REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of ABL Asset Management Company Limited, the management company of ABL Income Fund (ABL-IF), is pleased to present the Audited Financial Statements of ABL Income Fund for the year ended June 30, 2018.

ECONOMIC PERFORMANCE REVIEW

The major theme for Pakistan's macro-economy in FY18 was proliferating twin deficits leading to quickly-depleting reserves. The government took monetary tightening measures in 2HFY18; however, external account deficits continued to widen, while inflationary pressures mounted towards the end of FY18, all indicators of an over-heating economy. Although missing its ambitious target of 6.0%, GDP growth clocked in at 5.8% in FY18, crossing the 13-year high-watermark with all three constituents on an upward trajectory (services/industrial/ agriculture up 6.4%/5.8%/3.8%YoY). Key catalysts for growth included the ongoing implementation of early harvest infrastructure projects under the ambit of CPEC, net energy supply growth (net generated units up 8.4%YoY for 11MFY18), and sustained credit uptick (11MFY18 private sector credit stock grew 18%YoY, adding PKR 780bn offtake during the period). However, the fiscal deficit as percentage of GDP is expected to clock in at 6.8% of GDP (revised upward from 5.5% of GDP estimate given in May 2018).

GDP growth

The Current Account Deficit (CAD) increased 45%YoY to USD 18bn during FY18. A favorable impact of a strong recovery of exports (up 13.2%YoY in FY18) and 3%YoY higher worker's remittances was more than offset by growing imports (up 15.1%YoY in FY18). The SBP devalued PKR by 15.9% against greenback during FY18 in three rounds, beginning in December 2017 to control the increasing imports, without much avail. Besides the drain from the external account, debt repayments during the period added to the steep slide in foreign exchange reserves. As a result, FY18 saw Pakistan going back to the international capital market, raising USD 1.5bn of 10-year Eurobond at 6.875% and USD 1.0bn 5-year Sukuk at 5.625%.

Despite strong growth, headline inflation has remained well below the government's target of 6.0% YoY for FY18, averaging at 3.9% YoY in FY18 (vs. 4.2% YoY in FY17). However, reversal in international oil prices (Arab light up 24.5% during the fiscal year) and an expensive greenback during 2HFY18 led to buildup of inflationary pressures with CPI reaching 5.2% YoY in June 2018 (Core inflation NFNE at 7.1% YoY vs. 5.5% YoY last year). Subsequently, the SBP raised the policy rate by 75bps in 2HFY18, beginning by 25bps rate hike to 6.00% in January 2018. In March 2018 MPS, however, SBP did not raise the policy rates again, where it reasoned that the effects of the recent PKR depreciation and rebound in exports needed to be gauged before any further rate hikes. However, with core inflation rising to 7.0% in April 2018, SBP raised policy rate by 50bps to 6.50% in May 2018 MPS.

Fiscal deficit for 9MFY18 clocked in at PKR 1,481bn (~4.3% of GDP), reflecting an increase of 20% YoY remaining largely a function of expenditures outpacing revenue collection growth for the period. Growth in development expenditure remained healthy (37% YoY in 9MFY18 beating the 13% YoY growth in current expenditure) supporting the ongoing growth momentum in the economy.

MUTUAL FUND INDUSTRY REVIEW

Total Assets under management (AUMs) of Pakistan's open-end mutual fund industry posted a slight decline of 2.8% in FY18 from PKR 680bn to PKR 661bn. This decline was predominantly led by the Islamic Equity and Income funds categories which declined by 20% and 16%, respectively. On the other hand, the industry witnessed increasing investor interest in the money market funds, as AUMs under the money market funds increased by 77% in FY18 due to the prevailing rising interest rate environment.

On a cumulative basis, the Equity category (comprising of Equity and Islamic Equity funds) registered a decrease of 16.1% YoY to close at PKR 242bn in June 2018 compared to PKR 288bn in June 2017. Weak stock market performance in FY18, due to worsening macro-economic indicator and political uncertainty, allowed the Equity Funds to post a decline of 12.4% YoY to close at PKR 137bn. Similarly, Islamic equity funds posted a steep decline of 20.4% YoY to reach at PKR 104bn.

MONEY MARKET REVIEW

During the year, the Fixed Income market remained uncertain due to expected changes in policy rate. The market overall maintained a shorter duration and avoided heavy participation in longer duration instruments. To cater the increasing inflation, SBP increased the policy rate twice in FY18 (75bps increase in total). The policy rate increased from 5.75% to 6% in January 2018 and further to 6.5% in May 2018 (as opposed to a constant rate of 5.75% during FY17).

Inflation clocked in at ~3.9% YoY for FY18 as compared to ~4.2% YoY in FY17. This was as a result of higher food items and fuel prices. While the headline inflation remained in check during the year, pressure on the external side continued to disrupt the position of PKR in the international market, raising concerns regarding spike in inflation during the next fiscal year. Moreover, the core inflation continued to rise during 2HFY18 with June 2018 figure clocking in at 7.1% YoY. Pakistan investment bond (PIBs) trading yields went up ranging from 86bps to 170bps, with a significant tilt towards shorter tenor instruments. Money market mostly remained liquid and traded near the policy rate throughout the year as SBP ensured the availability of liquidity via frequent open market operations (OMOs). OMO maturity size swelled to a level of PKR 1,460bn in June 2018 as market increased their exposure in government securities to exploit arbitrage against the policy rate. In anticipation of an interest rate hike, interest remained heavily tilted towards short term exposure. During the year, participation in PIBs was recorded at PKR 564bn whereas the treasury bills (T-Bills) segment witnessed massive participation of PKR 19,232bn. However, the government accepted bids of PIBs worth only PKR 120bn against a total auction target of PKR 1,000bn and of T-Bills worth PKR 15,969bn versus a target of PKR 16,375bn. On the maturities front, PIBs and T-Bills worth of PKR 819bn and PKR 15,970bn, respectively matured during the year

On the Islamic side, money market remained fairly liquid where placements were made 25-50bps below 6-months T-Bill due to massive deposit growth of 22.5% YoY (deposits as on March 30, 2018). The market share of Islamic Banking Institutions' deposits in overall banking deposits stood at 14.6% by the end of March 2018 in comparison to 13.7% in June 2017. Similarly, total assets of Islamic Banking in overall banking size also increased to 13.5% by March 2018 as compared to 11.6% in June 2017. No fresh issuance of Ijara Sukuks in local as well as international market took place by the government. On the corporate side, PKR 19,530bn worth of Sukuks were issued by Dawood Hercules Corporation Ltd., International Brands Ltd., Dubai Islamic Bank Pakistan Ltd. and Aspin Pharma (Pvt) Ltd during the FY18.

M2 growth for FY18 clocked-in at 10.6% compared to 13.7% in SPLY. Decrease in money supply was mainly attributable to increase of 17% (up by PKR2,336 bn) in Net Domestic Assets (NDA) as credit to private sector remained subdued in FY18. We also attribute this decrease to increase in government borrowings by 16.6% YoY (PKR 1,495bn) to fund the fiscal deficit. Net Foreign Assets (NFA) posted a significant decline of 132% YoY in FY18 in comparison to 40% YoY decline in SPLY due to extensive external debt servicing. Government borrowing from commercial banks had decreased by PKR 77bn in FY18 as compared to an increase of PKR 179bn in SPLY. Government borrowings from SBP increased by PKR 1,439bn compared to an increase of PKR 908bn in SPLY.

FUND PERFORMANCE

During the year FY'18, ABL Income Fund witnessed a steep decline in Fund Size as the Fund's Net Assets at the end of Jun'18 declined to PKR 2.810 billion as compared to PKR 3.875 billion as on June 30, 2017. The AUMs for Income Fund were reduced due to market trend of investors shifting from longer duration funds to shorter duration funds. The portfolio's allocation however remained heavy in high quality floating rate instruments, such as TFCs and Sukuks in order to keep the portfolio duration low.

During the period, ABL IF posted an annualized return of 4.67% against its benchmark return of 6.35%, the fund underperformed the benchmark by 168 bps. The underperformance can be attributed towards a high total expense ratio (TER) of the fund and adverse movement in market prices of debt instruments. The return however was supported by investment in TDRs and DPAs at exceptional profit rates along with timely exposure in Spread Transactions. We, in general, maintained a moderate to low portfolio duration with floating rate notes repricing quarterly and semi-annually. As a result, investment in cash deposits stood at 67.65% whereas exposure in TFCs stood at 30.11% of the fund. Changes in TFC portfolio included fresh exposure in DHCL Sukuk I. At year end, WAM of the portfolio was closed to 592 days down from 630 days at the end of FY'17.

