Shariah principles. The investment objectives and policies are explained in the Fund's offering document.
- 1.5 The Management Company has been assigned a quality rating of 'AM1' by Pakistan Credit Rating Agency (PACRA) dated October 25, 2024 (2024: 'AM1' dated October 26, 2023). The rating reflects the experienced management team, structured investment process and sound quality of systems and processes. Furthermore, VIS Credit Rating Company Limited has maintained the stability rating of the Fund to 'A+(f)' dated June 16, 2025 (2024: 'A+(f)' on May 17, 2024).
- 1.6 The title to the assets of the Fund is held in the name of Central Depository Company of Pakistan Limited as trustee of the Fund.

#### 2 BASIS OF PRESENTATION AND PREPARATION

##### 2.1 Basis of presentation

The transactions undertaken by the Fund are in accordance with the process prescribed under the Shariah guidelines issued by the Shariah Advisor and are accounted for on substance rather than the form prescribed by the earlier referred guidelines. This practice is being followed to comply with the requirements of the accounting and reporting standards as applicable in Pakistan.

##### 2.2 Basis of preparation

###### 2.2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Accounting Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;

- Provisions of and directives issued under the Companies Act, 2017 along with part VIIIA of the repealed Companies Ordinance, 1984; and
- the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules), the Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations) and the requirements of the Trust Deed.

Where provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations and the requirements of the Trust Deed differ from the IFRS Accounting Standards, the provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations and the requirements of the Trust Deed have been followed.

#### **2.2.2 Standards, interpretations and amendments to published accounting and reporting standards that are effective in the current year**

There are certain amendments to the published accounting and reporting standards that are mandatory for the Fund's annual accounting period beginning on July 1, 2024. However, these are not considered to be relevant or do not have any material effect on the Fund's financial statements and hence, therefore, have not been disclosed in these financial statements.

#### **2.2.3 Standards, Interpretations and Amendments to Published Approved Accounting Standards that are not yet effective**

There are certain new standards and amendments to the published accounting and reporting standards that will be applicable to the Fund for its annual periods beginning on or after July 1, 2025. However, these are not considered to be relevant or will not have any material effect on the Fund's financial statements except for:

- the new standard - IFRS 18 Presentation and Disclosure in Financial Statements (IFRS 18) (published in April 2024) with applicability date of January 1, 2027 by IASB. IFRS 18 when adopted and applicable shall impact the presentation of 'Income Statement' with certain additional disclosures in the financial statements; and
- amendments to IFRS 9 'Financial Instruments' which clarify the date of recognition and derecognition of a financial asset or financial liability including settlement of liabilities through banking instruments and channels including electronic transfers with effective date of January 1, 2026. The amendment when applied may impact the timing of recognition and derecognition of financial liabilities.

#### **2.2.4 Critical accounting estimates and judgments**

The preparation of financial statements in conformity with the accounting and reporting standards requires the management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates, judgments and associated assumptions are based on historical experience and various other factors including expectations of future events that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of assets and liabilities. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

The estimates and judgments that have a significant effect on these financial statements of the Fund relate to classification and valuation of financial assets (notes 3.2 and 5).

#### **2.2.5 Accounting convention**

These financial statements have been prepared under the historical cost convention except for certain investments which have been classified as 'at fair value through profit or loss' and which are measured at fair value. The details in respect of valuation techniques under IFRS 13 'Fair Value Measurement' used for the fair valuation of financial assets has been disclosed in 21.

#### **2.2.6 Functional and presentation currency**

Items included in the financial statements are measured using the currency of the primary economic environment in which the Fund operates. These financial statements are presented in Pakistan Rupee, which is the Fund's functional and presentation currency.

### 3 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been applied consistently to all the years presented.

#### 3.1 Cash and cash equivalents

These comprise balances with banks in savings and current accounts and other short-term highly liquid investments with original maturities of three months or less.

#### 3.2 Financial assets

##### 3.2.1 Initial recognition and measurement

Financial assets are recognised at the time the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair value plus transaction costs except for financial assets carried 'at fair value through profit or loss'. Financial assets carried 'at fair value through profit or loss' are initially recognised at fair value and transaction costs are recognised in the Income Statement.

##### 3.2.2 Classification and subsequent measurement

###### Debt instruments

IFRS 9 has provided a criteria for debt securities whereby these debt securities are either classified as:

- amortised cost
- at fair value through other comprehensive income "(FVOCI)"
- at fair value through profit or loss (FVTPL)

based on the business model of the entity.

However, IFRS 9 also provides an option whereby securities managed as a portfolio or group of assets and whose performance is measured on a fair value basis, to be recognised at FVPL. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. Therefore the management considers its investment in debt securities as being managed as a group of assets and hence has classified them as FVPL.

##### 3.2.3 Impairment

The Fund assesses on a forward looking basis the expected credit loss (ECL) associated with its financial assets (other than debt instruments) carried at amortised cost and FVOCI. The Fund recognises loss allowances for such losses at each reporting date. The measurement of ECL reflects:

- an unbiased and probability weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Fund considers that a financial asset is in default when the counterparty fails to make contractual payments within 90 days of when they fall due. Further, financial assets are written off by the Fund, in whole or part, when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery.

##### 3.2.4 Impairment loss on debt securities

Provision for non-performing debt securities is made on the basis of time-based criteria as prescribed by the SECP and based on management's assessment made in line with its provisioning policy approved by the Board of Directors of the Management Company in accordance with the guidelines issued by the SECP. Impairment losses recognised on debt securities can be reversed through the Income Statement.

As allowed by the SECP, the Management Company may make provision against debt securities over and above the minimum provision requirement prescribed by the SECP, considering the specific credit and financial condition of the debt security issuer and in accordance with the provisioning policy duly approved by the Board of Directors of the Management Company. The provisioning policy approved by the Board of Directors has also been placed on the Management Company's website as required under the SECP's circular.

### 3.2.5 Regular way contracts

All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date on which the Fund commits to purchase or sell the asset. Regular way purchases / sales of assets require delivery of securities within two days from the transaction date as per the stock exchange regulations.

