#### REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of ABL Asset Management Company Limited, the management company of ABL Financial Planning Fund (ABL-FPF), is pleased to present the Condensed Interim Financial Statements (un-audited) of ABL Financial Planning Fund for the half year ended December 31, 2020.

#### ECONOMIC PERFORMANCE REVIEW

During the period, average inflation clocked in at 8.63%YoY compared to 11.10%YoY in SPLY. This reduction in inflation has been witnessed predominantly because of the base effect. The food index increased by 12.90%YoY due to higher food prices amid supply shocks, locust attack, and higher agriculture commodity prices in international markets. Similarly, the housing, water, electricity & gas index raised by 4.55%YoY while the transport index spiked up by 12.72%YoY on the back of tariff adjustments, quarterly rent adjustments, and recovered fuel and related transport prices. All these kept the benefit of the base effect in check. Going forward, we estimate the inflation to settle between 8.7-8.8%YoY.

Pakistan's economy shrunk by 0.40% during the FY20 due to Covid-19 lockdown and already battered economy. However, in the 2HCY20, the economy came back on track on the incentives announced by the government and monetary easing by the SBP. The large-scale manufacturing (LSM) data during the period of Jul-Oct'20 also depicting the same case as increased by 5.46%YoY against 5.52%YoY decline in the SPLY. The major sectors those contributed to the growth were food, beverages & tobacco (2.14%YoY), non-metallic mineral products (1.75%), pharmaceutical (0.70%YoY), and textile (0.67%YoY).

On balance of payment front, the country posted a cumulative surplus of USD 1.64bn during 5MFY21 against the deficit of USD 1.74mn which is unprecedented. The primary reason behind this was the 26.91%YoY higher remittances amounting to USD 11.77bn. This increase in remittances could be attributed partly to declining transactions through illegal channels due to government crackdown, and rest could be attributed to lack of air travel. Moving ahead, total exports remained down by 6.85%YoY to USD 11.70bn while the imports dropped by 3.96%YoY to USD 21.25bn. Trade size remained down by 5.01%YoY arriving at USD 32.95bn. Foreign exchange reserves of the country stand at USD 20.25bn, as of December 20, 2020, providing a total import cover of ~4.77 months.

On the fiscal side, tax collection has reached to ~PKR 2.20tr vs. a target of ~PKR 2.21tr resulting in a deficit of ~PKR 15bn.

#### MUTUAL FUND INDUSTRY REVIEW

Total assets under management (AUMs) of the open-end mutual fund industry posted an immense growth of 23%YoY (from PKR 788bn to PKR 970bn), mainly on account of substantial inflows in the money market fund. The pandemic created demand for safe havens. Money market and fixed income funds (including Islamic and conventional) witnessed a huge growth of 31%YoY and 18%YoY to close the period at PKR 379bn and PKR 220bn, respectively. On the other hand, equity funds - including both conventional and Islamic - swelled by 30%YoY to close the period at PKR 222bn.

#### **EQUITY MARKET REVIEW**

During 1HFY21, KSE-100 index exhibited tremendous performance, posting a massive return of 27.11%YoY, and closed at 43,755. This remarkable performance of KSE-100 index could be attributed on a number of positive developments such as monetary easing (rate cut by 625 bps), construction package, higher liquidity, healthy tax collection, availability of vaccination, lower import bill following a slump in international commodity prices and lower demand coupled with re-shifting of export orders to Pakistan amid closure of major textile export economies.

Average traded volume swelled by 136%YoY while value surged by 138%YoY to 445mn and USD 99mn, respectively. Foreigners sold worth USD 278mn shares during the said period. On the local front, individuals, Companies, and insurance companies remained on the forefront with a net buying of worth USD 159mn, USD 90mn, and USD82mn, respectively. Sectors contributing to the index strength included commercial banks, cements, and technology & communication adding 2,273, 1,482, and 1,062 points, respectively. On the flip side, miscellaneous and sugar & allied industries negatively impacted the index subtracting 45 and 7 points, respectively.