The Scheme has maintained the provision against Workers' Welfare Fund's Liability to the tune of Rs. 4.182 million, had the same not been made, the NAV per unit of the scheme would have been higher by Rs. 0.0156 per unit.

M/s. A.F. Fergusons & Co. (Chartered Accountants), have been re-appointed as auditors for the year ending June 30, 2019 for ABL Income Fund (ABL-IF).

FUND STABILITY RATING

JCR-VIS Credit Rating Company Ltd. (JCR-VIS) on January 16, 2018, has reaffirmed the Fund Stability Rating of ABL Income Fund at 'A(f)' (Single A (f)).

MANAGEMENT QUALITY RATING

On December 29, 2017, JCR-VIS Credit Rating Company Limited (JCR-VIS) has upgraded the Management Quality Rating of ABL Asset Management Company Limited (ABL AMC) to 'AM2++' (AM-Two-Double Plus) from 'AM2+' (AM Two Plus). Outlook on the assigned rating is 'Stable'.

OUTLOOK

Both political uncertainty and economic headwinds are expected to carry on into FY19. While on economic side, external vulnerabilities would continue due to high oil prices. As a result, Pak Rupee will most likely continue losing its strength, inflation will gather further traction, and corrective monetary tightening should carry on. With around USD25bn gross financing requirement, Pakistan is expected begin talks with IMF soon. This could result in cut in development spending, de-subsidization of tariffs and reduction in subsidies

Looking at the aforementioned, stock market is expected to remain volatile. With interest rates expected to reach the double digit mark, valuations have started losing their charm. A defensive investment strategy suits prevailing economic environment. Focus on players that have USD linked returns and/or are steeply undervalued i.e E&Ps, Power, Steels, Banks and selected cements. Major derating is possible if hung parliament is formed in the 2018 election.

ACKNOWLEDGEMENT

We thank our valued investors who have placed their confidence in us. The Board is also thankful to Securities & Exchange Commission of Pakistan, the Trustee (Central Depository Company of Pakistan Limited) and the management of Pakistan Stock Exchange Limited for their continued guidance and support. The Directors also appreciate the efforts put in by the management team.

FUND MANAGER REPORT

OBJECTIVE

The objective of ABL Income Fund is to earn superior risk adjusted rate of return by investing in a blend of short, medium and long term debt instruments, both within and outside Pakistan.

FIXED INCOME MARKET REVIEW

During the year, the Fixed Income market remained uncertain due to expected changes in policy rate. The market overall maintained a shorter duration and avoided heavy participation in longer duration instruments. To cater the increasing inflation, SBP increased the policy rate twice in FY18 (75bps increase in total). The policy rate increased from 5.75% to 6% in January 2018 and further to 6.5% in May 2018 (as opposed to a constant rate of 5.75% during FY17).

Inflation clocked in at ~3.9%YoY for FY18 as compared to ~4.2%YoY in FY17. This was as a result of higher food items and fuel prices. While the headline inflation remained in check during the year, pressure on the external side continued to disrupt the position of PKR in the international market, raising concerns regarding spike in inflation during the next fiscal year. Moreover, the core inflation continued to rise during 2HFY18 with June 2018 figure clocking in at 7.1%YoY. Pakistan investment bond (PIBs) trading yields went up ranging from 86bps to 170bps, with a significant tilt towards shorter tenor instruments. Money market mostly remained liquid and traded near the policy rate throughout the year as SBP ensured the availability of liquidity via frequent open market operations (OMOs). OMO maturity size swelled to a level of PKR 1,460bn in June 2018 as market increased their exposure in government securities to exploit arbitrage against the policy rate. In anticipation of an interest rate hike, interest remained heavily tilted towards short term exposure. During the year, participation in PIBs was recorded at PKR 564bn whereas the treasury bills (T-Bills) segment witnessed massive participation of PKR 19,232bn. However, the government accepted bids of PIBs worth only PKR 120bn against a total auction target of PKR 1,000bn and of T-Bills worth PKR 15,969bn versus a target of PKR 16,375bn. On the maturities front, PIBs and T-Bills worth of PKR 819bn and PKR 15,970bn, respectively matured during the year

On the Islamic side, money market remained fairly liquid where placements were made 25-50bps below 6-months T-Bill due to massive deposit growth of 22.5%YoY (deposits as on March 30, 2018). The market share of Islamic Banking Institutions' deposits in overall banking deposits stood at 14.6% by the end of March 2018 in comparison to 13.7% in June 2017. Similarly, total assets of Islamic Banking in overall banking size also increased to 13.5% by March 2018 as compared to 11.6% in June 2017. No fresh issuance of Ijara Sukuks in local as well as international market took place by the government. On the corporate side, PKR 19,530bn worth of Sukuks were issued by Dawood Hercules Corporation Ltd., International Brands Ltd., Dubai Islamic Bank Pakistan Ltd. and Aspin Pharma (Pvt) Ltd during the FY18.

M2 growth for FY18 clocked-in at 10.6% compared to 13.7% in SPLY. Decrease in money supply was mainly attributable to increase of 17% (up by PKR2,336 bn) in Net Domestic Assets (NDA) as credit to private sector remained subdued in FY18. We also attribute this decrease to increase in government borrowings by 16.6%YoY (PKR 1,495bn) to fund the fiscal deficit. Net Foreign Assets (NFA) posted a significant decline of 132%YoY in FY18 in comparison to 40%YoY decline in SPLY due to extensive external debt servicing. Government borrowing from commercial banks had decreased by PKR 77bn in FY18 as compared to an increase of PKR 179bn in SPLY. Government borrowings from SBP increased by PKR 1,439bn compared to an increase of PKR 908bn in SPLY.

FUND PERFORMANCE

During the year FY'18, ABL Income Fund witnessed a steep decline in Fund Size as the Fund's Net Assets at the end of Jun'18 declined to PKR 2.810 billion as compared to PKR 3.875 billion as on June 30, 2017. The AUMs for Income Fund were reduced due to market trend of investors shifting from longer duration funds to shorter duration funds. The portfolio's allocation however remained heavy in high quality floating rate instruments, such as TFCs and Sukuks in order to keep the portfolio duration low.

During the period, ABL IF posted an annualized return of 4.67% against its benchmark return of 6.35%, the fund underperformed the benchmark by 168 bps. The underperformance can be attributed towards a high total expense ratio (TER) of the fund and adverse movement in market prices of debt instruments. The return however was supported by investment in TDRs and DPAs at exceptional profit rates along with timely exposure in Spread Transactions. We, in general, maintained a moderate to low portfolio duration with floating rate notes repricing quarterly and semi-annually. As a result, investment in cash deposits stood at 67.65% whereas exposure in TFCs stood at 30.11% of the fund. Changes in TFC portfolio included fresh exposure in DHCL Sukuk I. At year end, WAM of the portfolio was closed to 592 days down from 630 days at the end of FY'17.

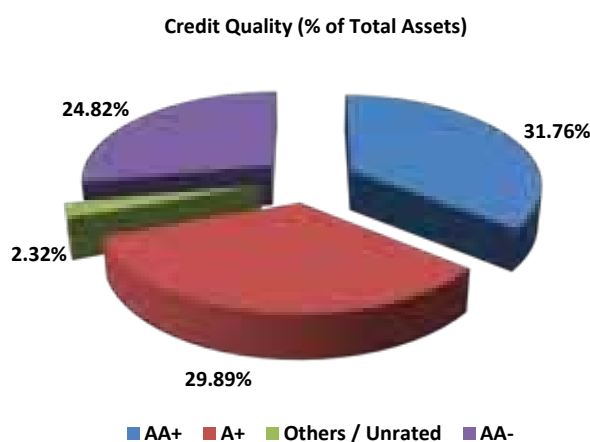

The Scheme has maintained the provision against Workers' Welfare Fund's Liability to the tune of Rs. 4.182 million, had the same not been made, the NAV per unit of the scheme would have been higher by Rs. 0.0156 per unit.

OUTLOOK AND STRATEGY

While Economic growth remained on track throughout the year, risks related to CPI and Balance of Payments position worsened significantly as compared to last year leading to rupee depreciation and around 75 bps increase in policy rate. On the external side, trend of widening trade deficit and current account deficit and declining remittances continued throughout the year on account of increase in international oil prices and ever increasing exports.

Based on the above assumptions, we believe that SBP will continue to increase policy rate in FY19 Hence; we will maintain a low duration portfolio while optimizing the accrual base via placement of funds in floating rate instruments along with deposit placements with bank and DFIs.