### 3.2.6 Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred, the Fund has transferred substantially all the risks and rewards of ownership or the Fund neither transfers nor retains substantially all the risks and rewards of ownership and the Fund has not retained control. Any gain or loss on derecognition of financial assets is taken to the "Income Statement".

### 3.3 Financial liabilities

Financial liabilities are recognised at the time when the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair values and subsequently stated at amortised cost.

#### 3.3.1 Classification and subsequent measurement

Financial liabilities are recognised at the time when the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair values and subsequently stated at amortised cost.

#### 3.3.2 Derecognition

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Any gain or loss on derecognition of financial liabilities is taken to the Income Statement.

### 3.4 Offsetting of financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount is reported in the 'Statement of Assets and Liabilities' when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Income and expenses arising on financial instruments are presented on a net basis only when permitted by the accounting and reporting standards as applicable in Pakistan.

### 3.5 Provisions

Provisions are recognised when the Fund has a present, legal or constructive, obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

### 3.6 Net asset value per unit

The Net Asset Value (NAV) per unit as disclosed in the 'Statement of Assets and Liabilities' is calculated by dividing the net assets of the Fund by the number of units in circulation at the year end.

### 3.7 Issue and redemption of units

Units issued are recorded at the offer price, determined by the Management Company for the applications received by the Management Company / distributors during business hours on that day. The offer price represents the Net Asset Value (NAV) per unit as of the close of the business day, plus the allowable sales load and provision of any duties and charges if applicable. The sales load is payable to the Management Company / distributors.

Units redeemed are recorded at the redemption price applicable to units for which the Management Company / distributors receive redemption applications during business hours of that day. The redemption price is equal to NAV as of the close of the business day, less an amount as the Management Company may consider to be an appropriate provision of duties and charges.

### 3.8 Distributions to unit holders

Distributions to the unit holders are recognised upon declaration and approval by the Board of Directors of the Management Company. Based on the Mutual Funds Association of Pakistan's (MUFAP) guidelines duly consented by the SECP, distribution for the year also includes portion of income already paid on units redeemed during the year.

Distributions declared subsequent to the year end reporting date are considered as non-adjusting events and are recognised in the financial statements of the year in which such distributions are declared and approved by the Board of Directors of the Management Company.

### 3.9 Element of income / (loss) and capital gains / (losses) included in prices of units issued less those in units redeemed

Element of income represents the difference between Net Asset Value (NAV) per unit on the issuance or redemption date, as the case may be, of units and the NAV per unit at the beginning of the relevant accounting period. Further, the element of income is a transaction of capital nature and the receipt and payment of element of income / (loss) is taken to unit holders' fund. However, to maintain the same ex-dividend NAV of all units outstanding on the accounting date, net element of income contributed on issue of units lying in unit holders' fund is refunded on units in the same proportion as dividend bears to accounting income available for distribution.

### 3.10 Revenue recognition

- Gains / (losses) arising on sale of investments are recorded at the date at which the transaction takes place.
- Income on GoP Ijarah sukuks and corporate sukuks is recognised on time proportion basis using the effective yield method.
- Unrealised appreciation / (diminution) arising on re-measurement of investments classified as financial assets 'at fair value through profit or loss' are recorded in the year in which they arise.
- Profit on bank balances is recognised on time proportion basis, using effective rate method.

### 3.11 Expenses

All expenses chargeable to the fund including remuneration of the management company, trustee fee and annual fee of the SECP are recognised in the Income Statement on an accrual basis.

### 3.12 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than ninety percent of its accounting income for the year, as reduced by capital gains, whether realised or unrealised, is distributed to the unit holders in cash.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

7.1 As per clause 47(B) of part IV of the Second Schedule to the Income Tax Ordinance, 2001, payments made to collective investment schemes (CISs) are exempt from withholding tax under section 150 and 151. However, withholding taxes on profit on bank deposits and other debt investments to the Fund were deducted by various withholding agents based on the interpretation issued by FBR vide letter C. No. 1(43) DG (WHT)/2008-VOL.II-66417-R dated May 12, 2015 which requires every withholding agent to withhold income tax at applicable rates in case a valid exemption certificate under section 159(1) issued by the concerned Commissioner of Inland Revenue (CIR) is not produced before him by the withholders. The tax withheld on profit on bank balances and profit on debt securities amounts to Rs 63.093 million (2024: Rs 63.093 million).

For this purpose, the Mutual Funds Association of Pakistan (MUFAP) on behalf of various mutual funds (including the Fund being managed by the Management Company) had filed a petition in the Honourable Sindh High Court (SHC) challenging the above mentioned interpretation of the Federal Board of Revenue (FBR) which was decided by the SHC in favour of FBR. A petition was filed in the Supreme Court of Pakistan by the Funds together with other CISs (managed by the Management Company and other Asset Management Companies) whereby the Supreme Court granted the petitioners leave to appeal from the initial judgment of the SHC. Pending resolution of the matter, the amount of withholding taxes deducted on profit received by the Fund on bank deposits and debt securities have been shown as other receivable as at June 30, 2025.

7.2 During the current year, the management, on a prudent basis, has recorded a provision amounting to Rs. 4.325 million against the aforesaid advance tax refundable.

8.1 As per regulation 61 of the NBFC Regulations, 2008, the Management Company is entitled to a remuneration equal to an amount not exceeding the maximum rate of management fee as disclosed in the Offering Document subject to the total expense ratio limit. Keeping in view the maximum allowable threshold, the Management Company has charged its remuneration at the following rates during the year ended June 30, 2025:

Rate applicable from July 1, 2023 to November 8, 2023	Rate applicable from November 9, 2023 to June 30, 2024	Rate applicable from July 1, 2024 to June 30, 2025
8% of gross earning subject to minimum floor of 0.40% of net assets per annum and maximum cap of 1.00% of net assets per annum of the Fund	0.00% to 2.00% of average daily net assets per annum of the Fund	0.00% to 2.00% of average daily net assets per annum of the Fund

The remuneration is payable to the Management Company monthly in arrears.

During the year ended June 30, 2025, the SECP, vide S.R.O.600(I)/2025 dated April 10, 2025, introduced the management fee cap of 1.25% to be calculated on a per annum basis of the average daily net assets, applicable to an "Islamic Income Scheme". This revision is effective from July 1, 2025. As at June 30, 2025 the Fund is not subject to a management fee cap.

- 8.2** During the year, an amount of Rs 1.627 million (2024: Rs 1.335 million) was charged on account of sales tax on management fee levied through the Punjab Sales Tax on Services Act, 2012 at the rate of 16% (2024: 16%).
- 8.3** The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from June 13, 2013. The Management Company was of the view that since the remuneration and sales load were already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on September 4, 2013, a constitutional petition was filed with the Honourable Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

During the year ended June 30, 2017, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication as at the reporting date.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company with effect from July 01, 2016. However, as a matter of abundant caution the provision for FED made for the period from June 13, 2013 till June 30, 2016 amounting to Rs 8.366 million is being retained in these financial statements as the matter is pending before the Supreme Court of Pakistan. Had the provision for FED not been made, the Net Asset Value of the Fund as at June 30, 2025 would have been higher by Re 0.046 (2024: Re 0.088 ) per unit.

- 8.4** In accordance with Regulation 60 of the NBFC Regulations, the Management Company is entitled to charge fees and expenses for registrar services, accounting, operation and valuation services, related to a Collective Investment Scheme (CIS). During the current year, the Management Company has not charged such expenses to the Fund based on its discretion.

Further, during the year, the SECP, vide S.R.O.600(I)/2025 dated April 10, 2025, has issued amendments in respect of expenses chargeable to CISs as prescribed in Schedule XX of the NBFC Regulations, from which the chargeability of expenses related to registrar services, accounting, operation and valuation services has been excluded. This amendment was made effective immediately upon its release on April 10, 2025, except where a later date was explicitly approved by the SECP. The Fund has not charged such expenses after the applicability date of the aforesaid SRO.

- 8.5** In accordance with Circular 11 dated July 5, 2019 issued by the SECP, the Management Company is entitled to charge selling and marketing expenses to a Collective Investment Scheme (CIS). During the current year, the Management Company has not charged such expenses to the Fund based on its own discretion.

Further, the SECP, vide S.R.O.600(I)/2025 dated April 10, 2025, has issued amendments in respect of expenses chargeable to CISs as prescribed in Schedule XX of the NBFC Regulations, from which the chargeability of expenses related to selling and marketing services has been excluded. This amendment was effective immediately upon its release on April 10, 2025, except where a later date was explicitly approved by the SECP.

- 8.6 On December 27, 2024, pursuant to the SECP's order dated September 9, 2024, the Management Company has distributed a sum of Rs. 1.271 million in the form of newly issued units to the unit holders of the Fund on account of excess selling & marketing and allocated expenses charged by the Management Company to the Fund during the years ended December 31, 2022 and December 31, 2023.

#### 15 TAXATION

The income of the Fund is exempt from income tax under clause (99) of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management has distributed the required minimum percentage of income earned by the Fund for the year ended June 30, 2021 to the unit holders in the manner as explained above, no provision for taxation has been made in these financial statements during the year.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

#### 16 TOTAL EXPENSE RATIO

The Total Expense Ratio (TER) of the Fund as at June 30, 2025 is 1.21% (2024: 1.48%) which includes 0.17% (2024: 0.21%) representing government levies on the Fund such as sales taxes, annual fee to the SECP, etc. This ratio is within the maximum limit of 2.5% (excluding government levies) prescribed under the NBFC Regulations for a collective investment scheme categorised as an "Islamic Income Scheme".

During the year ended June 30, 2025, the SECP, vide S.R.O. 600(I)/2025 dated April 10, 2025, has removed the TER limit with effect from July 1, 2025. The TER limit, applicable previously, has been replaced with the management fee cap which has been disclosed in note 8.1 of these financial statements.

## 20 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund's objective in managing risk is the creation and protection of unit holders' value. Risk is inherent in the Fund's activities, but it is managed through monitoring and controlling activities which are primarily set up to be performed based on limits established by the Management Company, the constitutive documents of the Fund and the regulations and directives of the SECP. These limits reflect the business strategy and market environment of the Fund as well as the level of the risk that the Fund is willing to accept. The Board of Directors of the Management Company supervises the overall risk management approach within the Fund. The Fund is exposed to market risk, liquidity risk and credit risk arising from the financial instruments it holds.

### 20.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices.

The Management Company manages the market risk through diversification of the investment portfolio and by following the internal guidelines established by the Investment Committee.

Market risk comprises of three types of risks: yield / profit rate risk, currency risk, and price risk.

#### (i) Yield / profit rate risk

Yield / profit rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. As of June 30, 2025, the Fund is exposed to such risk on bank balances and sukuk certificates. The Investment Committee of the Fund reviews the portfolio of the Fund on a regular basis to ensure that the risk is managed within the acceptable limits.

#### a) Sensitivity analysis for variable rate instruments

Presently, the Fund holds balances with bank, GoP ijara sukuk certificates and KIBOR based corporate sukuk certificates which expose the Fund to cash flow profit rate risk. In case of 100 basis points increase / decrease in applicable rates on the last repricing date with all other variables held constant, the net income for the year and net assets of the Fund would have been higher / lower by Rs. 13.309 million (2024: Rs. 8.262 million).

Profit rate sensitivity position for on-balance sheet financial instruments is based on the earlier of contractual repricing or maturity date and for off-balance sheet financial instruments is based on settlement date.

The Fund's profit rate sensitivity related to financial assets and financial liabilities as at June 30, 2025 and June 30, 2024 can be determined as follows:

Effective profit rate (%)	2025				Total

#### (ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in foreign exchange rates. The Fund does not have any financial instruments in foreign currencies and hence is not exposed to such risk.

#### (iii) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

As of June 30, 2025, the Fund is exposed to price risk (other than those arising from interest rate risk or currency risk) mainly on its investments in Corporate sukuk certificates arising from the variation in market prices (due to changes in credit ratings of the issuer, liquidity conditions in the market and broader macroeconomic factors). Additionally, the Fund holds investments in GoP Ijarah sukuk, which are also subject to price risk. However, given their sovereign backing and relatively stable market behaviour, this risk is considered minimal.

## 20.2 Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligation in full as they fall due or can only do so on terms that are materially disadvantageous to the Fund.

The Fund is exposed to daily redemptions at the option of unit holders. The Fund's approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions. The Fund's policy is, therefore, to invest the majority of its assets in investments that are traded in an active market and can be readily disposed and are considered readily realisable.

As per the NBFC Regulations, 2008, the Fund can borrow in the short-term to ensure settlement the maximum limit of which is fifteen percent of the net assets up to 90 days and would be secured by the assets of the Fund. However, no borrowing was required to be obtained by the Fund during the current year.

In order to manage the Fund's overall liquidity, the Fund may also withhold daily redemption requests in excess of ten percent of the units in issue and such requests would be treated as redemption requests qualifying for being processed on the next business day. Such procedure would continue until the outstanding redemption requests come down to a level below ten percent of the units then in issue. The Fund did not withhold any redemptions during the year.

The table below summaries the maturity profile of the Fund's financial instruments. The analysis into relevant maturity groupings is based on the remaining period at the end of the reporting period to the contractual maturity dates. However, the liabilities that are payable on demand have been included in the maturity grouping of one month:

### 20.3 Credit risk

**20.3.1** Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge its obligation as it falls due. The table below analyses the Fund's maximum exposure to credit risk;

	2025		2024	
	Balance as per statement of assets and liabilities	Maximum exposure to credit risk	Balance as per statement of assets and liabilities	Maximum exposure to credit risk
	Rupees in '000		Rupees in '000	
Bank balances	762,516	762,516	629,081	629,081
Investments	1,037,268	375,741	297,201	95,973

	<u>2,001,646</u>	<u>1,335,768</u>	<u>948,961</u>	<u>743,067</u>

The maximum exposure to credit risk before any credit enhancement as at June 30, 2025 is the carrying amount of the financial assets. Investments in GoP Ijarah sukuk profit receivable thereon, however, are not exposed to credit risk and have been excluded from the above analysis as these are guaranteed by the Government of Pakistan.

### 20.3.2 Credit quality of financial assets

The Fund's significant credit risk arises mainly on account of its placements in banks, investment in sukuk certificates and mark-up accrued thereon. The credit rating profile of balances held with banks, sukuk, and its accrued profit is as follows:

Banks	Rating Agency	Rating (Long Term)	2025	2024
			% of bank balances exposed to credit risk	
Allied Bank Limited	PACRA	AAA	4.57%	1.47%
United Bank Limited *	VIS	AAA	-	-

Meezan Bank Limited *	VIS	AAA	-	-
			<u>100.00%</u>	<u>100.00%</u>

\* Nil figure due to rounding off.

Above ratings are on the basis of available ratings assigned by PACRA and VIS as of June 30, 2025.

Ratings of Corporate sukuk certificates have been disclosed in related notes to the financial statements, whereas GoP Ijarah Sukuks are issued by the Government of Pakistan, hence they do not carry credit risk.

### 20.3.3 Concentration of credit risk

Concentration of credit risk exists when changes in economic and industry factors similarly affect groups of counter parties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. As transactions are entered with credit worthy parties and are within the regulatory limits, therefore any significant concentration of credit risk is mitigated.

## 21 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the reporting date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

## 21.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at June 30, 2025 and June 30, 2024, the Fund held the following financial instruments measured at fair values:

	-----2025-----			
	Level 1	Level 2	Level 3	Total
	----- Rupees in '000 -----			
<b>At fair value through profit or loss</b>				
Government securities - GoP Ijarah sukuks	580,744	80,783	-	661,527
Corporate sukuk certificates	-	375,741	-	375,741
	<u>580,744</u>	<u>456,524</u>	<u>-</u>	<u>1,037,268</u>
	-----2024-----			
	Level 1	Level 2	Level 3	Total
	----- Rupees in '000 -----			
<b>At fair value through profit or loss</b>				
Government securities - GoP Ijarah sukuks	-	201,228	-	201,228
Corporate sukuk certificates	-	95,973	-	95,973
	<u>-</u>	<u>297,201</u>	<u>-</u>	<u>297,201</u>

21.2 There were no transfers between level 1 and 2 and no transfers in or out of level 3.

21.3 The following valuation techniques have been used in determination of fair values of the investments:

Item	Valuation technique
Government of Pakistan Ijarah sukuks	The fair value of GoP Ijarah sukuks listed on Pakistan Stock Exchange has been determined through closing rates quoted on Pakistan Stock Exchange. Whereas, the fair value of other GoP Ijarah sukuks are derived using PKISRV rates as at the reporting date. The PKISRV rates are announced daily by FMA (Financial Market Association) through Reuters. The rates announced are simple average of quotes received from eight different pre-defined / approved dealers / brokers.
Corporate sukuk certificates	The valuation of Corporate sukuk certificates has been determined from MUFAP debt valuation sheet as at the reporting date. The closing rates are announced by MUFAP daily on its website.

## 22 UNIT HOLDERS' FUND RISK MANAGEMENT

The unit holders' fund is represented by redeemable units. These units are entitled to dividends and to payment of a proportionate share based on the Fund's Net Asset Value per unit on the redemption date. The relevant movements are shown in the 'Statement of Movement in Unit Holders' Fund'.

The Fund has no restriction on the subscription and redemption of units. As required under the NBFC Regulations, 2008 every open end scheme shall maintain fund size (i.e. net assets of the Fund) of Rs 100 million at all times during the life of the scheme. The Fund has historically maintained and complied with the requirement of minimum fund size at all times.

The Fund's objectives when managing unit holders' funds are to safeguard its ability to continue as a going concern so that it can continue to provide returns to the unit holders and to maintain a strong base of assets to meet unexpected losses or opportunities.

In accordance with the risk management policies as stated in note 20, the Fund endeavours to invest the subscriptions received in appropriate investment avenues while maintaining sufficient liquidity to meet redemptions, such liquidity being augmented by disposal of investments or short-term borrowings, where necessary.

## کارپوریٹ گورننس

کمپنی کارپوریٹ گورننس، اخلاقیات، اور اچھے کاروباری طریقوں کے اعلیٰ ترین معیار کی پیروی پر پختہ یقین رکھتی ہے۔ کمپنی کا ضابطہ اخلاق تمام بورڈ ممبران، ملازمین اور کمپنی کی مختلف اسٹیک ہولڈرز، ایک دوسرے اور مجموعی طور پر معاشرے کے لیے ذمہ داریوں اور ذمہ داریوں کی وضاحت کرتا ہے۔ ضابطہ اخلاق کمپنی کی ویب سائٹ پر دستیاب ہے۔

## بورڈ آف ڈائریکٹرز کا بیان

1. مالیاتی بیانات کافی حد تک معاملات کی حالت، آپریشن کے نتائج، سال کے لیے جامع آمدنی، کیش فلو اور یونٹ ہولڈرز کے فنڈ میں نقل و حرکت کو پیش کرتے ہیں۔
2. فنڈ کے اکاؤنٹس کی مناسب کتابیں برقرار رکھی گئیں۔
3. مالیاتی گوشواروں کی تیاری میں مناسب اکاؤنٹنگ پالیسیوں کا مسلسل اطلاق کیا گیا ہے اور اکاؤنٹنگ کے تخمینے معقول اور دانشمندانہ فیصلوں پر مبنی ہیں۔
4. متعلقہ بین الاقوامی اکاؤنٹنگ معیارات، جیسا کہ پاکستان میں لاگو ہوتا ہے، غیر بینکاری فنانس کمپنیوں (اسٹیبلشمنٹ اینڈ ریگولیشن) رولز 2003 اور نان بینکنگ فنانس کمپنیوں اور مطلع شدہ اداروں کے ضوابط، 2008 کی دفعات، ٹرسٹ ڈیڈ کی شرائط اور جاری کردہ ہدایات مالیاتی بیانات کی تیاری میں سیکیورٹیز اینڈ ایکسچینج کمیشن آف پاکستان کی پیروی کی گئی ہے۔
5. اندرونی کنٹرول کا نظام ڈیزائن میں مستحکم ہے اور اس کو موثر انداز میں لاگو اور نگرانی کیا گیا ہے۔
6. فنڈ کی تشویش کی حیثیت سے جاری رکھنے کی اہلیت پر کوئی خاص شبہات نہیں ہیں۔

## خطرات اور تحفظات

مثبت نقطہ نظر کے باوجود، کئی خطرات توجہ کی ضمانت دیتے ہیں:

• بیرونی دباؤ:

جغرافیائی سیاسی کشیدگی، بشمول امریکہ - چین تجارتی تنازعات اور بھارت کے ساتھ علاقائی تنازعات، بیرونی قرضوں کی فراہمی کے ساتھ، غیر ملکی ذخائر کو دبا سکتے ہیں۔

گھریلو چیلنجز:

آمدنی کی کمزوری، گردشی قرضہ، اور صنعتی پیداوار کی رکاوٹیں ساختی رکاوٹیں ہیں۔ مالیاتی اصلاحات کے نفاذ میں وفاقی بجٹ 26 FY کی کامیابی اہم ہوگی۔

پالیسی کی غیر یقینی صورتحال:

اگرچہ پالیسی کی شرح میں مزید 10 فیصد تک کمی ممکن ہے، اسٹیٹ بینک کا محتاط موقف مضبوط میکرو اکنامک سپورٹ کے بغیر جارحانہ نرمی کے لیے محدود گنجائش تجویز کرتا ہے۔

روایتی اور اسلامی دونوں طبقوں کے لیے مالیاتی مارکیٹ کا مالیاتی نقطہ نظر محتاط رجائیت پر مبنی ہے، جو گرتی ہوئی افراط زر، ایک لچکدار بیرونی کھاتہ، اور مانیٹری پالیسی میں نرمی کے ذریعے کارفرما ہے۔ ہماری حکمت عملی لچک پر زور دیتی ہے، جس میں مختصر مدت کے آلات اور سلیکیٹیو سکوک مختص کرنے پر توجہ دی گئی ہے تاکہ لیکویڈٹی کو برقرار رکھتے ہوئے پیداوار کو بہتر بنایا جاسکے۔ مدت کا فعال طور پر انتظام کر کے، ڈیپازٹ کے سازگار سودوں پر گفت و شنید کر کے، اور میکرو اکنامک اور جیو پالیٹیکل پیش رفت کی نگرانی کر کے، ہمارا مقصد ایک ابھرتے ہوئے معاشی منظر نامے میں خطرات کو کم کرتے ہوئے مستحکم منافع فراہم کرنا ہے۔ جیسا کہ ہم مالی سال 26 میں آگے بڑھ رہے ہیں، مستقل بیرونی مدد کے ساتھ ساتھ نظم و ضبط کی مالی اور مالیاتی پالیسیاں، پاکستان کے معاشی استحکام کو برقرار رکھنے اور سرمایہ کاری کے مزید مواقع کو کھولنے میں اہم ثابت ہوں گی۔

## فنڈ کی کارکردگی

مالی سال 25 کو ختم ہونے والے سال کے لیے، ABL اسلامک انکم فنڈ نے 10.37 فیصد کے بینچ مارک ریٹرن کے مقابلے میں 15.06 فیصد کا سالانہ ریٹرن پوسٹ کیا، جس نے بینچ مارک سے 469 bps تک بہتر کارکردگی کا مظاہرہ کیا۔ سال کے دوران خالص اثاثے، 30 جون 2024 تک 978.10 ملین روپے کے مقابلے میں 30 جون 2025 تک 1,874.16 ملین روپے تھے۔ جون 25 کے آخر میں، فنڈ کا سکوک میں 18.74 فیصد، حکومت کی طرف سے گارنٹی شدہ آلات میں 33 فیصد اور اس کے اثاثوں کا 40.73 فیصد نقد میں رکھا گیا ہے۔

برآمدات سالانہ 8.1 فیصد بڑھ کر 30.9 بلین امریکی ڈالر ہو گئیں، جب کہ ایس بی پی کے زرمبادلہ کے ذخائر جون 2025 تک بڑھ کر 14.51 بلین امریکی ڈالر تک پہنچ گئے، آئی ایم ایف کی ادائیگیوں کی تقسیم، موسمیاتی فنانسنگ، اور کثیر الجہتی رقوم بشمول متحدہ عرب امارات کی جانب سے 2 بلین امریکی ڈالر ڈپازٹ اور ورلڈ بینک فریم ورک سے 2 بلین امریکی ڈالر پارٹنر ڈپازٹ کے ذریعے تعاون کیا گیا۔