Going forward, we believe market will perform due to availability of corona vaccination, monetary easing, slowing inflation pressure, and stable exchange rate. Market is trading at TTM P/E multiple of 7.4x and dividend yield of 6.2%.

#### **Money Market Review**

During the period under view, the money market took a break from the upward trend observed during the FY19, as the sentiment turned from doom and gloom to optimism, market participants started to increase the duration of their portfolio. This resulted in the inversion of yield curve which is signaling the market expectations of rate cuts in the future. However, SBP after raising interest rates in July19 by 100bps put its feet off the accelerator and maintained a real interest rate of ~2.0%. Inflation clocked in at ~11.1% for 1HFY20 as compared to 5.98% in SPLY due to higher fuel, food and electricity prices on the back of depreciated PKR.

Pakistan investment bonds (PIBs) trading yields came down from 13.72% to 11.00%, with a significant tilt towards longer tenor instruments to lock in higher interest rates for the future. During the year, the money market witnessed a seasonal lack of liquidity as SBP continued with frequent open market operations (OMOs). At the end of the year, the SBP remained a net lender of worth PKR 975 billion under a single reverse repo arrangement at a cut-off rate of 13.31%.

On the T-bills side, the 3-Month cut off yields increased from 12.75% to 13.13%. During the period under review participation in 6 & 12M remained high as the market participants' expectation for inflation started to come down. The cut-offs for 12M T-bill came down by  $\sim$ 90bps to 13.13% whereas the bond cut off yields for 3, 5 & 10 years closed at 11.70%, 11.15% & 10.95% respectively.

#### **FUND PERFORMANCE**

ABL Financial Planning Fund has two Allocation Plans based on the risk appetite of investors i.e. "Conservative Allocation Plan", "Active Allocation Plan" & "Strategic Allocation".

#### **Conservative Allocation Plan**

Conservative Allocation Plan primarily aims to provide stable returns with capital appreciation through a pre?determined mix of investments in equity and income funds.

During the period under review, ABL Financial Planning Fund - Conservative Plan's AUM stood at PKR 198.01mn. ABL-FPF Conservative Plan posted an absolute return of 5.15% during the period under review.

#### **Active Allocation Plan**

Active Allocation Plan aims to earn a potentially high return through active asset allocation between Equity and Income schemes based on the Fund Manager's outlook on the asset classes.

ABL Financial Planning Fund - Active Plan's closed the year with AUM size of PKR 217.471mn. During the period, Active Allocation Plan posted an absolute return of 25.88% during the period under review.

#### **Strategic Allocation Plan**

Strategic Allocation Plan aims to earn a potentially high return through active allocation of funds between Equity and Fixed Income schemes based on fundamental analysis of economic indicators, underlying asset values and a strategy of risk aversion to market volatility.

ABL Financial Planning Fund - Strategic Plan's closed the year with AUM size of PKR 265.82mn. During the period, Active Allocation Plan posted an absolute return of 25.89% during the period under review.

#### **AUDITORS**

M/s. A.F. Fergusons & Co. (Chartered Accountants), have been appointed as auditors for the year ending June 30, 2021 for ABL Financial Planning Fund (ABL-FPF).

#### MANAGEMENT QUALITY RATING

On December 31, 2020: VIS Credit Rating Company Limited (VIS) has maintained the Management Quality Rating (MQR) of ABL Asset Management Company (ABL AMC) at 'AM2++' (AM-Two-Double Plus). Outlook on the assigned rating has been revised from 'Stable' to 'Positive'.