	<p>income for the year) and 'Statement of Movement in Unit Holders' Fund'.</p> <p>The Fund has changed its accounting policy during the current year in respect of accounting for "element of income" consequent to the issuance of the above mentioned notification. The change in accounting policy has been applied prospectively from July 1, 2017 based on the clarification issued by the SECP. With this change in accounting policy the element of income which was previously recognized as part of the income for the year in the Income Statement is now considered as a "capital contribution" and taken to the Statement of Movement in Unit Holders' Fund. Element of income is explained in note 3.10.</p> <p>The SECP notification also stipulates that the accounting income available for distribution as appearing in the "Income Statement" excludes income already paid on units redeemed during the year. Accordingly, the net amount appearing on the "Income Statement" after deducting the income already paid on units redeemed is to be considered as the distributable amount.</p> <p>In order to avail tax exemption, the Fund has to distribute 90 percent of its accounting income (excluding realised and unrealised capital gains). However, at the time of distribution of income, the element of income contributed on issue of units recognized in the equity during the year is required to be refunded on the units in the same proportion in which income is distributed from the Income Statement i.e. after taking into account the amount of income already paid on units redeemed. Management has developed a system for carrying out the calculations for such distributions.</p> <p>These calculations are important from the point of view of ensuring compliance with the applicable requirements. The above matters are significant accounting and regulatory developments / events for the mutual fund industry affecting the financial statements for the current year and therefore we considered these developments as key audit matter.</p>	<ul style="list-style-type: none"> ▪ verified transactions on a test basis with the underlying records of the reports provided by the management to assess their compliance with the revised regulations. ▪ recalculated the profit available for distribution taking into account amount already distributed at the time of redemption. ▪ verified the accuracy of the management report for allocation of distributable amount between "distribution out of income" and "refund of capital". This included testing the parameters of the report. ▪ verified disclosures relating to change in accounting policy to ensure that these are in compliance with the applicable accounting and reporting framework.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors of the Management Company for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Board of directors of the management company is responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material

AF Co

misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with board of directors of the management company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide board of directors of the management company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with board of directors of the management company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion the financial statements have been prepared in all material respects in accordance with the relevant provisions of the Non-Banking Finance Companies and Notified Entities Regulations, 2008.

The engagement partner on the audit resulting in this independent auditor's report is **Noman Abbas Sheikh**.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Provisions of and directives issued under the Companies Act, 2017 along with part VIII A of the repealed Companies Ordinance, 1984; and

2.2 Standards, interpretations and amendments to published accounting and reporting standards that are effective in the current year

There are certain amended standards and interpretations that are mandatory for the Fund's accounting period beginning on or after July 1, 2017 but are considered not to be relevant or do not have any significant effect on the Fund's operations and are, therefore, not disclosed in these financial statements.

2.3 Standards, interpretations and amendments to published accounting and reporting standards that are not yet effective

The following standards have been adopted in Pakistan and would be effective from the dates mentioned below against the respective standards:

Standard	Effective date (accounting periods beginning on or after)
- IFRS 9 - Financial Instruments	July 01, 2018
- IFRS 15 - Revenue from Contracts with Customers	July 01, 2018
- IFRS 16 - Leases	January 01, 2019

These standards may impact the financial statements of the Fund on adoption. The Management is currently in the process of assessing the full impact of these standards on the financial statements of the Fund.

2.4 Critical accounting estimates and judgments

The preparation of financial statements in conformity with the accounting and reporting standards requires the management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates, judgments and associated assumptions are based on historical experience and various other factors including expectations of future events that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of assets and liabilities. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

The estimates and judgments that have a significant effect on the financial statements of the Fund relate to classification, valuation and impairment of financial assets (notes 3.3 and 5) and provision for taxation (notes 3.13 and 16).

2.5 Accounting convention

These financial statements have been prepared under the historical cost convention except that investments have been carried at fair values.

2.6 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Fund operates. These financial statements are presented in Pakistan Rupee, which is the Fund's functional and presentation currency.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been applied consistently to all the years presented except for the change in accounting policy as explained in note 3.10 below.

3.2 Cash and cash equivalents

These comprise balances with banks in savings and current accounts, cheques in hand and other short-term highly liquid investments with original maturities of three months or less.

3.3 Financial assets

3.3.1 Classification

The management determines the appropriate classification of the financial assets of the Fund in accordance with the requirements of International Accounting Standard (IAS) 39: 'Financial Instruments: Recognition and Measurement' at the time of the purchase of the financial assets and re-evaluates this classification on a regular basis. The classification depends on the purpose for which the financial assets are acquired. The financial assets of the Fund are categorised as follows:

a) Financial assets at fair value through profit or loss

These are acquired principally for the purpose of generating profits from short-term fluctuations in prices.

b) Available-for-sale

These are those non-derivative financial assets that are designated as available for sale or are not classified as (a) 'financial assets at fair value through profit or loss', or (b) loans and receivables. These are intended to be held for an indefinite period of time which may be sold in response to the needs for liquidity or change in price.

c) Loans and receivables

These are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

3.3.2 Regular way contracts

All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date on which the Fund commits to purchase or sell the asset. Regular way purchases / sales of assets require delivery of securities within two days from the transaction date as per the stock exchange regulations.

3.3.3 Initial recognition and measurement

Financial assets are recognised at the time the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair value plus transaction costs except for financial assets carried 'at fair value through profit or loss'. Financial assets carried 'at fair value through profit or loss' are initially recognised at fair value and transaction costs are recognised in the Income Statement.

3.3.4 Subsequent measurement

Subsequent to initial recognition, financial assets are valued as follows:

a) 'Financial assets at fair value through profit or loss' and 'available-for-sale financial assets'

Basis of valuation of debt securities

The investments of the Fund in debt securities are valued on the basis of rates determined by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the SECP for valuation of debt securities. In the determination of the rates MUFAP takes into account the holding pattern of these securities and categorises them as traded, thinly traded and non-traded securities.

Basis of valuation of government securities

The investments of the Fund in government securities are valued on the basis of rates announced by the Financial Markets Association of Pakistan.

Basis of valuation of equity securities

The investments of the Fund in equity securities are valued on the basis of closing quoted market prices available at the stock exchange. A security listed on the stock exchange is valued at the closing price determined by such exchange in accordance with its regulations.

Net gains and losses arising from changes in the fair value of financial assets carried 'at fair value through profit or loss' are taken to the Income Statement.

Net gains and losses arising from changes in the fair value of financial assets classified as 'available for sale' are taken to statement of comprehensive income until these are derecognised or impaired. At this time, the cumulative gain or loss previously recognised in the statement of comprehensive income is transferred to the Income Statement.

b) Loans and receivables

These are carried at amortised cost using the effective interest method.

Gains or losses are recognised in the Income Statement through the amortisation process or when the financial assets carried at amortised cost are derecognised or impaired.

3.3.5 Impairment

The Fund assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. If such an indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds the recoverable amount.

a) Available-for-sale financial assets

Impairment loss on debt securities

Provision for non-performing debt securities is made on the basis of time-based criteria as prescribed by the SECP and based on management's assessment made in line with its provisioning policy approved by the Board of Directors of the Management Company in accordance with the guidelines issued by the SECP. Impairment losses recognised on debt securities can be reversed through the Income Statement.

As allowed by the SECP, the Management Company may make provision against debt securities over and above the minimum provision requirement prescribed by the SECP, in accordance with the provisioning policy duly approved by the Board of Directors.

Impairment loss on equity securities

A significant or prolonged decline in the fair value of equity securities below their cost is considered as an objective evidence of impairment. In case of impairment of available for sale securities, the cumulative loss previously recognised in other comprehensive income is removed therefrom and included in the Income Statement. Impairment losses recognised in the income statement on equity securities are only reversed when the equity securities are derecognised.

b) Loans and receivables

For financial assets classified as 'loans and receivables', a provision for impairment is established when there is an objective evidence that the Fund will not be able to collect all amounts due according to the original terms. The amount of the provision is determined based on the provisioning criteria specified by the SECP.

3.3.6 Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership. Any gain or loss on derecognition of financial assets is taken to the Income Statement.

3.3.7 Derivatives

Derivative instruments are initially recognised at fair value and subsequent to initial measurement each derivative instrument is remeasured to its fair value and the resultant gain or loss is recognised in the Income Statement.

3.4 Financial liabilities

Financial liabilities are recognised at the time when the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair values and subsequently stated at amortised cost.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Any gain or loss on derecognition of financial liabilities is taken to the Income Statement.

3.5 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the 'Statement of Assets and Liabilities' when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

3.6 Provisions

Provisions are recognised when the Fund has a present, legal or constructive, obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

3.7 Net asset value per unit

The Net Asset Value (NAV) per unit as disclosed in the Statement of Assets and Liabilities is calculated by dividing the net assets of the Fund by the number of units in circulation at the year end.

3.8 Issue and redemption of units

Units issued are recorded at the offer price, determined by the Management Company for the application received by the Management Company / distributors during business hours on that day. The offer price represents the Net Asset Value (NAV) per unit as of the close of the business day, plus the allowable sales load and provision of any duties and charges if applicable. The sales load is payable to the Management Company / distributors.

Units redeemed are recorded at the redemption price applicable to units for which the Management Company / distributors receive redemption application during business hours of that day. The redemption price is equal to NAV as of the close of the business day, less an amount as the Management Company may consider to be an appropriate provision of duties and charges.

3.9 Distributions to unit holders

Distributions to the unit holders are recognised upon declaration and approval by the Board of Directors of the Management Company. Based on the Mutual Funds Association of Pakistan's (MUFAP) guidelines duly consented by the SECP, distribution for the year also include portion of income already paid on units redeemed during the year.

Distributions declared subsequent to the year end reporting date are considered as non-adjusting events and are recognised in the financial statements of the period in which such distributions are declared and approved by the Board of Directors of the Management Company.

3.10 Element of income / (loss) and capital gains / (losses) included in prices of units issued less those in units redeemed

The Securities and Exchange Commission of Pakistan through its SRO 756(I)/2017 dated August 3, 2017 has made certain amendments in the NBFC Regulations. The notification includes a definition and explanation relating to "element of income" and excludes the element of income from the expression "accounting income" as described in regulation 63 (amount distributable to unit holders) of the NBFC Regulations. As per the notification, element of income represents the difference between net assets value per unit on the issuance or redemption date, as the case may be, of units and the net assets value per unit at the beginning of the relevant accounting period. Further, the revised regulations also specify that element of income is a transaction of capital nature and the receipt and payment of element of income shall be taken to unit holders' fund. However, to maintain the same ex-dividend net asset value of all units outstanding on the accounting date, net element of income contributed on issue of units lying in unit holders fund will be refunded on units in the same proportion as dividend bears to accounting income available for distribution. MUFAP, in consultation with the SECP, has specified the methodology of determination of income paid on units redeemed during the year under which such income is paid on gross element received and is calculated from the latest date at which the Fund achieved net profitability during the year. Furthermore, the revised regulations also require certain additional disclosures with respect to 'Income Statement' (relating to allocation of net income for the year) and 'Statement of Movement in Unit Holders' Fund', whereas disclosure with respect to 'Distribution Statement' has been deleted in the revised regulations.

Previously, an equalisation account called the 'element of income / (loss) and capital gains / (losses) included in prices of units issued less those in units redeemed' was created, in order to prevent the dilution of per unit income and distribution of income already paid out on redemption. The net element of income / (loss) and capital gains / (losses) relating to units issued and redeemed during the accounting period which pertained to unrealised appreciation / (diminution) held in the Unit Holder's Fund was recorded in a separate account and any amount remaining in this reserve account at the end of the accounting period (whether gain or loss) was included in the amount available for distribution to the unitholders. The remaining portion of the net element of income / (loss) and capital gains / (losses) relating to units issued and redeemed during an accounting period was recognised in the Income Statement.

As required by IAS 8: 'Accounting Policies, Changes in Accounting Estimates and Errors', a change in accounting policy requires retrospective application as if that policy had always been applied. However, the Management Company has applied the above changes in accounting policy, including the additional disclosure requirements in the 'Income Statement' and 'Statement of Movement in Unit Holders' Fund', prospectively from July 1, 2017 based on a clarification issued by the SECP. Accordingly, corresponding figures have not been restated. The 'Distribution Statement' for the comparative period has not been presented as it has been deleted as a result of the amendments made in the NBFC Regulations through the aforementioned SRO issued by the SECP.

Had the element of loss been recognised as per the previous accounting policy, the income of the Fund would have been lower by Rs 42.738 million with no effect on the 'net assets attributable to the unit holders' and NAV per unit of the Fund as disclosed in the 'Statement of Assets and Liabilities' and 'Statement of Movement in Unit Holders' Fund' respectively. However, the change in accounting policy does not have any impact on the 'Cash Flow Statement'. The change has resulted in inclusion of certain additional disclosures / new presentation requirements in the 'Income Statement' and 'Statement of Movement in Unit Holders' Fund which have been incorporated in these statements.

3.11 Revenue recognition

- Gains / (losses) arising on sale of investments are recorded at the date at which the transaction takes place.
- Income from investments in term finance certificates / sukuk and government securities is recognised on an accrual basis using effective interest method.
- Unrealised gains / (losses) arising on re-measurement of investments classified as 'financial assets at fair value through profit or loss' are recorded in the period in which these arise.
- Interest income on bank balances, term deposits and placements is recognised on an accrual basis.
- Dividend income is recognised when the right to receive the dividend is established.

3.12 Expenses

All expenses including management fee and trustee fee are recognised in the Income Statement on an accrual basis.

3.13 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than ninety percent of its accounting income for the year, as reduced by capital gains, whether realised or unrealised, is distributed to the unit holders in cash.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

3.14 Earnings per unit

Earnings per unit is calculated by dividing the net income of the year before taxation of the Fund by the weighted average number of units outstanding during the year.

3.15 Foreign currency translation

Transactions denominated in foreign currencies are accounted for in Pakistan Rupees at the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates for monetary assets and liabilities denominated in foreign currencies are recognised in the Income Statement.

7.1 As per clause 47(B) of part IV of the Second Schedule to the Income Tax Ordinance, 2001, payments made to collective investment schemes (CISs) are exempt from withholding tax under section 151 and 150. However, during the year ended June 30, 2018, withholding tax on profit on bank deposit paid to the Fund was deducted by various withholding agents based on the interpretation issued by FBR vide letter C. no. 1(43) DG (WHT)/2008-VOL.II-66417-R dated 12 May 2015 which requires every withholding agent to withhold income tax at applicable rates in case a valid exemption certificate under section 159(1) issued by the concerned Commissioner of Inland Revenue (CIR) is not produced before him by the withholders. The tax withheld on profit on bank deposits amounts to Rs. 1.052 million.

For this purpose, the Mutual Funds Association of Pakistan (MUFAP) on behalf of various mutual funds (including the Funds being managed by the Management Company) had filed a petition in the Honourable Sindh High Court (SHC) challenging the above mentioned interpretation of the Federal Board of Revenue (FBR) which was decided by the SHC in favour of FBR. On 28 January 2016, the Board of Directors of the Management Company passed a resolution by circulation, authorising all CISs to file an appeal in the Honourable Supreme Court through their Trustees, to direct all persons being withholding agents, including share registrars and banks to observe the provisions of clause 47B of Part IV of the Second Schedule to the Income Tax Ordinance, 2001 without imposing any conditions at the time of making any payment to the CISs being managed by the Management Company. Accordingly, a petition was filed in the Supreme Court of Pakistan by the Funds together with other CISs (managed by the Management Company and other Asset Management Companies) whereby the Supreme Court granted the petitioners leave to appeal from the initial judgement of the SHC. Pending resolution of the matter, the amount of withholding tax deducted on profit received by the Fund on bank deposits has been shown as deposits and other receivables at June 30, 2018 as, in the opinion of the management, the amount of tax deducted at source will be refunded.

Keeping in view the maximum allowable threshold, the Management Company has charged its remuneration at the rate of 1.5% (2017: 1.5%) per annum of the average net assets of the Fund during the year ended 30 June 2018. The remuneration is payable to the Management Company monthly in arrears.

8.2 During the year, an amount of Rs. 8.888 million (2017: Rs 7.312 million) was charged on account of sales tax on management fee levied through Punjab Sales Tax on Services Act, 2011, and an amount of Rs. 9.055 million (2017: Rs. 7.466 million) has been paid to the Management Company which acts as a collecting agent.

Consequent to change in registered office of the Management Company, the Fund had completed its registration process with the Punjab Revenue Authority in July 2017 and, now, the services obtained by the Fund are subject to the Punjab sales tax at a rate specified in the Punjab Sales Tax on Services Act, 2012. During the year Punjab sales tax has been charged at the rate of 16% (June 30, 2017: Sindh Sales tax at the rate of 13%).

8.3 The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from June 13, 2013. The Management Company was of the view that since the remuneration was already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on September 4, 2013 a constitutional petition was filed with the Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

During the year ended June 30, 2017, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company with effect from July 01, 2016. However, as a matter of abundant caution the provision for FED made for the period from June 13, 2013 till June 30, 2016 amounting to Rs 19.142 million is being retained in these financial statements of the Fund as the matter is pending before the Supreme Court of Pakistan. Had the provision for FED not been made, the Net Asset Value of the Fund as at June 30, 2018 would have been higher by Re 0.072 (2017: Re 0.05) per unit.

8.4 In accordance with Regulation 60 of the NBFC Regulations, the Management Company has charged expenses at the rate of 0.1% of the average net assets of the Fund being lower than actual expenses chargeable to the Fund for the year.

8.5 The SECP vide circular 40 of 2016 dated December 30, 2016 (later amended vide circular 05 of 2017 dated February 13, 2017 and circular 5 of 2018 dated June 4, 2018) has allowed the Asset Management Companies to charge selling and marketing expenses to all categories of open-end mutual funds (except for fund of funds and money market funds) initially for three years (from January 1, 2017 till December 31, 2019). The maximum cap of selling and marketing expense shall be 0.4% per annum of net assets of the fund or actual expenses whichever is lower. Accordingly, the Management Company has charged selling and marketing expenses amounting to Rs. 0.780 million at the rate of 0.4% of the net assets of the Fund being lower than actual expenses chargeable to the Fund for the year.

11 ACCRUED EXPENSES AND OTHER LIABILITIES

11.1 As a consequence of the 18th amendment to the Constitution of Pakistan, the Sindh Workers' Welfare Fund Act, 2014 (SWWF Act) had been passed by the Government of Sindh in May 2015 as a result of which every industrial establishment located in the Province of Sindh, the total income of which in any accounting year is not less than Rs 0.50 million, was required to pay Sindh Workers' Welfare Fund (SWWF) in respect of that year a sum equal to two percent of such income. The matter was taken up by the MUFAP with the Sindh Revenue Board (SRB) collectively on behalf of various asset management companies and their CISs whereby it was contested that mutual funds should be excluded from the ambit of the SWWF Act as these were not industrial establishments but were pass

through investment vehicles and did not employ workers. The SRB held that mutual funds were included in the definition of financial institutions as per the Financial Institution (Recovery of Finances) Ordinance, 2001 and were, hence, required to register and pay SWWF under the SWWF Act. Thereafter, MUFAP had taken up the matter with the Sindh Finance Ministry to have CISs / mutual funds excluded from the applicability of SWWF. In view of the above developments regarding the applicability of SWWF on CISs/ mutual funds, the MUFAP recommended that as a matter of abundant caution provision in respect of SWWF should be made on a prudent basis with effect from the date of enactment of the SWWF Act, 2014 (i.e. starting from May 21, 2015).

In the repealed Companies Ordinance, 1984 and the now applicable Companies Act, 2017, mutual funds have not been included in the definition of "financial institutions". The MUFAP has held the view that SWWF is applicable on asset management companies and not on mutual funds.

The registered office of the Management Company of the Fund has been relocated from the Province of Sindh to the Province of Punjab. However, as a matter of abundant caution the provision for SWWF made for the period from May 21, 2015 till June 30, 2017 amounting to Rs 4.183 million (June 30, 2017: Rs 4.755 million) is being retained in these financial statements of the Fund till the final decision in respect of SWWF.

Had the provision for SWWF not been recorded in the financial statements of the Fund for the period from May 21, 2015 to June 30, 2017, the net asset value of the Fund as at June 30, 2018 would have been higher by Re. 0.016 (2017: Re 0.012) per unit.

12 CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments outstanding as at June 30, 2018 and June 30, 2017.

15 TOTAL EXPENSE RATIO

The Total Expense Ratio (TER) of the Fund as at June 30, 2018 is 2.12% (2017: 2.39%) which includes 0.33% (2017: 0.44%) representing government levies on the Fund such as provision for Sindh Workers' Welfare Fund, sales taxes, federal excise duties, annual fee to the SECP, etc. This ratio is within the maximum limit of 2% prescribed under the NBFC Regulations for a collective investment scheme categorised as a income scheme.

16 TAXATION

The income of the Fund is exempt from income tax under clause (99) of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other

than capital gains as reduced by such expenses as are chargeable thereon to the unitholders. Since the management intends to distribute the required minimum percentage of income earned by the Fund for the year ended June 30, 2018 to the unit holders in the manner as explained above no provision for taxation has been made in these financial statements during the year.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

17 EARNINGS PER UNIT

Earnings per unit (EPU) has not been disclosed as, in the opinion of the management, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

21 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund's objective in managing risk is the creation and protection of unit holders' value. Risk is inherent in the Fund's activities, but it is managed through monitoring and controlling activities which are primarily set up to be performed based on limits established by the Management Company, the constitutive documents of the Fund and the regulations and directives of the SECP. These limits reflect the business strategy and market environment of the Fund as well as the level of the risk that the Fund is willing to accept. The Board of Directors of the Management Company supervises the overall risk management approach within the Fund. The Fund is exposed to market risk, liquidity risk and credit risk arising from the financial instruments it holds.

21.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices.

The Management Company manages the market risk through diversification of the investment portfolio and by following the internal guidelines established by the Investment Committee.

Market risk comprises of three types of risks: yield / interest rate risk, currency risk, and price risk.

(i) Yield / interest rate risk

Yield / interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. As of June 30, 2018, the Fund is exposed to such risk on its balances held with banks, investments in term finance and sukuk certificates. The Investment Committee of the Fund reviews the portfolio of the Fund on a regular basis to ensure that the risk is managed within the acceptable limits.

a) Sensitivity analysis for variable rate instruments

Presently, the Fund holds KIBOR based term finance and sukuks certificates and accrued mark-up on balances with banks which expose the Fund to cash flow interest rate risk. In case of 100 basis points increase / decrease in applicable rates on the last repricing date with all other variables held constant, the net income for the year and net assets of the Fund would have been higher/lower by Rs. 8.663 million (2017: Rs. 10.931 million).

b) Sensitivity analysis for fixed rate instruments

As at 30 June 2018, the Fund does not hold any fixed rate instrument that may expose the Fund to fair value interest rate risk.

The composition of the Fund's investment portfolio, KIBOR rates and the rates announced by the Financial Markets Association of Pakistan are expected to change over time. Accordingly, the sensitivity analysis prepared as of June 30, 2018 is not necessarily indicative of the impact on the Fund's net assets of future movements in interest rates.

Yield / interest rate sensitivity position for on-balance sheet financial instruments is based on the earlier of contractual repricing or maturity date.

The Fund's interest rate sensitivity related to financial assets and financial liabilities as at June 30, 2018 can be determined as follows:

As at June 30, 2018

(ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in foreign exchange rates. The Fund does not have any financial instruments in foreign currencies and hence is not exposed to such risk.

(iii) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

Equity price risk is the risk that the fair value of equity instruments decreases as a result of changes in the level of equity indices and the value of individual stocks. The Fund does not have any investment in equity securities as of June 30, 2018.

21.2 Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligation in full as they fall due or can only do so on terms that are materially disadvantageous to the Fund.

The Fund is exposed to daily settlement of equity securities and daily redemptions at the option of unit holders. The Fund's approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions. The Fund's policy is, therefore, to invest the majority of its assets in investments that are traded in an active market and can be readily disposed and are considered readily realisable.

In order to manage the Fund's overall liquidity, the Fund may also withhold daily redemption requests in excess of ten percent of the units in issue and such requests would be treated as redemption requests qualifying for being processed on the next business day. Such procedure would continue until the outstanding redemption requests come down to a level below ten percent of the units then in issue. The Fund did not withhold any redemptions during the year.

The table below summaries the maturity profile of the Fund's financial instruments. The analysis into relevant maturity groupings is based on the remaining period at the end of the reporting period to the contractual maturity dates. However, the assets and liabilities that are receivable / payable on demand including bank balances have been included in the maturity grouping of one month:

22 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at June 30, 2018 and June 30, 2017, the Fund held the following financial instruments measured at fair values:

دُرنگی کے لیے زری پالیسی میں سختی جاری رہے گی۔ 25 ارب ڈالر کے لگ بھگ مجموعی فائنانسنگ کی ضرورت کے پیش نظر، توقع ہے کہ پاکستان جلد آئی ایم ایف کے ساتھ مذاکرات کا آغاز کرے گا۔ اس کے نتیجے میں، ترقیاتی اخراجات میں کٹوتی، ٹیرف پربسبڈی کا خاتمہ اور دیگر سبڈیز میں کمی متوقع ہے۔

اس ساری صورتحال کے پیش نظر، اسٹاک مارکیٹ میں اونچ نیچ کے رجحان کی توقع ہے۔ شرح سود کے دُہرے ہندسوں تک پہنچ جانے کی توقعات کے باعث، اسٹاکس اپنی تخمینہ قیمت میں کشش کھورے ہیں۔ موجودہ معاشی صورتحال میں، سرمایہ کاری کا دفاعی لائحہ عمل اختیار کرنا مناسب ہے۔ ان اسٹاکس پر توجہ مرکوز رکھی جائے جن کا منافع امریکی ڈالر سے منسلک ہے اور ایاتیل کی تلاش و پیداوار (E&P)، بجلی، اسٹیل، پینکس اور سیمنٹ سیکٹر کے منتخب اسٹاکس، شامل ہیں۔ اگر عام انتخابات 2018 میں کوئی ایک جماعت واضح اکثریت حاصل نہ کر پائی تو اسٹاکس کی ریٹنگ میں بڑی کمی ممکن ہے۔

مستقبل کا منظر نامہ

مالی سال 2019 میں، سیاسی بے یقینی اور معاشی مشکلات، دونوں کے جاری رہنے کا خدشہ ہے۔ معاشی محاذ پر، تیل کی بلند قیمتوں کے باعث، بیرونی خطرات درپوش رہیں گے۔ نتیجتاً، پاکستانی روپے کی قدر میں کمی کا رجحان جاری رہے گا، افریڈ زر مزیڈ زور پکڑے گا اور

میں 77 ارب روپے کی ہوئی، جبکہ گزشتہ مالی سال اسی عرصے میں 179 ارب روپے اضافہ ہوا تھا۔ اسٹیٹ بینک آف پاکستان سے حکومتی قرضہ جات میں 1,439 ارب روپے اضافہ ہوا، جبکہ گزشتہ مالی سال اسی عرصے میں 908 ارب روپے اضافہ ہوا تھا۔

فنڈ کی کارکردگی

مالی سال 2018 کے دوران، اے بی ایل اگم فنڈ کے حجم میں بڑی کمی آئی اور جون 2018 کے اختتام پر فنڈ کے خالص اثاثہ جات کم ہو کر 2.810 ارب روپے ہو گئے، جو کہ 30 جون 2017 کو 3.875 ارب روپے تھے۔ اگم فنڈ کے زیر انتظام مجموعی اثاثہ جات میں کمی کی وجہ، سرمایہ کاروں کا بدلتا مارکیٹ رجحان رہا، کیونکہ سرمایہ کار طویل مدتی فنڈز سے نکل کر قلیل مدت کے فنڈز کی طرف چلے گئے۔ تاہم پورٹ فولیو کا بڑا حصہ، فلوئجک شرح کے حامل انشورنس، جیسے ٹرم فنانس سرٹیفکیٹس (TFCS) اور سکوک پر مشتمل رہا، تاکہ پورٹ فولیو کے دوران یہ کم رکھا جاسکے۔

زیر جائزہ عرصہ کے دوران، اے بی ایل اگم فنڈ نے 6.35 فیصد کی بیخ مارک شرح کے مقابلے میں، سالانہ بنیاد پر 4.67 فیصد کا منافع دیا، اور اس طرح بیخ مارک کے مقابلے میں 168 بیس پوائنٹس کم تر کارکردگی کا مظاہرہ کیا۔ توقع سے کم کارکردگی کی وجہ، فنڈ کے زیادہ اخراجات اور قرضہ انشورنس کی مارکیٹ قیمتوں میں منفی رد و بدل کو قرار دیا جاسکتا ہے۔ تاہم یہ منافع ٹرم ڈپازٹ ری سیسٹس (TDRs) اور ڈائنامک پراڈکٹ ایڈ (DPAs) میں غیر معمولی شرح منافع پر سرمایہ کاری کرنے اور اسپریڈ ٹرانزیکشنز کے ذریعے حاصل کیا گیا۔ ہم نے، عمومی طور پر، اپنے پورٹ فولیو کا اوسط اور اس سے کم حصہ فلوئجک شرح پر رکھا اور اس کا سہ ماہی اور شش ماہی بنیادوں پر از سر نو تعین کیا گیا۔ نتیجتاً، فنڈ کی 67.65 فیصد سرمایہ کاری کیش ڈپازٹس، جبکہ 30.11 فیصد سرمایہ کاری ٹرم فنانس سرٹیفکیٹس میں رہی۔ ٹی ایف سی پورٹ فولیو میں جو تبدیلی آئی، اس میں داؤد ہر کیولیس کی میکل لیٹنڈ (DHCL) کے سکوک میں نئی سرمایہ کاری شامل ہے۔ سال کے اختتام پر پورٹ فولیو کی ویٹید ایوریج میچورٹی (WAM) کم ہو کر 592 دن پر آگئی، جو کہ مالی سال 2017 کے اختتام پر 630 دن تھی۔

اسکیم میں ورکرز ویلفیئر فنڈ لیمٹڈ کے مد میں 4.182 ملین روپے کی پروویژن کو برقرار رکھا گیا ہے۔ اگر یہ پروویژن نہ دیکھی جاتی تو اسکیم کی نی یونٹ خالص اثاثہ مالیت (NAV) 0.0156 روپے زیادہ رہتی۔

اضافی معاملات

1. اس سالانہ پورٹ میں منجمنٹ کمیٹی کے ڈائریکٹرز کی تفصیلات درج ہیں۔
2. مالیاتی گوشواروں میں، فنڈ کے معاملات، آپریٹنگ کے نتائج، رقومات کے بہاؤ اور یونٹ ہولڈرز میں تبدیلیوں کو شفاف طور پر پیش کیا گیا ہے۔
3. فنڈ کے حسابات کے لیے کھاتوں کی کتب کو درست طور پر مرتب کیا گیا ہے۔
4. مالیاتی گوشواروں کی تیاری میں ہر جگہ حسابات کی درست پالیسیوں کا اطلاق کیا گیا ہے اور حسابات کے تخمینے مناسب ترین اور قابل فہم فیصلوں کی بنیاد پر لگائے گئے ہیں۔

زیر میں اضافے کا رجحان جاری رہا اور جون 2018 میں سالانہ بنیاد پر اس میں اضافے کی شرح 7.1 فیصد پر پہنچی گئی۔ پاکستان سرمایہ کاری بانڈز (PIBs) پر ایبلڈ (منافع) 86 ہزار پونٹس سے بڑھ کر 170 ہزار پونٹس ہو گئی، اور سرمایہ کاروں کی زیادہ دلچسپی قلیل مدتی انٹرنیشنل میں دیکھی گئی۔ منی مارکیٹ زیادہ تر سیال رہی اور پورا سال پالیسی ریٹ کے قریب قریب ہی کاروبار ہوتا رہا، کیونکہ اسٹیٹ بینک آف پاکستان نے وقفہ وقفہ سے اوپن مارکیٹ آپریشنز (OMOs) کے ذریعے سیالیت کی دستیابی کو یقینی بنایا۔ جون 2018 میں، مچھور ہونے والے اوپن مارکیٹ آپریشنز کا حجم بڑھ کر 1,460 ارب روپے ہو گیا، کیونکہ بڑھتی شرح سود کے پیش نظر بہتر منافع کے لیے مارکیٹ نے سرکاری سکورٹیز میں اپنی سرمایہ کاری کو بڑھا دیا۔ شرح سود میں اضافے کی توقعات پر، زیادہ سرمایہ کاری قلیل مدتی کی گئی۔ سال کے دوران، پاکستان سرمایہ کاری بانڈز میں 564 ارب روپے کی سرمایہ کاری کی گئی، جبکہ ٹریژری بلز (T-Bills) میں 19,232 ارب روپے مالیت کی بھاری شرکت دیکھی گئی۔ البتہ، حکومت نے 1,000 ارب روپے کے مجموعی نیلامی کے ہدف کے مقابلے میں، پاکستان سرمایہ کاری بانڈز میں 120 ارب روپے مالیت کی سرمایہ کاری کی پیش کش قبول کیں اور ٹی بلز کے لیے 16,375 ارب روپے کے مجموعی نیلامی کے ہدف کے مقابلے میں 15,969 ارب کی پیش کش قبول کیں۔ جہاں تک مچھورٹیز کا تعلق ہے، سال کے دوران، پاکستان سرمایہ کاری بانڈز اور ٹی بلز میں مجموعی طور پر ہاتھ تھیب 819 ارب روپے اور 15,970 ارب روپے کی مچھورٹیز ہوئیں۔

جہاں تک اسلامک کا تعلق ہے، منی مارکیٹ مناسب طور پر سیال رہی، اور کھاتوں میں 22.5 فیصد کی زبردست نمو کے باعث (کھاتے برطانیہ 30 مارچ 2018) چھ ماہ کے ٹریڈری بل سے 50۲25 ہزار پونٹس کم پر سرمایہ کاری کی گئی۔ مارکیٹ میں مجموعی بینک کھاتوں میں اسلامی بینکاری کے اداروں کے کھاتوں کا حصہ مارچ 2018 کے اختتام تک بڑھ کر 14.6 فیصد ہو گیا، جبکہ جون 2017 میں یہ 13.7 فیصد تھا۔ اسی طرح، مجموعی بینکاری حجم میں اسلامی بینکوں کے کل اثاثہ جات جون 2017 میں 11.6 فیصد کے مقابلے میں مارچ 2018 میں بڑھ کر 13.5 فیصد ہو گئے۔ حکومت کی طرف سے ناہی مقامی اور ناہی بین الاقوامی مارکیٹ میں نئے اجارہ سکوک جاری کیے گئے۔ کارپوریٹ سکٹور کی بات کریں تو واڈو ہر کیولس کارپوریشن لمیٹڈ، انٹرنیشنل براڈز لمیٹڈ، یعنی اسلامک بینک پاکستان لمیٹڈ اور ایسین فارما (پرائیویٹ) لمیٹڈ کی جانب سے مالی سال 2018 کے دوران 19,530 ارب روپے مالیت کے سکوک جاری کیے گئے۔

مالی سال 2018 میں M2 میں نمو کی شرح 10.6 فیصد رہی، جبکہ گزشتہ مالی سال کے اسی عرصے میں 13.7 فیصد اضافہ ہوا تھا۔ پیسے کی رسد رہنے کی بڑی وجہ خالص مقامی اثاثہ جات (NDA) میں 17 فیصد اضافہ (2,336 ارب روپے اضافہ) ہونا ہے، کیونکہ مالی سال 2018 کے دوران نجی شعبے کو قرضوں کا اجراء کم رہا۔ ہم سمجھتے ہیں کہ اس کمی کی ایک اور وجہ حکومت کی جانب سے مالی خسارے کو پورا کرنے کے لیے قرضہ جات میں سالانہ بنیاد پر 16.6 فیصد (1,495 ارب روپے) اضافہ ہونا بھی ہے۔ مالی سال 2018 میں، غیر ملکی قرضہ جات کی بھاری ادائیگی کے باعث، خالص غیر ملکی اثاثہ جات میں (NFA) میں سالانہ بنیاد پر 132 فیصد کی قابل ذکر کمی ہوئی، جبکہ گزشتہ مالی سال کے اسی عرصے کے دوران ان میں 40 فیصد کمی آئی تھی۔ مالی سال 2018 کے دوران، کمرشل بینکوں سے حکومتی قرضہ جات

20 فیصد کا اضافہ بنتا ہے، جس کی بڑی وجہ اس عرصے کے دوران، محصولات میں ہونے والے اضافے کے مقابلے میں اخراجات میں ہونے والے اضافے کا زیادہ تیزی سے بڑھنا ہے۔ ترقیاتی اخراجات کی شرح میں صحت مندانہ اضافہ ہوا (مالی سال 2018 کے ابتدائی 9 ماہ میں ترقیاتی اخراجات میں سالانہ بنیادوں پر 37 فیصد اضافے نے جاری اخراجات میں سالانہ بنیادوں پر 13 فیصد اضافے کو پیچھے چھوڑ دیا)، جس نے معیشت میں نمو کے رجحان کو بڑھا دیا۔

میچوئل فنڈ انڈسٹری کا جائزہ

مالی سال 2018 کے دوران، پاکستان کی اوپن اینڈ میچوئل فنڈ انڈسٹری کی انتظامیت کے تحت مجموعی اثاثہ جات (AUMs)، 2.8 فیصد کی معمولی کمی کے بعد 1680 ارب روپے سے 1661 ارب روپے کی سطح پر آ گئے۔ اس کمی کی بڑی وجہ اسلامک ایکویٹی اور اگم فنڈ کی کمیگریزیشن بالترتیب 20 فیصد اور 16 فیصد کی گراؤٹ ہے۔ دوسری طرف، اس انڈسٹری نے منی مارکیٹ فنڈز میں سرمایہ کاروں کی دلچسپی کو بڑھتے دیکھا، جیسا کہ مالی سال 2018 کے دوران، شرح سود میں اضافے کے رجحان کے باعث، منی مارکیٹ فنڈز کے زیر انتظام مجموعی اثاثہ جات کی مالیت میں 77 فیصد کا اضافہ ریکارڈ کیا گیا۔

مجموعی طور پر، ایکویٹی کیٹیگری (جو کہ ایکویٹی اور اسلامک ایکویٹی فنڈز پر مشتمل ہے) کی مالیت جون 2018 میں سالانہ بنیادوں پر 16.1 فیصد کمی کے بعد 242 ارب روپے ریکارڈ کی گئی، جبکہ جون 2017 میں ان کی مالیت 288 ارب روپے تھی۔ مالی سال 2018 میں، بیکروائٹناک اشاریوں میں پیدا ہونے والی اتھری اور سیاسی بے یقینی کے باعث اسٹاک مارکیٹ کی کارکردگی کمزور رہی، جس کے باعث ایکویٹی فنڈز سالانہ بنیادوں پر 12.4 فیصد کمی کے بعد 137 ارب روپے مالیت کی سطح پر بند ہوئے۔ اسی طرح، اسلامک ایکویٹی فنڈز میں سالانہ بنیادوں پر 20.4 فیصد کمی شدیدی ریکارڈ کی گئی اور یہ 104 ارب روپے کی سطح پر بند ہوئے۔

منی مارکیٹ کا جائزہ

سال کے دوران، پالیسی ریٹ میں متوقع روو بدل کے باعث، لکسڈ اگم مارکیٹ میں غیر یقینی صورتحال رہی۔ مارکیٹ کار رجحان مجموعی طور پر قلیل مدتی رہا اور طویل مدتی انشورڈ منٹس میں بڑی شرکت سے کنارہ کشی اختیار کیے رکھی۔ افراط زر کی بڑھتی شرح کو قابو کرنے کے لیے، مالی سال 2018 کے دوران، اسٹیٹ بینک آف پاکستان نے، بنیادی شرح سود (پالیسی ریٹ) میں دوہارا اضافہ کیا (مجموعی طور پر 75 سو پوائنٹس اضافہ)۔ پالیسی ریٹ جنوری 2018 میں 5.75 فیصد سے بڑھا کر 6.0 کر دیا گیا اور مئی 2018 میں اسے مزید بڑھا کر 6.5 فیصد کر دیا گیا (اس کے برعکس پورے مالی سال 2017 کے دوران پالیسی ریٹ 5.75 فیصد کی شرح پر مستقل رہا)۔

مالی سال 2017 میں 4.2 فیصد کی شرح کے مقابلے میں، مالی سال 2018 کے دوران افراط زر میں سالانہ بنیادوں پر اضافے کی شرح 3.9 فیصد رہی۔ اس کی وجہ غذائی اشیاء اور تیل کی قیمتوں میں ہونے والا اضافہ ہے۔ اگرچہ، سال کے دوران مہنگائی کی مجموعی صورت قابو میں رہی، بیرونی کھاتوں پر بڑھتا ہوا، زرمبادلہ مارکیٹ میں روپے کی قدر میں کمی کا باعث بنا، جس وجہ سے آنے والے مالی سال کے دوران افراط زر میں اضافے کے خدشات پیدا ہو گئے ہیں۔ مزید برآں، مالی سال 2018 کی دوسری شش ماہی کے دوران، بنیادی افراط

تجسجى جانے والى رقوم مىں سالانہ بنياد پر 3 فيصد اضافانے كے ثبوت رجحان كو بڑھتى درآمدات (مالى سال 2018 مىں سالانہ بنياد پر 13.2 فيصد اضافانے) نے زائل كر ديا۔ بڑھتى درآمدات پر قابو پانے كے ليے، اسٹیٹ بینك آف پاڪستان نے مالى سال 2018 مىں، ڊسمبر 2017 سے آغاز كرتے ہوئے، تین مراحل مىں امرىكى ڈالر كے مقابلے مىں پاڪستانى روپے كى قدر مىں مجموعى طور پر 15.9 فيصد كى كى، تاہم اس كا كوئى فائدہ نہ ہوا۔ بيرونى كھاتے پر دباؤ كے علاوہ، اس عرصے كے دوران قرضہ جات كى واپسى كے باعث غير ملكى زرمبادلہ ذخائر مىں شديد كى ديكھى گئى۔ نتیجہً، مالى سال 2018 كے دوران، ہم نے پاڪستان كو بين الاقوامى كميونل ماركيٹ مىں واپس جانے ديكھا، جہاں 6.875 فيصد كى شرح پر 1.5 ارب ڈالر ماليت كا 10 سالہ پور و بانڈ اور 5.625 فيصد كى شرح پر ايڪ ارب ڈالر ماليت كا 5 سالہ سوكو جارى كيا گیا۔

مضبوط معاشى نمو كے باوجود عموى مہنگائى كى شرح، مالى سال 2018 كے ليے 6.0 فيصد كے حكومتى ہدف سے كم رہى اور اس دوران سالانہ بنياد پر مہنگائى كى شرح مىں اوسط 3.9 فيصد اضافانہ ہوا (مالى سال 2017 مىں سالانہ بنياد پر مہنگائى كى اوسط شرح 4.2 فيصد كے مقابلے مىں)۔ البتہ، تيل كى بين الاقوامى قيمتوں مىں دوبارہ اضافانے (مالى سال كے دوران عرب لائٹ كى قيمتیں 24.5 فيصد بڑھ گئیں) اور مالى سال 2018 كى دوسرى شش ماہى مىں امرىكى ڈالر مہنگا ہوجانے كے باعث، مہنگائى كے دباؤ مىں اضافانہ ہونے لگا اور جون 2018 مىں كنز يوہر پرائس انڈيڪس (CPI) مىں سالانہ بنياد پر اضافانے كى شرح بڑھ كر 5.2 فيصد ہو گئى (بنيادى انفرادى زير لىنى غير غذائى غير توانائى (NFNE) مہنگائى سالانہ بنياد پر 7.1 فيصد كى اوسط شرح سے بڑھ گئى جو گزشتہ مالى سال سالانہ بنياد پر اوسط 5.5 فيصد رہى تھى)۔ بعد ازاں، اسٹیٹ بینك آف پاڪستان نے، جنورى 2018 مىں 25 پيسز پوائنٹس (bps) اضافانے كے ساتھ شروعات كرتے ہوئے، مالى سال 2018 كى دوسرى شش ماہى كے دوران، مجموعى طور پر بنيادى شرح سود مىں 75 پيسز پوائنٹس (bps) اضافانہ كر ديا۔ تاہم، اسٹیٹ بینك آف پاڪستان نے، مارچ 2018 كے زرى پالیسى بيان مىں پالیسى ريت مىں اضافانے كے رجحان كو جارى نہ ركھا، جس كا جواز مركزى بينك نے يہ پیش كيا كہ، شرح سود مىں حديد اضافانے سے پہلے، روپے كى قدر مىں حاليت كى اور برآمدات مىں اضافانے كے اثرات كو جانچنا ضرورى ہے۔ البتہ، اپريل 2018 مىں بنيادى انفرادى (Core Inflation) كى شرح 7.00 فيصد كى رفتار سے بڑھنے كے بعد، مئى 2018 كے زرى پالیسى بيان مىں مركزى بينك نے پالیسى ريت 50 پيسز پوائنٹس بڑھانے ہوئے 6.50 فيصد كر ديا۔

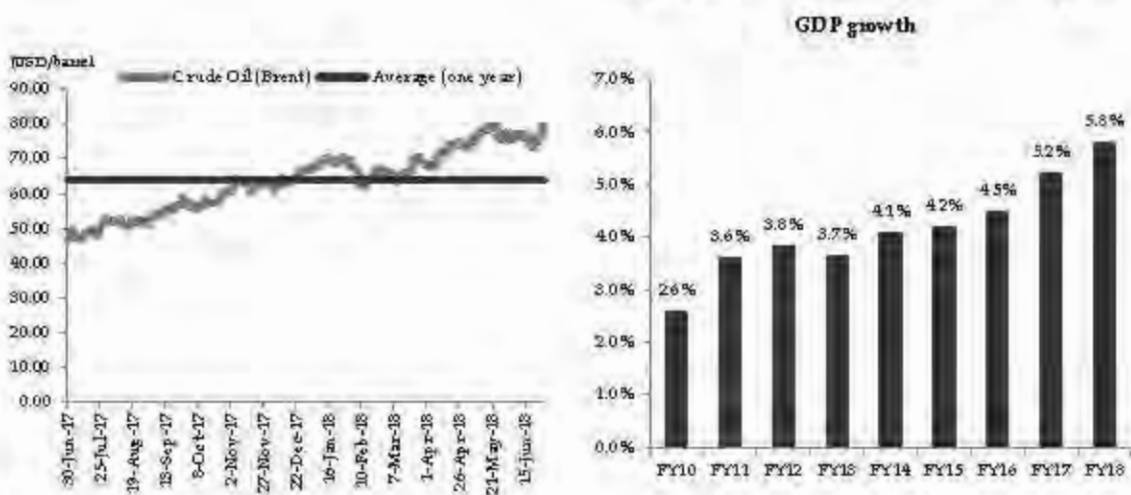

مالى سال 2018 كے ابتدائى 9 ماہ مىں مالى خسارہ 1,481 ارب روپے تك پہنچ گیا (مئى ڈى پى كا 4.3 فيصد)، جو سالانہ بنيادوں پر

اقتصادی کارکردگی کا جائزہ

مالی سال 2018 میں پاکستان کی میکرو معیشت کے لیے سب سے بڑا مسئلہ جزیں پکڑتا جڑواں خسارہ رہا، جس کے نتیجے میں غیر ملکی زرمبادلہ کے ذخائر تیزی سے کم ہو رہے ہیں۔ حکومت نے صورتحال پر قابو پانے کے لیے مالی سال 2018 کی دوسری سش ماعی میں زری پالیسی کو سخت کرنے کے اقدامات کیے، البتہ بیرونی کھاتوں کے خسارے میں اضافے کا رجحان برقرار رہا، جبکہ مالی سال 2018 کے اختتامی عرصے میں مہنگائی کے دباؤ میں بھی اضافہ ہوا، یہ تمام اشاریے ظاہر کرتے ہیں کہ معیشت ادور۔ ہیٹنگ کا شکار ہو رہی ہے۔ اگرچہ، معاشی شرح نمو 6.0 فیصد کا فراخ دلانہ ہدف حاصل کرنے میں کامیاب نہ ہو سکی، مالی سال 2018 میں مجموعی قومی پیداوار میں نمو کی شرح 5.8 فیصد رہی اور تینوں شعبوں (خدمات / صنعت / زراعت) میں سالانہ بنیاد پر بالترتیب 6.4 فیصد، 5.8 فیصد اور 3.8 فیصد اضافہ ہوا) میں بہتری کے ساتھ یہ 13 سال کی بلند ترین سطح عبور کر گئی۔ سی پیک کے تحت جلد مکمل ہونے والے ڈھانچہ جاتی منصوبوں پر جاری پیشرفت، توانائی کی خالص رسد میں اضافہ (مالی سال 2018 کے 11 ماہ میں پیدا کردہ پٹس میں سالانہ بنیاد پر خالصتاً 8.4 فیصد اضافہ ہوا) اور قرضہ جات کے حصول میں مستحکم بنیادوں پر مسلسل اضافہ (مالی سال 2018 کے 11 ماہ میں نجی شعبے کو جاری قرضہ جات میں سالانہ بنیاد پر 18 فیصد کا اضافہ ہوا، جس سے اس عرصے کے دوران قرضہ جات کا حجم 780 ارب روپے بڑھ گیا) معاشی نمو کی اہم وجوہات رہیں۔ البتہ، مجموعی قومی پیداوار کے تناسب سے مالی خسارہ جی ڈی پی کا 6.8 فیصد رہنے کی توقع ہے (جو کہ سنی 2018 میں تخمینہ کردہ جی ڈی پی کے 5.5 فیصد کے مقابلے میں بڑھ گیا ہے)۔

مالی سال 2018 میں سالانہ بنیادوں پر رواں کھاتوں کے خسارے (GAD) میں 45 فیصد اضافہ ہوا اور یہ 18 ارب ڈالر کی سطح تک جا پہنچا۔ برآمدات میں مستحکم اضافے (مالی سال 2018 میں سالانہ بنیادوں پر 13.2 فیصد اضافہ) اور مستند پار پاکستانیوں کی جانب سے