SBP کا ڈیٹا پرمینی مانیٹری پالیسی کا موقف، وفاقی بجٹ FY26 (10 جون 2025 کو اعلان کیا گیا) میں بیان کردہ مالیاتی استحکام کے اقدامات کے ساتھ ٹیکس کی بنیاد کی توسیع اور ریاستی ملکیتی انٹرپرائز اصلاحات پر زور دیتا ہے۔ تاہم، چیلنجز جیسے کہ ریونیو موبلائزیشن، گردش قرضہ، اور بیرونی قرضوں کی سروسنگ برقرار ہے، جو عالمی جغرافیائی سیاسی تناؤ اور تجارتی رکاوٹوں کے باعث بنتے ہیں، جس سے چوکس خطرے کے انتظام کی ضرورت ہوتی ہے۔

### اسلامک منی مارکیٹ اور فکسڈ انکم آؤٹ لک

اسلامی کرنسی مارکیٹ نے روایتی طبقہ کے رجحانات کی عکاسی کی ہے، جس میں شریعت کے مطابق آلات کی زبردست مانگ ہے۔ متغیر شرح حکومتی اجارہ سکوک نے نمایاں شرکت دیکھی، جون 2025 میں 50 بلین روپے کے ہدف کے مقابلے میں بولی میں 257.8 بلین روپے کے ساتھ رہی، حالانکہ صرف روپے 159.9 بلین کو قبول کیا گیا تھا۔ فکسڈ ریٹ اجارہ سکوک نے بھی زبردست دلچسپی حاصل کی، جس میں 75 بلین روپے کے ہدف کے مقابلے میں 94.5 بلین روپے بولی، 43.7 بلین بڑھائی گئی۔ یہ رجحانات گرتی ہوئی پیداوار اور مستحکم معاشی ماحول کے درمیان شریعت کے مطابق آلات پر سرمایہ کاروں کے بڑھتے ہوئے اعتماد کی عکاسی کرتے ہیں۔

### سرمایہ کاری کی حکمت عملی

#### • اسلامی آمدنی کا طبقہ

ہم طویل مدتی مقررہ شرح سکوک سے فلوٹنگ ریٹ سکوک میں منتقل ہو رہے ہیں۔ حکومتی اجارہ سکوک میں زیادہ سے زیادہ پیداوار پر فعال ٹریڈنگ منافع میں مزید اضافہ کرے گی۔

#### • اسلامک منی مارکیٹ سیگمنٹ

ریٹرن کو بڑھانے کے لیے حکومتی اجارہ سکوک میں زیادہ مختص کے ساتھ ایک جارحانہ انداز اپنایا جائے گا۔ تاہم، اسلامک کیش فنڈز کے لیے، ہم ایک قدامت پسندانہ موقف اپناتے ہیں، جس سے جی او پی اجارہ سکوک کی نمائش کو کم کرتے ہوئے لیکویڈیٹی اور استحکام کو ترجیح دیتے ہیں۔

#### • خطرے کی تخفیف

ہم مارکیٹ کی حرکیات کو قریب سے مانیٹر کریں گے اور سرمایہ کاروں کے مینڈیٹ کے ساتھ صف بندی کو یقینی بناتے ہوئے شریعت کے مطابق لیکویڈیٹی کی ضروریات کے ساتھ پیداوار کی اصلاح کو متوازن کرنے کے لیے مختص کو ایڈجسٹ کریں گے۔

کے آغاز میں 20.5 فیصد پر تھا، کو سال کے آغاز میں نیچے لایا گیا۔ جولائی تک 19.5 فیصد، ستمبر تک 17.5 فیصد، اور دسمبر تک 13.0 فیصد، جنوری تک 12.0 فیصد اور آخر کار مئی 2025 تک 11.0 فیصد ہو گیا اور سال کے آخر تک پالیسی کی شرح کو 11.00 فیصد تک لایا گیا۔ جون 2025 تک، SBP کے زرمبادلہ کے ذخائر 14.51 بلین امریکی ڈالر تھے، جو بیرونی کھاتوں کے استحکام کو خطرے میں ڈالے بغیر مزید نرمی میں مدد دینے کے لیے کافی بفر فراہم کرتے ہیں۔

مالی سال 25 کے دوران، اجارہ سکوک کی متغیر شرح میں قابل ذکر مارکیٹ کی شرکت دیکھی گئی کیونکہ کل شرکت 771 بلین روپے کے ہدف کے مقابلے میں 3,902 بلین روپے تھی۔ تاہم وزارت نے اجارہ سکوک کی متغیر شرح میں کل 1,275 بلین روپے کا قرضہ حاصل کیا۔ فکسڈ ریٹ اجارہ سکوک میں شرکت 1,266 بلین روپے رہی جبکہ Y1، Y3 اور Y5 مدت میں 760 بلین روپے کے ہدف کے مقابلے میں وزارت نے Y5، Y3 اور Y10 مدتوں میں 296 بلین روپے کا قرض لیا۔

**میوچل فنڈ انڈسٹری کا جائزہ**

مالی سال 2025 میں، اوپن اینڈ میوچل فنڈ انڈسٹری نے مضبوط نمو ریکارڈ کی، زیر انتظام اثاثہ جات (AUM) میں سال بہ سال 44.02 فیصد اضافہ ہوا، 2,677 بلین روپے سے 3,859 بلین روپے ہو گیا۔ کرنسی مارکیٹ فنڈز میں نمایاں آمد دیکھی گئی، روایتی اور اسلامی دونوں، جس میں سال بہ سال 578 بلین روپے (43.67 فیصد) اضافہ ہوا، جو 1,904 بلین روپے کے توازن تک پہنچ گیا۔ ایکویٹی مارکیٹ فنڈز، جو روایتی اور اسلامی دونوں زمروں پر مشتمل ہیں، نے بھی سال بہ سال 408 بلین روپے (98.98 فیصد) کی خاطر خواہ ترقی کا تجربہ کیا۔ یہ توسیع میکرو اکنامک حالات میں بہتری، سرمایہ کاروں کے مثبت جذبات اور کیپیٹل مارکیٹ کے سازگار نقطہ نظر کی وجہ سے ہوئی۔ تاہم، کیپیٹل پروٹیکٹڈ فنڈز اور شریعہ کپلائنٹ فنڈ آف فنڈز میں بالترتیب 6,365 بلین روپے (10.28 فیصد) اور 716 بلین روپے (19.28 فیصد) سال بہ سال کمی دیکھی گئی۔

**میکرو اکنامک بیک ڈراپ**

FY25 کی مدت مہنگائی میں غیر معمولی کمی کے ساتھ نشان زد ہوئی ہے، جس میں اپریل 2025 میں کنزیومر پرائس انڈیکس (CPI) 0.28 فیصد YoY کی تاریخی کم ترین سطح پر گر گیا، اس سے پہلے کہ جون 2025 تک یہ 3.24 فیصد YoY پر معمولی اضافہ ہو، اس کے مقابلے میں جون میں 12.57 فیصد، سلائی میں بہتری آئی۔ مستحکم بنیادی زمرے، اور سازگار بنیادی اثرات، بہتر میکرو اکنامک استحکام کی عکاسی کرتے ہیں۔ بنیادی افراط زر، جب کہ قدرے بلند ہوا، جون 2025 تک 6.9 فیصد (شہری) اور 8.6 فیصد (دیہی) تک ہر سال کم ہو گئی، جو قابل انتظام افراط زر کے دباؤ کا اشارہ ہے۔

بیرونی اکاؤنٹ نے لچک دکھائی ہے، مالی سال 25 میں کرنٹ اکاؤنٹ نے 2.1 بلین امریکی ڈالر کا مجموعی سرپلس پوسٹ کیا، جو کہ پچھلے سال کے 2.0 بلین امریکی ڈالر خسارے سے نمایاں بہتری ہے۔ مزدوروں کی ترسیلات زر جون 2025 تک بڑھ کر 38.3 بلین امریکی ڈالر (+26.4% YoY) تک پہنچ گئیں، مستحکم شرح مبادلہ اور بڑھے ہوئے رسمی چینلز سے تقویت ملی۔ عالمی طلب کی رکاوٹوں کے باوجود

حد تک مستحکم رہا، بہتر ریزرو بفرز اور قیاس آرائیوں میں کمی کی عکاسی کرتا ہے۔ زر مبادلہ کے ذخائر پورے مالی سال 25 کے دوران اوپر کی طرف بڑھتے رہے۔ کل ذخائر جون 2024 میں 13.99 بلین امریکی ڈالر سے جون 2025 تک بڑھ کر 19.27 بلین امریکی ڈالر تک پہنچ گئے، جبکہ اسٹیٹ بینک کے اپنے ذخائر 9.39 بلین امریکی ڈالر سے بڑھ کر 14.51 بلین امریکی ڈالر ہو گئے۔ اس بہتری کی بنیاد کثیر الجہتی آمد کے ذریعے ہوئی۔ بشمول 29 اپریل 2025 کو منظور شدہ IMF SBA کی حتمی قسط—دو طرفہ تعاون اور مارکیٹ کے بہتر جذبات کے ساتھ۔ ریزرو کی تعمیر سے اعتماد اور بیرونی شعبے کی چمک کو مزید تقویت ملی۔

مالیاتی طرف، فیڈرل بورڈ آف ریونیو (ایف بی آر) نے 11.72 ٹریلین روپے کی عارضی وصولیوں کی اطلاع دی، جو ٹیکس انتظامیہ میں اصلاحات اور معاشی رسمیت کی مسلسل رفتار کو ظاہر کرتا ہے۔ حکومت نے جون 2025 میں مالی سال 26 کا وفاقی بجٹ بھی پیش کیا، جس میں ریونیو میں توسیع، اخراجات کے نظم و ضبط، اور IMF کے معیارات کے ساتھ صف بندی پر زور دیا گیا تھا۔ جو اگلے توسیعی فنڈ سہولت (EFF) پروگرام کی بنیاد رکھتا ہے۔

وقفے وقفے سے عالمی اتار چڑھاؤ کے باوجود—خاص طور پر ایران—اسرائیل تنازعہ اور امریکی سیاسی پیش رفت کے تحت نئے ٹریف کی غیر یقینی صورتحال سے پیدا ہونے والے—عالمی اجناس اور تیل کی قیمتیں غیر مستحکم رہیں لیکن عام طور پر نیچے کی طرف چلی گئیں۔ اس بیرونی نرمی نے پاکستان کی افراط زر پر قابو پانے اور کرنٹ اکاؤنٹ خسارے کو کم کرنے میں معاون کردار ادا کیا۔ سیاسی تسلسل اور بہتر طرز حکمرانی کے ساتھ مل کر، ان رجحانات نے ایک زیادہ مستحکم معاشی ماحول میں حصہ ڈالا، جس سے ایکویٹی اور فکسڈ انکم مارکیٹس میں مارکیٹ کے جذبات کو مضبوط بنانے میں مدد ملی اور ساتھ ہی ساتھ زیادہ سازگار کاروباری ماحول کو بھی سپورٹ کیا۔

خلاصہ طور پر، مالی سال 25 ایک اہم موڑ تھا، جس کی خصوصیت میکرو اکنامک استحکام، کرنٹ اکاؤنٹ سرپلسز میں واپسی، افراط زر میں نرمی، اور مالیاتی نرمی کا آغاز تھا۔ اس سال رکھی گئی بنیاد درمیانی مدت کی نمو کے لیے ایک معاون پلیٹ فارم فراہم کرتی ہے، مستقل اصلاحات کے نفاذ اور مسلسل عالمی مالیاتی معاونت پر مشتمل ہے۔

### اسلامی منی مارکیٹ کا جائزہ

FY2025 پاکستان کے مالیاتی ماحول کے لیے ایک اہم موڑ کی حیثیت رکھتا ہے، جو کہ تیزی سے کمی، مالیاتی نرمی، اور بہتر میکرو اکنامک انڈیکسز کے ذریعے کار فرما ہے۔ کنزیومر پرائس انڈیکس (CPI) کی اوسطاً 4.61 فیصد YoY، جو کہ FY2024 میں 23.9 فیصد سے نمایاں طور پر کم ہے، بنیادی طور پر سازگار بنیادی اثرات، کموڈٹی کی عالمی قیمتوں میں کمی، اور گھریلو خوراک اور توانائی کی سپلائی میں بہتری کی وجہ سے۔ سال کے ابتدائی حصے کے دوران افراط زر میں اہم کردار ادا کرنے والے خوراک، ٹرانسپورٹ اور رہائش کے شعبے تھے۔ تاہم، دوسرے ہاف میں دباؤ میں تیزی سے کمی آئی۔

اسٹیٹ بینک آف پاکستان (SBP) نے زیادہ تر مالی سال کے لیے سخت مانیٹری موقف برقرار رکھا، 2024 کے آخر تک پالیسی ریٹ 22 فیصد پر برقرار رکھا۔ جیسے ہی افراط زر میں کمی آئی اور حقیقی شرح سود مثبت ہو گئی، SBP نے اپنا نرمی کا دور شروع کیا اور پالیسی ریٹ جو کہ سال

## مینجمنٹ کمپنی کے ڈائریکٹرز کی رپورٹ

اے بی ایل اسلامیک انکم فنڈ (اے بی ایل - IIF) کی انتظامیہ کمپنی، اے بی ایل ایسٹ مینجمنٹ کمپنی لمیٹڈ کے بورڈ آف ڈائریکٹرز 30 جون، 2025 کو ختم ہونے والے سال کے لئے اے بی ایل اسلامیک انکم فنڈ کے آڈٹ شدہ فنانشل اسٹیٹمنٹ پیش کرنے پر خوشی محسوس کرتے ہیں۔

### اقتصادی کارکردگی کا جائزہ

مالی سال 2025 نے پاکستان کی میکرو اکنامک رفتار میں ایک فیصلہ کن موڑ کا نشان لگایا، جس کی بنیاد پالیسی میں استحکام، آئی ایم ایف کے اسٹیٹڈ بائی انتظامات کی کامیاب تکمیل، اور ساختی اصلاحات پر مسلسل توجہ دی گئی۔ یہ سال گرتی ہوئی افراط زر، مالیاتی نرمی کی طرف تبدیلی، اور بیرونی کھاتوں کے استحکام میں قابل ذکر بہتری کے ساتھ نمایاں تھا۔ یہ سب کچھ سیاسی جذبات کو بہتر بنانے کے پس منظر میں تھا اور اس میں اشیاء کی عالمی قیمتیں شامل تھیں۔

مالی سال 25 میں پاکستان کی حقیقی جی ڈی پی میں 2.68 فیصد اضافہ ہوا، مالی سال 24 میں ریکارڈ کی گئی (عارضی) 2.51 فیصد نمو سے قدرے زیادہ، ایک معمولی لیکن وسیع البنیاد اقتصادی بحالی کا اشارہ ہے۔ سیکٹر کے لحاظ سے کارکردگی نے ملے جلے رجحانات دکھائے: زرعی شعبہ، مالی سال 24 میں 6.4 فیصد کی غیر معمولی نمو کے بعد، بنیادی اثرات اور موسمی چیلنجوں کی وجہ سے مالی سال 25 میں 0.56 فیصد تک اعتماد پر آ گیا۔ صنعتی شعبے نے مضبوطی سے ترقی کی، مالی سال 25 میں 4.77 فیصد نمو ریکارڈ کی جو پچھلے سال میں 1.37 فیصد کی کمی تھی، جو توانائی کی بہتر دستیابی اور پالیسی سپورٹ کی عکاسی کرتی ہے۔ خدمات کے شعبے نے بھی رفتار حاصل کی، مالیاتی خدمات، تجارت اور عوامی انتظامیہ کے تعاون سے مالی سال 24 میں 2.19 فیصد کے مقابلے میں مالی سال 25 میں 2.91 فیصد اضافہ ہوا۔

مہنگائی کا دباؤ، جبکہ سال کے آغاز میں بلند ہوا، وقت کے ساتھ تیزی سے کم ہوا اور اس سال نیچے کی طرف رہا، کنزیومر پرائس انڈیکس (سی پی آئی) مالی سال 25 میں اوسطاً 4.61 فیصد رہا جبکہ مالی سال 24 میں یہ 23.9 فیصد تھا۔ پالیسی ریٹ جو کہ مالی سال کے آغاز میں 20.5 فیصد پر تھا، آہستہ آہستہ جولائی تک 19.5 فیصد، اکتوبر تک 17.5 فیصد اور دسمبر تک 13.0 فیصد تک لایا گیا۔ مسلسل کمی اور بہتر بیرونی استحکام کے ساتھ، مرکزی بینک نے مارچ تک شرح کو مزید کم کر کے 12.0 فیصد کر دیا اور آخر کار مئی 2025 تک 11.0 فیصد کر دیا، مالی سال کے آخر تک اسے اسی سطح پر برقرار رکھا۔ یہ مجموعی 950bps نرمی میکرو اکنامک استحکام میں بڑھتے ہوئے اعتماد کی عکاسی کرتی ہے اور گزشتہ سخت پالیسی کے موقف سے فیصلہ کن تبدیلی کی نشاندہی کرتی ہے۔

بیرونی کھاتوں کی کارکردگی خاصی مضبوط رہی، کرنٹ اکاؤنٹ نے مالی سال 25 میں 2.1 بلین امریکی ڈالر کا مجموعی سرپلس پوسٹ کیا جو پچھلے سال کی اسی مدت میں 2.07 بلین امریکی ڈالر کا خسارہ تھا۔ اس بہتری کو زبردست ترسیلات زر کی وجہ سے مدد ملی، جو مالی سال 25 میں بڑھ کر 38.3 بلین امریکی ڈالر تک پہنچ گئی، جو کہ مالی سال 24 میں 30.25 بلین امریکی ڈالر تھی۔ PKR انٹرنیشنل اور اوپن مارکیٹ دونوں میں کافی