#### **OUTLOOK**

The market is expected to enjoy a ride, in the short run, amid healthy profits expected from the corporates, and in the long run, due to a discount to mean forward P/E multiple of the market. The foreign selling will be losing momentum in CY21. Moreover, to support the economic activities, the SBP will remain shy in increasing the interest rates; however, if needed, it will be gradual to counter the adverse effects. The country is witnessing a historic cement demand, providing an evidence of economic activities in the country after expansionary measures taken by the SBP and government. Nevertheless, current account may create some troubles; hence, the government being proactive implementing several structural reforms such as settlement of outstanding receivables of the power sector, tariff adjustments, tax base enhancement, etc. These all will likely to lead resuming the IMF program and managing the current account. Last but not the least, upcoming FATF review will also play a key role in setting direction for the market. It is pertinent to mention that it is almost unlikely of Pakistan going into black list, and if turned into white list, will boost the sentiments tremendously.

#### **ACKNOWLEDGEMENT**

We thank our valued investors who have placed their confidence in us. The Board is also thankful to Securities & Exchange Commission of Pakistan, the Trustee (Digital Custodian Company) and the management of Pakistan Stock Exchange Limited for their continued guidance and support. As a consequence of the 18th amendment to the Constitution of Pakistan, in May 2015 the Sindh Workers' Welfare Fund Act, 2014 (SWWF Act) had been passed by the Government of Sindh as a result of which every industrial establishment located in the Province of Sindh, the total income of which in any accounting year is not less than Rs 0.50 million, was required to pay Sindh Workers' Welfare Fund (SWWF) in respect of that year a sum equal to two percent of such income. The matter was taken up by MUFAP with the Sindh Revenue Board (SRB) collectively on behalf of various asset management companies and their CISs whereby it was contested that mutual funds should be excluded from the ambit of the SWWF Act as these were not industrial establishments but were pass through investment vehicles and did not employ workers. The SRB held that mutual funds were included in the definition of financial institutions as per the Financial Institution (Recovery of Finances) Ordinance, 2001 and were, hence, required to register and pay SWWF under the SWWF Act. Thereafter, MUFAP had taken up the matter with the Sindh Finance Ministry to have CISs / mutual funds excluded from the applicability of SWWF. In view of the above developments regarding the applicability of SWWF on CISs/mutual funds, MUFAP recommended that, as a matter of abundant caution, provision in respect of SWWF should be made on a prudent basis with effect from the date of enactment of the SWWF Act, 2014 (i.e. starting from May 21, 2015).

The Fund has made provision for SWWF from December 14, 2016 till June 30, 2017 amounting to Rs 3.530 million (June 30, 2020: Rs 3.530 million), Rs 1.001 million (June 30, 2020: Rs 1.001 million) and Rs 0.104 million (June 30, 2020: Rs 0.104 million) for Active Allocation Plan, Conservative Allocation Plan and Strategic Allocation Plan respectively million as the decision in this respect is pending to date. The Fund has not made any provision for SWWF after July 01, 2017 as the registered office of the Management Company of the Fund has been relocated from the Province of Sindh to the Province of Punjab.

Had the provision for SWWF not been recorded in these condensed interim financial statements of the Fund for the period from December 14, 2016 to June 30, 2017, the net asset value of the Fund as at December 31, 2020 would have been higher by Rs 1.7337 (June 30, 2020: Rs 1.6953) per unit, Re 0.5834 (June 30, 2020: Re 0.5835) per unit and Re 0.0437 (June 30, 2020: Re 0.0432) per unit for Active Allocation Plan, Conservative Allocation Plan and Strategic Allocation Plan respectively.

#### 11. CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments outstanding as at December 31, 2020 and June 30, 2020.

#### 12. TAXATION

The income of the Fund is exempt from income tax under clause (99) of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the Non-Banking Finance

Companies and Notified Entities Regulations, 2008, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of income earned by the Fund for the year ending June 30, 2021 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements during the period.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

#### 13. EARNINGS PER UNIT (EPU)

Earnings per unit (EPU) has not been disclosed as, in the opinion of the management, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

#### 16. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Fair value measurements using quoted price (unadjusted) in an active market for identical assets or liabilities;

Level 2: Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Fair value measurement using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at December 31, 2020 and June 30, 2020, the Fund held the following financial instruments measured at fair value:
